The chapters also explore the ethical issues surrounding consumption and the role of religion on branding and sustainable practices. With a broad perspective, the book draws on examples of practices from Christianity, Islam, Hinduism, and Buddhism. The Bloomsbury Handbook of Schools and Religion Jo Fraser-Pearce, James W. Fraser, 2023-09-21. *The Bloomsbury Handbook of Schools and Religion* provides the first truly global scan of contemporary issues and debates around the world regarding the relationships between the state, schools, and religion. Organized around specific contested issues from whether or not mindfulness should be practised in schools to appropriate and inappropriate religious attire in schools to long term battles about evolution, sexuality, and race to public funding, Fraser, Pearce, and Fraser carefully curate chapters by leading experts exploring these matters and others in a diverse range of national settings. *The Bloomsbury Handbook of Schools and Religion* offers a refreshingly new international perspective.

Sacred Natural Sites Bas Verschuuren, Robert Wild, Jeffrey McNeely, Gonzalo Oviedo, 2012-06-25. Sacred Natural Sites are the world's oldest protected places. This book focuses on a wide spread of both iconic and lesser known examples such as sacred groves of the Western Ghats, India; Sagarmatha Chomolungma, Mt Everest, Nepal; Tibet and China; the Golden Mountains of Altai, Russia; Holy Island of Lindisfarne, UK; and the sacred lakes of the Niger Delta, Nigeria. The book illustrates that sacred natural sites, although often under threat, exist within and outside formally recognised protected areas, heritage sites. Sacred natural sites may well be some of the last strongholds for building resilient networks of connected landscapes. They also form important nodes for maintaining a dynamic socio-cultural fabric in the face of global change. The diverse authors bridge the gap between approaches to the conservation of cultural and biological diversity by taking into account cultural and spiritual values together with the socio-economic interests of the custodian communities and other relevant stakeholders.

The Spirit of Sustainability Willis Jenkins, Whitney Bauman, 2009-11-01. *The Spirit of Sustainability* helps readers navigate the moral worlds and ethical concepts and social and religious practices related to sustainability. In collaboration with the Forum on Religion and Ecology, an established network of leading scholars, it explores a wide range of topics and perspectives from the promise and problems of approaching sustainability through global and indigenous religions to major theories in philosophy and environmental ethics and professional practices and social movements. This volume presents the various goals of sustainability: ecological integrity, economic health, human dignity, fairness to the future, and social justice, and provides a framework for reasoning through many interrelated environmental challenges for both current and future generations.

Religions and Development Emma Tomalin, 2013-07-03. Religion has been excluded from development studies for decades. Religious traditions have contributed greatly towards development work, yet major international players have tended to ignore its role. Recent years have shown a noticeable shift in development policy, practice, and research to recognize
