on recruiting hiring training supervising and developing staff talent The socialization process for new professionals includes  
formal and informal elements that influence both success and quality of work life This process is far more complex than a

professional and organization learn about and from each other in ways that influence working relationships and individual  
and organizational outcomes Part I of this book defines the concept explains its value and offers a model of socialization Part  
II examines the institutional context in which the socialization of new professionals occurs and describes how different  
institutional types influence the socialization process It considers the changing characteristics of college students and how  
these impact the work of student affairs In addressing the extra institutional and professional contexts Part III considers the  
role that graduate education plays in preparing new professionals for work in student affairs and offers guidance to faculty  
and practitioners involved in graduate education about what they can do to introduce graduate students to professional life It  
addresses the importance of professional orientation activities the roles of supervision and mentorship as well as the impact  
of peers and institutions on the socialization process It concludes with a discussion of the role and importance of professional  
associations This book is intended for graduate program faculty for senior student affairs officers concerned about

of Laws this practical analysis of sports law in Australia deals with the regulation of sports activity by both public authorities and private sports organizations The growing internationalization of sports inevitably increases the weight of global regulation yet each country maintains its own distinct regime of sports law and its own national and local sports organizations Sports law at a national or organizational level thus gains a growing relevance in comparative law The book describes and discusses both state created rules and autonomous self regulation regarding the variety of economic social commercial cultural and political aspects of sports activities Self regulation manifests itself in the form of by laws and encompasses organizational provisions disciplinary rules and rules of play However the trend towards more professionalism in sports and the growing economic social and cultural relevance of sports have prompted an increasing reliance on legal rules adopted by public authorities This form of regulation appears in a variety of legal areas including criminal law labour law commercial law tax law competition law and tort law and may vary following a particular type or sector of sport It is in this dual and overlapping context that such much publicized aspects as doping sponsoring and media and responsibility for injuries are legally measured This monograph fills a gap in the legal literature by giving academics practitioners sports organizations and policy makers access to sports law at this specific level Lawyers representing parties with interests in Australia will welcome this very useful guide and academics and researchers will appreciate its value in the study of comparative sports law
