Regional Organizations in International Society Kilian Spandler, 2018-09-20 This book explores the normative foundations of ASEAN and the EU It revives the history of the two organizations in an in depth narrative of the protracted arguments surrounding their establishment legal integration and enlargement While political actors used norms to legitimize their ideas for institutional change the complex and dynamic nature of these norms also provided the breeding ground for contestation and sometimes institutional sclerosis and failure Recasting these processes in an innovative English School framework the volume makes a crucial contribution to the literature of Comparative Regionalism that goes beyond Eurocentric perspectives

Initiatives of Regional Integration in Asia in Comparative Perspective Howard Loewen, Anja Zorob, 2018-03-12 This volume offers to compare and explain variances of regionalism in Asia by disclosing the distinctive features of regional arrangements and how they evolved during the 1990s and 2000s against the background of a changing global environment Moreover it takes up a genuinely inter Asian perspective By analysing and comparing diverse manifestations of regional integration agreements across Asia and its different sub regions it sets out to track their common characteristics and sub regional facets with respect to their establishment design and consequences In addition political processes accompanying their negotiation and implementation are scrutinized The analysis encompasses nine case studies written by renowned scholars who together as a group combine an extraordinary mixture of different disciplinary backgrounds as well as expertise on shapes and processes of regional integration in different parts of Asia The case studies seize on some of the most important features and controversial issues characterizing the second regionalism Such are the emergence and impact of overlapping FTAs regional financial and sub regional economic integration and cooperation power and the politics of regional integration as well as the nexus between conflict resolution state failure and regional integration

China, East Asia and the European Union, 2016-11-21 In *China East Asia and the European Union* specialist authors from both Europe and Asia reflect on the dynamic relationship between the three actors from an International Relations perspective The book is a testimony to China's seemingly unstoppable rise both in the East Asian region and in the relationship with the EU and its member states The authors investigate why the economic links between the European Union and East Asia have become so firmly established while in comparison the political bond has remained underdeveloped They conclude that the crises the EU is currently facing seriously affect its manoeuvring space vis a vis China and its neighbours both economically and politically Contributors are
