Reinventing Government Appraising The National Performance Review Cpm Report 94 :

Reforming Governance Franz Gress,2001 *Reforming the World Bank* David A. Phillips,2009-03-30 This book explains why the World Bank has not achieved substantive efficiency or effectiveness in delivering economic assistance

Downsizing the Federal Government Vernon D Jones,2016-07-01 The main focus of downsizing has shifted from the private to the public sector The cutbacks began in the Department of Defense Now the goal is a federal civilian workforce reduction of 12 percent by the year 2000 This pioneering study looks at the management of workforce reductions in the public sector both in theory and in practice Three case studies of the Defense Logistics Agency the Bureau of Reclamation and the Food and Drug Administration illustrate the organizational managerial and human dimensions of attempting to improve performance with reduced resources The author draws on extensive interviews with senior executives and middle managers in the three agencies at the General Accounting Office the Office of Personnel Management and the National Performance Review the Senior Executives Association and the Federal Managers Association and scholars and researchers In a larger sense this work pushes the boundaries of knowledge concerning organizational change and makes a significant contribution to organization theory It offers important new insights not only for public sector managers but for organization theorists and management specialists whose work on downsizing has been presumed but not shown to be applicable to the public sector **General Technical Report NE** ,1980 Social and Economic Control of Alcohol Carole L.

Jurkiewicz,Murphy J. Painter,2007-11-14 As a toast to success a drowning of sorrows a rite of passage and the fuel for most social activities alcohol plays a central role in our culture Alcohol generates nearly 160 billion in US revenues annually and is a major source of tax revenue making the stakes in the modern debate over its use misuse and regulation staggeringly high

Fact **Proceedings of the 1995 Northeastern Recreation Research Symposium** ,1995 **Reinventing Government?** Donald F. Kettl,1994 Examines governmental reform efforts under Vice President Gore s National Performance Review since September 1993 Public Management Reform and Innovation H. George Frederickson,Jocelyn M. Johnston,1999-05-24 Leading scholars present the most complete as well as the most advanced treatment of public management reform and innovation available The subject of reform in the public sector is not new indeed its latest rubric reinventing government has become good politics Still as the contributors ask in this volume is good politics necessarily good government Given the growing desire to reinvent government there are hard questions to be asked Is the private sector market model suitable and effective when applied to reforming public and governmental organizations What are the major political forces affecting reform efforts in public management How is public management reform accomplished in a constitutional democratic government How do the values of responsiveness professionalism and managerial excellence shape current public management reforms In this volume editors H George Frederickson and Jocelyn M Johnston bring together scholars with a shared interest in empirical research to confront head on the toughest questions public managers face in

their efforts to meet the demands of reform and innovation Throughout the book the authors consider the bureaucratic resistance that results when downsizing and reinvention are undertaken simultaneously the dilemma public managers face when elected executives set a reform agenda that runs counter to the law and the mistaken belief that improved management can remedy flawed policy

The Age of Direct Citizen Participation Nancy C. Roberts, 2015-01-28 Citizen involvement is considered the cornerstone of democratic theory and practice Citizens today have the knowledge and ability to participate more fully in the political technical and administrative decisions that affect them On the other hand direct citizen participation is often viewed with skepticism even wariness Many argue that citizens do not have the time preparation or interest to be directly involved in public affairs and suggest instead that representative democracy or indirect citizen participation is the most effective form of government Some of the very best writings on this key topic which is at the root of the entire reinventing government movement can be found in the journals that ASPA publishes or sponsors In this collection Nancy Roberts has brought together the emerging classics on the ongoing debate over citizen involvement Her detailed introductory essay and section openers frame the key issues provide historical context and fill in any gaps not directly covered by the articles More than just an anthology *The Age of Direct Citizen Participation* provides a unique and useful framework for understanding this important subject It is an ideal resource for any Public Administration course involving citizen engagement and performance management

Entrepreneurial Management and Public Policy Van R. Johnston, 2000 A collection of 14 papers by Johnston and other scholars

