comprehensive and systematic evaluation of reincarnation and Karma in any language. Renowned philosopher Paul Edwards exposes the many flaws in the arguments supporting the belief in reincarnation and the so called Law of Karma. He also covers the alleged evidence in support of reincarnation including child prodigies, déjà vu experiences, hypnotic regressions and reincarnation memories. Finally, he discusses in some detail the claims of the leading figures in the recent immortality movement, in particular Elisabeth Kuebler-Ross, Raymond Moody and Dr. Stanislov Grof. Edwards' wit and clarity make this a fascinating, accessible and enjoyable work.

Karma, Nirvana and Reincarnation in Buddhism and Hinduism. L. de la Vallée Poussin, 2015-03-26. The primitive meaning of this celebrated word Nirvana seems to be twofold: on the one hand, becoming cool, cooling; on the other hand, blowing out, extinguishing. There is a nirvana of a man who is thirsty as well as of a candle. Hence two directions in the evolution of the religious or philosophical meaning of the word: Cooling, refreshment, the refreshment of a man who is suffering, the cooling of a man who is hot with desire, comfort, peace, serenity, bliss. Also, extinction, detachment or extinction of the fire of the passions, negative bliss or extinction of suffering, annihilation or extinction of individual existence. Each metaphor is apt to convey two distinct ideas. On the one hand, Nirvana is Sanctity, arhātva. For a Saint, arhat, has become cold, śītibhūta, as he is no more burned by the fire of passions and he has extinguished this fire. On the other hand, Nirvana is the ultimate end of a man, the state of a Saint after death. For Nirvana may be cooling of suffering, an eternal refreshment or extinction of existence.

Karma and Rebirth Christmas Humphreys, 1959. **Handbook of Death and Dying** Clifton D. Bryant, 2003-10. Dying is a social as well as physiological phenomenon. Each society characterizes and consequently treats death and dying in its own individual ways, ways that differ markedly. These particular patterns of death and dying engender modal cultural responses and such institutionalized behavior has familiar, economical, educational, religious and political implications. The Handbook of Death and Dying takes stock of the vast literature in the field of thanatology, arranging and synthesizing what has been an unwieldy body of knowledge into a concise yet comprehensive reference work. This two-volume handbook will provide direction and momentum to the study of death-related behavior for many years to come.

Key Features: More than 100 contributors representing authoritative expertise in a diverse array of disciplines: Anthropology, Family Studies, History, Law, Medicine, Mortuary Science, Philosophy, Psychology, Social Work, Sociology, Theology. A distinguished editorial board of leading scholars and researchers in the field. More than 100 definitive essays covering almost every dimension of death-related behavior. Comprehensive and inclusive, exploring concepts and social
