Relational Self Theoretical Convergences In Psychoanalysis And Social Psychology:

The Relational Self Rebecca C. Curtis, 1991-03-22 In recent years the traditional psychoanalytic view of the self as an autonomous entity has been shifting to a more relational perspective This evolution from a solely intrapsychic stance brings psychoanalysis closer to the viewpoint of social psychology formerly a highly divergent discipline Bridging these different literatures THE RELATIONAL SELF describes the extent and meaning of these convergences The book is divided into four sections The first two examine current perspectives from psychoanalytic self psychology and social psychology and the latter two present an integration of psychoanalytic and social personality approaches Part One reviews the psychoanalytic theories of character structure that focus upon identity maintenance self esteem regulation and resistance to change Also presented is an interactional view of the self that explores the intersubjective context of intrapsychic experience Part Two shifts from the largely unconscious intrapsychic self to the self as affected by situational variables Considered here are the relationship between self image and attitudes the social categories deemed by people as important to their identity and the effects of physical relocation upon self concept change Part Three presents a theory of the self with separate rational and experiential processing systems and also explores cultural influences on the self from a psychoanalytic vantage point Part Four considers psychotherapy self verification and self concept change including self defeating behavior and self consistency striving the avoidance of self awareness self evaluation maintenance and self with other representations Bringing together the work of leading theorists in social psychoanalytic and personality psychology on the interaction of self organization with the social and physical environment THE RELATIONAL SELF fosters a better understanding of both situational and dispositional variables and a deeper appreciation of the changing theoretical sense of a relational self as the ultimate stage of development

Individual Self, Relational Self, Collective Self Constantine Sedikides, Marilynn B. Brewer, 2015-12-22 This edited volume addresses key issues relating to the concept of self an increasingly researched area of social psychology The self concept consists of three fundamental self representations the individual self the relational self and the collective self That is people seek to achieve self definition and self interpretation i e identity in three fundamental ways in terms of their personal traits in terms of dyadic relationships and in terms of group membership Contributions from leading international researchers examine the interrelations among three self representations A concluding commentary identifies running themes synthesizes the extant literature and points to future research directions

Cross-cultural Differences in Perspectives on the Self Virginia Murphy-Berman, John J. Berman, 2003-01-01 Cross Cultural Difference in Perspectives on the Self features the latest research in a dynamic area of inquiry and practice Considered in these pages are cross cultural differences in the idea of the person and in models of balancing obligations to the self family and community Revisiting and questioning the concepts of self and self worth the authors investigate the extent to which factors traditionally associated with psychological effectiveness intrinsic motivation assuming personal responsibility for one s actions and feeling in control unique hopeful and

optimistic are culturally bound Hazel Markus and Shinobu Kitayama consider cultural differences in models of psychological agency Joan Miller critiques the meaning of the term agency analyzing the extent to which many popular theories in psychology rest on rather narrow Western models of behavior and effective functioning Steven Heine calls into question the presumed universality of some forms of cognitive processing Sheena Iyengar and Sanford DeVoe apply a cross cultural perspective to better understand intrinsic and extrinsic motivation and the value of choice Kuo shu Yang questions the universality of the pervasive and popular theory of self actualization formulated by Abraham Maslow and finally Ype Poortinga reexamines not only the cultural boundaries of theory but also the very meaning of the concept of culture itself

Self, Identity, and Social Movements Sheldon Stryker, Timothy Joseph Owens, Robert W. White, 2000 **Inside Out and Outside In** Joan Berzoff, Laura Melano Flanagan, Patricia Hertz, 2008 Suitable for mental health practitioners in a variety of disciplines this work reflects the theory and clinical practice It offers chapters on attachment relational and intersubjective theories respectively as well as on trauma **The Psychological Development of Girls and Women** Sheila

Greene, 2014-02-25 In this book Sheila Greene presents a challenging new perspective on the psychological development of girls and women which emphasises the central role of time in human development She critically reviews traditional and contemporary theoretical approaches ranging from orthodox psychoanalysis to relational and post modern theories and argues that even those claiming to be focused on development have presented a view of women s lives as fixed and determined by their nature or their past These theories she believes should be rejected because of their inherent lack of validity and their frequently oppressive implications for women Greene s approach places primary importance on temporality itself and on the competing discourses on time age and development which play an active role in the construction of the lives of girls and women Essential but often neglected insights from the more compelling developmental and feminist theories are woven together within a theoretical framework that emphasises temporality emergence and human agency The result is a liberating theory of women s psychological development as constantly emerging and changing in time rather than as static and fixed by their nature socio cultural context and personal history *The Psychological Development of Girls and Women* will be essential reading for students and researchers in the psychology of women developmental psychology and women s studies

Stability and Change in Relationships Anita L. Vangelisti, Harry T. Reis, Mary Anne Fitzpatrick, 2002-04 Understanding interpersonal relationships requires understanding actors behaviors and contexts This 2002 volume presents research from a variety of disciplines that examine personal relationships on all three levels The first section focuses on the factors that influence individuals to enter maintain and dissolve relationships The second section emphasizes ongoing processes that characterize relationships and focuses on issues such as arguing and sacrificing The third and final section demonstrates that the process of stability and change are embedded in social cultural and historical contexts Chapters address cultural universals as well as cross cultural differences in relationship behaviors and outcomes The emergence of

relational forms such as the interaction between people and computers is also explored Stability and Change in Relationships will be of interest to a broad range of fields including psychology sociology communications gerontology and counselling

Self to Self J. David Velleman, 2006-01-26 This collection of essays by philosopher J David Velleman on personal identity autonomy and moral emotions is united by an overarching thesis that there is no single entity denoted by the self as well as themes from Kantian ethics and Velleman's work in the philosophy of action Counseling and Action Richard A. Young, José F. Domene, Ladislav Valach, 2014-06-17 Engaging in action is at the heart of our most meaningful experiences And given the fast paced goal driven nature of modern society engagement in action is also central to how we perceive ourselves Action has traditionally been viewed as an end product of the counseling process but now a bold new redefinition makes counseling not only a driver of action but an action in itself Counseling and Action couples a timely update on the multiple roles of action in counseling with an action based framework for enhancing progress between client and professional Grounded in the core concepts of contextual action theory as well as key aspects of counseling e g identity intentionality emotion the book explicates an approach that is responsive to client complexities and the larger social conditions that frame them Expert penned chapters apply theory to practice illustrating levels of engagement in action as counselor and client negotiate goals and work toward their realization And an especially useful section offers guidelines for intervening with specific populations and addressing particular issues Among the topics covered Designing projects for career construction Agentic action in context Counseling intentional addiction recovery grounded in relationships and social meaning The action of mindfulness in counseling A contextual action theory perspective on self efficacy in individual counseling Counseling processes and procedures through the lens of contextual action theory With its forceful argument for a quantum leap in both theory and practice Counseling and Action is transformative reading for professionals educators and graduate students in social work psychotherapy psychology and counseling National Library of Medicine Current Catalog National Library of Medicine (U.S.), 1991 Personality and Psychotherapy Jefferson A.