Taking Stock Canadian Centre for Management Development, 1998 Political scientists mainly from developed English speaking countries report on the success and failure of reforms looking at such areas as budgeting personnel management and accountability They isolate and evaluate factors that influence the outcome including individual political leaders and the complexity of government No index Canadian card order number C98 900231 4 Annotation copyrighted by Book News Inc Portland OR

Colombia, 1997-01-01 The collaborative efforts of Colombia's Department of National Planning DNP and the World Bank has produced the National Evaluation System of Public Sector Performance SYNERGY Put in place by the Special Division for Evaluation in DNP this system has been designed and implemented to change the public sector from an inward looking process oriented body which sometimes restrains economic and social progress into a more dynamic results oriented partner of the community and private sector in development This report explores the critical factors in making SYNERGY a successful evaluation system Such factors include ways of making it an effective management tool promoting civil society participation by focusing on results for people and leveraging on their energy and resource defining a constructive learning process for implementation and providing an enabling environment for a results oriented public sector

In the Web of Politics Joel D. Aberbach, Bert A. Rockman, 2001-09-19 Most people think of governmental bureaucracy as a dull subject Yet for thirty years the American federal executive has been awash in political controversy From George Wallace's attacks on pointy headed bureaucrats to

Richard Nixon's responsiveness program to the efforts of Al Gore and Bill Clinton to reinvent government the people who administer the American state have stood uncomfortably in the spotlight caught in a web of politics This book covers the turmoil and controversy swirling around the bureaucracy since 1970 when the Nixon administration tried to tighten its control over the executive branch Drawing on interviews conducted over the past three decades Joel D Aberbach and Bert A Rockman cast light on the complex relationship between top civil servants and political leaders and debunk much of the received wisdom about the deterioration and unresponsiveness of the federal civil service The authors focus on three major themes the quiet crisis of American administration a hypothesized decline in the quality and morale of federal executives the noisy crisis which refers to the large question of bureaucrats responsiveness to political authority and the movement to reinvent American government Aberbach and Rockman examine the sources and validity of these themes and consider changes that might make the federal government's administration work better They find that the quality and morale of federal executives have held up remarkably well in the face of intense criticism and that the bureaucracy has responded to changes in presidential administrations Pointing out that bureaucrats are convenient targets in contemporary political battles the authors contend that complexity contradiction and bloated or inefficient programs are primarily the product of elected politicians not bureaucrats The evidence suggests that American federal executives will carry out the political will if they are given adequate support and realistic

Politicians, Bureaucrats and Administrative Reform B. Guy Peters, Jon Pierre, 2008-08-28 Administrative reform in most western democracies over the past couple of decades has been characterized by bringing in market based concepts of public service delivery This book looks critically at administrative reform in a comparative perspective The contributors experts on administrative reform assess its scope and objectives and also the ways in which these reforms have impacted on the traditional roles of elective office and civil servants This book will be an invaluable resource for students and academics in Politics and Public Administration as well as for civil servants and experts on administrative reform

Government Employee Relations Report, 1994 Public Productivity Through Quality and Strategic Management Arie Halachmi, Geert Bouckaert, 1995 The book deals with the complexity of several concepts like the following example Quality is by no means a simple or single concept it can mean compliance with pre determined specifications of processes or outputs it can mean assessment of outcomes or gatekeeping in other words assuring the quality of the inputs etc The parallels with measuring productivity are obvious if you cannot get good handles on outputs then use inputs and then politicians wonder why productivity appears to stagnate in services This problem of the simple becoming complicated was understood by the Japanese at the inception of their productivity movement Having carefully analyzed how Europe had adopted and adapted American productivity techniques and approaches and being faced with a turbulent system of industrial relations and a poor quality image the initiators of the Japanese productivity movement came to the conclusion that at least a cease fire and at best a treaty had to be negotiated between organised labour management and government

The resulting 1955 productivity principles are being addressed in the book **Public Administration and Public Affairs**
Nicholas Henry, 1999 For public administration or public affairs courses on the undergraduate or graduate level this
comprehensive up to date text emphasizes a value based approach to the study and practice of public administration
Government Finance Review, 1995 **Réformer le secteur public** B. Guy Peters, Centre canadien de gestion, Donald J.
Savoie, 1998 **Public Governance: Good governance** Mark Bevir, 2007
