Reincarnation And Theosophy

Katherine Augusta Westcott Tingley

Reincarnation And Theosophy:

Reincarnation and Destiny Rudolf Steiner, 2018-06-18 This excerpt is taken from the book Theosophy which Rudolf Steiner published at the beginning of his theosophical career in 1904 Although Steiner himself did not make such a designation Theosophy has come to be regarded as one of the four basic books of anthroposophy This chapter however is quite exceptional within the book and thus it deserves to stand alone Unlike the rest of Theosophy which consists of somewhat static revelations of spiritual facts Chapter 2 is a closely argued logical argument Indeed it is quite gnomic in many places The argument is hard to follow but it is well worth the effort The high point comes early in the essay where Steiner sets up a beautifully symmetrical case for reincarnation and karma He reminds us that memory transforms transitory experience into permanence On the basis of remembered experience we react differently when we next meet a similar stimulus But in the same way the world is permanently changed by our deeds and the world remembers our actions the next time we encounter it The world reacts to us differently as a result of our previous action Seemingly chance events that strike us are anything but rather they are the karmic consequences of our deeds and as much a part of an expanded notion of our self as is memory There are several other beautiful arguments besides A notable example is the claim that each human individual is a species unto themselves and thus the talents that we bring into incarnation can only be inherited from ourselves in an earlier life Such arguments must inevitably remain silhouette like But Steiner assures us both that the trains of thought are shadows of spiritual realities and that the labor of following them is a good preparation for spiritual seeing

Reincarnation Leoline L. Wright, 1943 **Recycled Lives** Julie Chajes, 2019-01-02 A sizeable minority of people with no particular connection to Eastern religions now believe in reincarnation The rise in popularity of this belief over the last century and a half is directly traceable to the impact of the nineteenth century's largest and most influential Western esoteric movement the Theosophical Society In *Recycled Lives* Julie Chajes looks at the rebirth doctrines of the matriarch of Theosophy the controversial occultist Helena Petrovna Blavatsky 1831-1891 Examining her teachings in detail Chajes places them in the context of multiple dimensions of nineteenth century intellectual and cultural life In particular she explores Blavatsky's readings and misreadings of Spiritualist currents scientific theories Platonism and Hindu and Buddhist thought These in turn are set in relief against broader nineteenth century American and European trends The chapters come together to reveal the contours of a modern perspective on reincarnation that is inseparable from the nineteenth century discourses within which it emerged and which has shaped how people in the West tend to view reincarnation today **The Concept of Reincarnation in Theosophy** Julie Hall, 2011 *Theosophy*, 192? **Reincarnation in America** Lee Irwin, 2017-07-31 *Reincarnation in America* An Esoteric History surveys the complex history of reincarnation theories across multiple fields of discourse in a pre American context ranging from early Greek traditions to Medieval Christian theories Renaissance esotericism and European Kabbalah all of which had adherents that brought those theories to America Rebirth theories are

shown in all these groups to be highly complex and often disjunctive with mainstream religions even though members of conventional religions frequently affirm the possibility of rebirth As a history of an idea reincarnation theory is a current vital belief pattern that cuts across a wide spectrum of social cultural and scientific domains in a long complex history not reducible to any specific religious or theoretical explanation This book is cross disciplinary and multicultural linking religious studies perspectives with science based research it draws upon many distinct disciplines and avoids reduction of reincarnation to any specific theory The underlying thesis is to demonstrate the complexity of reincarnation theories what is unique is the historical overview and the gradual shift away from religious theories of rebirth to new theories that are therapeutic and trans traditional *The Scope of Reincarnation* William Quan Judge,1960 THIS IS a book that makes us feel we have always lived somewhere It is a book on reincarnation which seeks out the roots of the philosophy of rebirth bringing the reader into intimate acquaintance with a whole view of life Reincarnation in this light is seen as the idea of a universal process beyond all creeds and dogmas So this is a book to build upon to read again and again Publisher *Encyclopedia of Reincarnation and Karma* Norman C. McClelland,2018-10-15 Featuring over 1 200 topical entries arranged alphabetically this encyclopedia provides diverse and detailed coverage of the related subjects of reincarnation and karma Its in depth examination ranges from ancient beliefs to those of the present incorporating all relevant world cultures A series of broad thematic entries cover foundational aspects while over a thousand highly focused entries deal with various societies and organizations which support the concepts of reincarnation and karma specific religious groups sects and associations key individuals both historic and modern and related beliefs concepts and practices *The Complete Idiot's Guide to Reincarnation* David Hammerman,Lisa Lenard,2000 Offers an introduction to reincarnation including the evidence that it occurs the beliefs of various traditions gaining access to past lives karma soul cycles and the use of reincarnation in psychotherapy *The American Theosophist* ,1912 *The Theosophical Path* Katherine Augusta Westcott Tingley,1921

