The Way, The Truth, and The Life Pablo H. Solutin, Many of us believe or being made to believe that the Bible is the complete and inerrant word of God As far as completeness is concerned that is not what the Bible is saying in John 21 25 of the New Testament It says that if all the works of the Son of God were written even the world cannot contain all the writings So the Bible itself honestly admits its own incompleteness As far as the Bible s being inerrant there are obvious errors in the English versions of today The books in the Bible were originally written in Hebrew in ancient time There have been a lot of changes in the Hebrew language at the time of the translation to Latin and Greek That means the understanding of the translator could be affected by the culture of that time For example the Hebrew letters in ancient times were written in pictograph The letter hey for example is drawn like a man with arms raised The letter yad is drawn like a hand The word hayah still means exist today as in ancient times But in ancient times it is drawn as a man with arms raised a hand and a man with hands raised There is strong reason to believe that the word has something more profound to say in ancient times That is lost in the Hebrew language at the time of the translation Another example is the use of us and our in God s statement in Genesis chapter one Who was God talking to This is due to the fact that the word God was translated from the Hebrew word Elohim which is plural The singular is Eloha It is very obvious that the translation was influenced by the preconceived one god idea of the translator That renders the texts seemingly inconsistent Christian churches make their followers believe that their teachings and practices are consistent with what the Bible says This is not true most of the time Some even contradict the Bible

Truth of Rebirth

Mahesh Sharma, Science tells us that on this earth there is no such phenomenon called as Rebirth and medical science tells us that there is another life after this birth Most of the religions to support this phenomenon but it is still impossible to tell as though how can a person take a rebirth after dying once According to Hindu religion principles of rebirth are very important It tells us that before this birth we already have taken infinite births and passed through this cycle of death and rebirth This world of the cycle of rebirth keeps a dense meaning about it Though everyone is aware of the word cycle of rebirth many do not know the actual meaning of the word Generally everyone takes it as world and worldly things According to Hindu religion we come in this world again and again and afterward we pass into more minute and a bigger world This way we die and take birth again and again If we believe in the Hindu mythology then according to them the soul travels in the atmosphere visits places such as hell and heaven but in the end it has to enter its body again The astrologers also believe this and thus most of their predictions resolve in this matter According to them we are rewarded or punished according to our deeds we either get it in our lifetime or in our next birth Our deeds form our stars and we take birth according to our stars This process can take years or even decades The Hindus strongly believe in it Before becoming a human being our soul has entered almost a thousand bodies The word universe has very deep meaning to which not everyone is known Everybody knows the word but not the meaning and significance behind it A common man may describe it as the world in which we live but the Hindu mythology believes that there are different worlds in which we go according to our deeds In this way we take several births and even die several times Saint Shankaracharya has explained this in his hymns in the book Bhaj Govindam as Rebirth and Redie in other words again and again die and take birth again and again This circle of life and death is referred to as the universe It is not only the Hindus that believe in this process but also the other religions though they have their separate explanations and thus they try to please their ancestors by praying to them on a particular day in this way or the other way

The scientists don't believe in hell, heaven and rebirth but what evidences they have got cannot also be said to be untruths or simply nothing. One such thing is that what is the thing which enters a person's mind after his death and fills it with memories of his past life. To answer this question even the scientists have to believe in such things. **Mysteries of the World According to Buddhism**, **Rebirth as Doctrine and Experience** Francis Story, 2000-12-01 Francis Story's interest in cases of rebirth memories finally led him to assist Dr Ian Stevenson in tracing, investigating and studying such cases in Sri Lanka, Thailand and India. The present book contains Story's essays on the theme of rebirth as well as case studies that he undertook in collaboration with Professor Stevenson, the foremost American investigator of reported rebirth memories. These case studies, which make fascinating reading, lend strong evidential support to the hypothesis of rebirth and thus help to illuminate the ultimate questions concerning human destiny after death. **Weekly World News**, 1999-05-11 Rooted in the creative success of over 30 years of supermarket tabloid publishing, the Weekly World News has been the world's only reliable news source since 1979. The online hub www.weeklyworldnews.com is a leading entertainment news site.

Stalking White Crows Jack Crittenden, 2019-12-14 How making up our minds and the makeup of our minds can help us live better and die better. We live in a climate where feelings trump reason and evidence. Lies are treated as alternative facts. At the same time it seems our culture does not want us to treat altered or higher states of consciousness seriously. Focusing both on evidence and on such states of consciousness can reorient our attitudes. Jack Crittenden asks the reader to think about life after death, about the basis of morality and the essence of spirituality, about the meaning of happiness, about the path of dying and about the proper role of work in our lives and how education connects to that role. What if our memories, thoughts and whole personality lived on after we died? What if morality were based on reasons and evidence and not on God and sacred texts? What if happiness lies not in what we think, how we feel and what we long for but in living in the present and in the dying of the self itself? Experiences of and the evidence on altered and higher states of consciousness can lead us to better lives and better deaths.
