Metaphysical Flight Attendant Rebecca Tripp, Bryna René, 2014-01-13 Secrets of a Metaphysical Flight Attendant is a spiritual memoir that explores the symbiotic relationship between thought and reality and proves that we really do have the power to create our lives With lighthearted wit piercing clarity and unapologetic insight Rebecca Tripp delivers her tale of a life lived in motion In 1967 Rebecca left her sleepy seaside hometown to navigate a new life at 35 000 feet as a sky goddess with United Airlines With barely a flicker of her false eyelashes she was plunged into a rapidly shifting world of glamour gods and Playboy bunnies first class fliers and spiritual seekers As a fun loving stew Rebecca literally had the world at her feet Yet something was missing Life was coming at her not the other way around How could she take back the controls and create the life she really wanted Over the next thirty five years through many adventures both enlightening and traumatic Rebecca transformed herself from doe eyed innocent to mature powerful manifestress Tapping the power of the spiritual realm she overcame fear doubt toxic relationships rape and even cancer simply by shifting her thought Her experiences shared with the wisdom of a lifetime demonstrate that we all have the power to heal our minds and bodies and create our lives according to our greatest desires *Unitary Caring Science* Jean Watson, 2018-07-16 Unitary Caring Science The Philosophy and Praxis of Nursing takes a profound look at conscious intentional reverential caring healing as sacred practice praxis and as a necessary turn for survival Jean Watson posits Unitary Caring Science for the evolved Caritas conscious practitioner and

scholar A detailed historical discussion of the evolution from Caring Science toward Unitary Caring Science reflects the maturing of the discipline locating the nursing phenomena of wholeness within the unitary field paradigm An exploration of praxis as informed moral practice results in an expanded development of the ten Caritas processes resulting in a comprehensive value guide to critical Caritas literacy and ontological Caritas praxis Watson writes for the Caritas Conscious Nurse™ or the Caritas Conscious Scholar Practitioner Educator on the journey toward the deeper caring healing dimensions of life Unitary Caring Science offers a personal professional path of authenticity bringing universals of Love Energy Spirit Infinity of Purpose and Meaning back into nurses lives and their life s work Unitary Caring Science serves as a continuing evolving message to the next generation of nurse scholars and healing health practitioners committed to a praxis informed by mature disciplinary consciousness Individual customers will also receive a secure link to select copyrighted teaching videos and meditations on www.watsoncaringscience.org *Science of Last Rites* Dr. Mita Shah Ph.D.,2018-05-15 This book *Science of Last Rites* An insightful journey into the World of Spirit is a unique book in itself It deals with the science of last rites performed for the departed loved one The traditions customs and methods of these rites may differ from religion to religion and culture to culture according to time place and circumstances However the belief remains the same The soul after leaving the physical body has to move forward which is possible only when the soul is at peace The author has very insightfully used the regression in life between life states to find out what happens when rituals prayers food or donation are offered in the name of the departed soul In case it has any effect how will the spirit receive this You will find out how small things like reading the scriptures lighting a light bathing the dead body the rites themselves help the departed souls and the survivors This is an unusually interesting and an extensively well researched book **Subject Guide to Books in Print** ,1996 **Looking In, Seeing Out** Minas C. Kafatos,1991-10-01 Most books on science and mysticism attempt to link modern physics to philosophic views of consciousness This book explores the two as parallel processes one outer one inner Our outward search is for objective reality out there in the world But what we experience as outer is linked to what we can know in ourselves subjectively The inward search is for that level of consciousness that underlies all subjective experience spoken of by the mystics Like other recent others Drs Kafatos and Karatou find parallels between Eastern thought and recent scientific developments in quantum theory and cosmology But they go farther and hold that the realms of consciousness and the objective world are complementary aspect of the same reality Their approach is fresh and unique and shows how we are involved in the cosmic process *Feng Shui: Teaching About Science and Pseudoscience* Michael R. Matthews,2019-07-18 This book provides a richly documented account of the historical cultural philosophical and practical dimensions of feng shui It argues that where feng shui is entrenched educational systems have a responsibility to examine its claims and that this examination provides opportunities for students to better learn about the key features of the nature of science the demarcation of science and non science the characteristics of pseudoscience and the engagement of

science with culture and worldviews The arguments presented for feng shui being a pseudoscience can be marshalled when considering a whole range of comparable beliefs and the educational benefit of their appraisal Feng shui is a deeply entrenched three millennia old system of Asian beliefs and practices about nature architecture health and divination that has garnered a growing presence outside of Asia It is part of a comprehensive and ancient worldview built around belief in chi qi the putative universal energy or life force that animates all existence the cosmos the solar system the earth and human bodies Harmonious living requires building in accord with local chi streams good health requires replenishment and manipulation of internal chi flow and a beneficent afterlife is enhanced when buried in conformity with chi directions Traditional Chinese Medicine is based on the proper manipulation of internal chi by acupuncture tai chi and qigong exercise and herbal dietary supplements Matthews has produced another tour de force that will repay close study by students scientists and all those concerned to understand science culture and the science culture nexus Harvey Siegel Philosophy University of Miami USA With great erudition and even greater fluidity of style Matthews introduces us to this now world wide belief system Michael Ruse Philosophy Florida State University USA The book is one of the best research works published on Feng Shui Wang Youjun Philosophy Shanghai Normal University China The history is fascinating The analysis makes an important contribution to science literature James Alcock Psychology York University Canada This book provides an in depth study of Feng Shui in different periods considering its philosophical historical and educational dimensions especially from a perspective of the demarcation problem between science and pseudoscience Yao Dazhi Chinese Academy of Sciences China