Karma and Rebirth Ronald W. Neufeldt,1986-05-31 Karma and Rebirth Post Classical Developments explains the religious concepts most central to Asian philosophy religion and society presenting articles representative of contemporary understanding and practice The contributors look not only at the understanding of karma and rebirth in modern India but also in Sri Lanka and Southeast Asia Tibet China Japan and the Western world This broad treatment underscores the fact that karma and rebirth have become part of the religious history and cultural fabric of the Western world The collection is divided into three sections Part I deals with figures and movements of the Hindu renaissance in India in the nineteenth and twentieth centuries Part II on Buddhism deals with Indian Chinese Tibetan and Japanese treatments of karma Part III is devoted to the influence of karma and rebirth in the Western world through theosophy new religious movements and recent developments in psychology **Reincarnation in World Thought** Joseph Head,S. L. Cranston,1967 Of all ideas generally regarded as having no place in Western thought reincarnation is the most frequently asked about it keeps arising in people s

thinking by what seems to be a spontaneous curiosity It emerges as a frequent theme in play and novel Psychologists write theses on reincarnation Books on the possibilities of many lives are authored by clergymen A team of psychiatrists is currently investigating cases of supposed remembrance of former existences Reincarnation is definitely in the air But how many individuals have informed views as to what reincarnation really means Who is aware of the long history behind the idea in Western civilization Reincarnation in World Thought explores what great thinkers through the ages have said on the subject It examines what the world s religions philosophies and sciences have contributed and are contributing to the discussion Searching out the roots of the concept it endeavors to discover whether reincarnation is simply the dream of wishful thinking or possibly a universal lawful process beyond all creeds and dogmas Both assenters and dissenters to the theory find space in these pages Opening with introductory essays on reincarnation by four distinguished educators the volume is intriguingly arranged in six parts I Reincarnation in Myth and Symbol II Reincarnation in the World s Religions III Reincarnation in Theosophy and Masonry IV Reincarnation Among Peoples of the World African American Indian etc V Western Thinkers on Reincarnation the largest section of the book VI Scientists Psychologists and Philosophers on Reincarnation front flap

Hopis and the Counterculture Brian Haley, 2024 This book addresses how the Hopi became icons of the followers of alternative spiritualities and reveals one of the major pathways for the explosive appropriation of Indigenous identities in the 1960s It reveals a largely unknown network of Native non Indian and neo Indian actors who spread misrepresentations of the Hopi that they created through interactions with the Hopi Traditionalist faction of the 1940s through 1980s Significantly many non Hopis involved adopted Indian identities during this time becoming neo Indians Exploring the new social field that developed to spread these ideas Hopis and the Counterculture meticulously traces the trajectories of figures such as Ammon Hennacy Craig Carpenter Frank Waters and the Firesign Theatre among others Drawing on insights into the interplay between primitivism radicalism stereotyping and identity Haley expands on concepts from scholars such as Roy Harvey Pearce s notion of isolated radicals and Jonathan Friedman s observations regarding the ascendancy of primitivism amid global crises Haley scrutinizes the roles played by non Hopi actors and the timing behind the widespread popularization of Hopi religious practices

Reincarnation ,1932 The Literary Digest ,1893 **The Path** ,1896 **Recurring Earth-lives, how and why** Frederick Milton Willis,1921 Theosophical Quarterly ,1912 **The Universal Cyclopaedia** ,1900
