**The Religion of a Doctor** Sir Thomas Browne, 2016-05-11 Religio Medici The Religion of a Doctor Sir Thomas Browne Religio Medici The Religion of a Doctor by Sir Thomas Browne is a spiritual testament and an early psychological self portrait Published in 1643 after an unauthorized version was distributed the previous year it became a European best seller which brought its author fame at home and abroad Structured upon the Christian virtues of Faith and Hope part 1 and Charity part 2 Browne expresses his beliefs in the doctrine of sola fide the existence of hell the Last Judgment the resurrection and other tenets of Protestantism Throughout Religio Medici Browne uses scientific imagery to illustrate religious truths as part of his discussion on the relationship of science to religion a topic which has lost none of its contemporary relevance Sir Thomas Browne's Religio Medici and Urn-burial Sir Thomas Browne, 1896 **Religio Medici** Sir Thomas Browne, 1682 **Religio Medici** Thomas Browne, Sir, 2017-04-15 Religio Medici The Religion of a Doctor Sir Thomas Browne Religio Medici The Religion of a Doctor by Sir Thomas Browne is a spiritual testament and an early psychological self portrait Published in 1643 after an unauthorized version was distributed the previous year it became a European best seller which brought its author fame at home and abroad For my religion though there be several circumstances that might persuade the world I have none at all as the general scandal of my profession 1 the natural course of my studies the indifferency of my behaviour and discourse in matters of religion neither violently defending one nor with that common ardour and contention opposing another yet in despite hereof I dare without usurpation assume the honourable style of a Christian Not that I merely owe this title to the font my education or the clime wherein I was born as being bred up either to confirm those principles my parents instilled into my understanding or by a general consent proceed in the religion of my country but having in my riper years and confirmed judgment seen and examined all I find myself obliged by the principles of grace and the law of mine own reason to embrace no other name but this Neither doth herein my zeal so far make me forget the general charity I owe unto humanity as rather to hate than pity Turks Infidels and what is worse Jews rather contenting myself to enjoy that happy style than maligning those who refuse so glorious a title The Religio Medici & Other Writings of Sir Thomas Browne Sir Thomas Browne, 1925 Religio Medici and Urne-Buriall Sir Thomas Browne, 2012-08-07 Sir Thomas Browne is one of the supreme stylists of the English language a coiner of words and spinner of phrases to rival Shakespeare the wielder of a weird and wonderful erudition an inquiring spirit in the mold of Montaigne Browne was an inspiration to the Romantics as well as to W G Sebald and his work is quirky sonorous and enchanting Here this baroque master's two most enduring and admired works Religio Medici and Urne Buriall appear in a new edition that has been annotated and introduced by the distinguished scholars Ramie Targoff and Stephen Greenblatt author of the best selling Will in the World and the National Book Award winning The Swerve In Religio Medici Browne mulls over the relation between his medical profession and his profession of the Christian faith pondering the respective claims of science and religion questions that are still very much alive today The

discovery of an ancient burial site in an English field prompted Browne to write *Urne Buriall* which is both an early anthropological examination of different practices of interment and a profound meditation on mortality Its grave and exquisite music has resounded for generations *Religio Medici* [Ed. by T. Chapman]. Thomas Browne,2012-02 Purchase of this book includes free trial access to [www million books com](http://www.millionbooks.com) where you can read more than a million books for free This is an OCR edition with typos Excerpt from book THE SECOND PART I Now for that other virtue of charity without which faith is a mere notion and of no existence I have ever endeavoured to nourish the merciful disposition and humane inclination I borrowed from my parents and regulate it to the written and prescribed laws of charity and if I hold the true anatomy of myself I am delineated and naturally framed to such a piece of virtue for I am of a constitution so general that it comforts and sympathizeth with all things I have no antipathy or rather idiosyncrasy in diet humour air any thing I wonder not at the French for their dishes of frogs snails and toadstools nor at the Jews for locusts and grasshoppers but being amongst them make them my common viands and I find they agree with my stomach as well as theirs I could digest a salad gathered in a churchyard as well as in a garden I cannot start at the presence of a serpent scorpion lizard or salamander at the sight of a toad or viper I find in me no desire to take up a stone to destroy them I feel not in myself those common antipathies that I can discover in others those national repugnances do not touch me nor do I behold with prejudice the French Italian Spaniard and Dutch but where I find their actions in balance with my countrymen s I honour love and embrace them in some degree I was born in the eighth climate but seem for to be framed and constellated unto all I am no plant that will not prosper out of a garden All places all airs make unto me one country I am in England everywhere and under any meridian I have been shipwrecked yet am not enemy with the sea or winds I can study play or sleep in a tempest In brief I am averse from nothing my conscience would give me the lie if I should absolutely detest o *Religio Medici (1642)* Thomas Browne,2017-01-23 The *Religio Medici* is the apologia of a learned physician who was proud to be a Christian and a member of the Church of England as established by Elizabeth I He recognized that under Henry VIII the Church in England had been the catholic Church in schism whereas the Elizabethan Establishment was regarded as heretical by Rome Yet he wrote courteously about the Pope Unlike many seventeenth century Protestants he never described St Peter s successor as Balsazar the Man of Sin or the Whore of Babylon He foresaw endless divisions in the Churches separated from Rome and to day there are at least 140 separate Christian churches He found no contradiction between religion and science Religion reveals man s relation to God Science is our partial knowledge of the Laws of Nature whereby the Divine purpose is carried out in creation Being a modest man Sir Thomas Browne never thought his writings would survive his own time As it is they have survived the centuries
