Releasing The Medicines Of God:

Releasing the Medicines of God Bernard A. (Bernard Arthur) Warren, 1997 **How to Receive, Retain, and Release Healing Miracles** ISAIAH MACWEALTH, A LOT OF PEOPLE DESPITE their desire to be healed remain in sickness because they do not understand the causes of sickness and how to deal with them Others may have been able to avoid their present ailment if they had known what to permit or avoid in their lives And many more will be saved from the trap of sickness if they possess the required knowledge about sicknesses and diseases Therefore understanding the etiology of sickness is very important in dealing with sickness and disease In this book you will learn the following The Causes of Sickness The Ways of Healing What does the bible say about Healing What makes God Heal What hinders Healing How to Receive Healing

Introduction to Nanomaterials in Medicine Mohammad Rabiee, Navid Rabiee, Reza Salarian, Ghazal Rabiee, 2019-03-21 Advancement in the field of nanotechnology has revolutionized the field of medicines and pharmaceuticals in the twentieth century The proper use of nanomaterials in medical applications requires a proper understanding of these compounds This correct understanding beyond the physical and chemical properties must also have the correct logic of use In other words the strategic use of nanomaterials with applicable perspective can also help to advance research but if we go forward with the current research perspective that leads to the expansion of inapplicable researches the intrinsic importance of using these nanomaterials is eliminated This book considering the importance of nanomaterials and their application in medicine as well as the significant growth of biomaterials in research fields introduces the variables law Rabiee's theory for the implementation of this research and the establishment of a proper strategy Considering that the degree of number of biomaterial and host variables follow a variety factors and by increasing the degree of number of biomaterials and host variables the degree of total variables also increases and as a result performance and consequently biomaterial behavior in the host environment will have less control and predictive capabilities For an external substance that is supposed to be in the human body it must be predictable and controllable In addition according to the principle that the host in a fixed person does not have the ability to change therefore by using the simpler biomaterials with less variables the above goal is more accessible It should be noted that in addition to observing biocompatibility tests for a biomaterial based on existing protocols and standards the Applicable Compatibility AC parameter is also required in accordance with Rabiee's theory This book is written in accordance with Rabiee's theory and the contents of this book should be evaluated from this perspective
