**Make Your Own Preschool Games** Sally Goldberg, 2009-07-21 Nearly 90% of all brain growth occurs in the first five years of life. Parents can capitalize on this impressionable time by improving and varying the sights, sounds, and smells in a child's immediate surroundings. With this eminently practical guide in hand, parents can actively promote the motor, cognitive, and social skills that will make a difference in a child's readiness for formal academic learning later on. Ideal for busy parents, *Make Your Own Preschool Games* describes quick and inexpensive ways to make activities that can be assembled from materials found at home: paper cups, bottle caps, clothespins, magazines, shoeboxes, and grocery bags. Designed to be used as part of dynamic play, these games will help expand a child's math, science, art, music, language, reading, and writing knowledge while providing the necessary and fun one-on-one bonding time that every child craves with her parents. **Music** Don Campbell, 2014-06-18 Each morning as we hum or chant or strum, we can celebrate the renewal of our path with our own humble offering of the glorious gift called music. This book offers a panorama of ways music can nourish our lives. Paul Winter, award-winning musician and composer, says music profoundly affects body, mind, and spirit. It can speed recovery from disease, heal psychological wounds, and open us to the ultimate mystery of life. Celebrated author and educator Don Campbell presents an impressive anthology of essays exploring the latest scientific research about the healing use of sound in traditional cultures. Contributors include composers, musicians, and music therapists, doctors, and psychologists, pioneers in neuroscience and biophysics, and teachers in diverse spiritual traditions. They address such fascinating topics as: Why chanting increases energy; The therapeutic use of sacred music; Gender differences in healing with sound; How sonic resonance positively affects heart rate and brain activity. **Einstein Never Used Flash Cards** Kathy Hirsh-Pasek, PhD, Roberta Michnick Golinkoff, PhD, Diane Eyer, PhD, 2004-08-12 **BOOKS FOR A BETTER LIFE AWARD WINNER** An enlightening guide to how infants, toddlers, and children learn, and why play is the key to enhancing your child's development, now revised and updated with a new chapter on the impacts of screen time. An authoritative, up-to-date playbook on why we should raise our children to be learners, it tells us all we need to know, plus practical advice on how parents can do that. Angela Duckworth, New York Times bestselling author of *Grit: A Breath of Fresh Air for Moms, Dads, and Childcare Professionals*; Steven Pinker, Johnstone Family Professor of Psychology at Harvard University, and New York Times bestselling author of *When Everyone Knows That Everyone Knows*. In fact, free and guided play is a better way for kids to learn and for parents to enjoy their children. Drawing on overwhelming scientific evidence, Hirsh-Pasek and Golinkoff explain how learning works from a child's point of view. They

address how kids pick up key mathematical concepts acquire language develop a sense of self and more They also offer more than forty age appropriate activities for children under nine These simple fun yet powerful exercises work as well or better than unnecessary interventions to engage kids and their ever active curious minds This revised edition also includes the latest findings on how play supports learning as well as a new chapter on the benefits and downsides of time spent with digital media Packed with insights from fascinating studies and reassuring advice Einstein Never Used Flash Cards empowers readers to help their children thrive while bringing more joy to the hard work of parenting **The Giant**
