Eurythmy as Visible Singing Rudolf Steiner,2019-10-23 The study of music is the study of the human being The two are inseparable and eurythmy is the art which brings this most clearly to expression In these lectures Rudolf Steiner guides us along a path toward an understanding of the human form as music comes to rest the movements of eurythmy bringing this music back to life Dorothea Mier Fundamentally speaking music is the human being and indeed it is from music that we rightly learn how to free ourselves from matter Rudolf Steiner The focus of these eight lectures is the source of movement and gesture in the human being The movement in musical experience is thus traced back to its origin in the human instrument itself Like the degrees of the musical scale Rudolf Steiner leads his select audience of young artists through eight stages focusing on the living principles of discovery and renewal Eurythmy was born in the turbulent decades of the early twentieth century From an individual question as to whether it was possible to create an art based on meaningful movement Rudolf Steiner responded with fresh creative possibilities for a renewal of the arts in their totality The new art of eurythmy was an unexpected gift Today music eurythmy along with its counterpart based on speech is practiced as an art taught as a subject in schools enjoyed as a social activity and applied as a therapy This definitive translation of Steiner s original lecture course on eurythmy includes a facsimile transcription and translation of the lecturer s notes together with an introduction and index The volume is
