Weatherhead, 2008 PSYCHOLOGY RELIGION AND HEALING A critical study of all the non physical methods of healing with an examination of the principles under lying them and the techniques employed to express them together with some conclusions regarding further investigation and action in this field LESLIE D WEATHERHEAD M PREFACE IN THE FIRST WORLD WAR a young doctor working in the desert amongst troops stationed north of Baghdad talked about his dreams to two young chaplains far into the night I was one of the chaplains That doctor was a remarkable man He practised psychological treat ment of an impressive kind when what was then called The New Psy chology was very new indeed He practised hypnotism both as a means of investigating the deep mind of the patient and also of giving him suggestions of courage confidence and recovery Further he had as great a spiritual faith and power as I have ever seen He would go out into the desert and for hours he would concentrate his mind on one patient with a kind of spiritual intention On returning he would some times find remarkable results The patient previously sleepless would be asleep or discontented would have found peace of mind or in despair had begun to believe in his own recovery In one case a man apparently unable to walk was walking about the ward The doctor claimed that when he had done all he could for a patient by all the arts of medicine the turning point an the illness was sometimes determined by adding this form of prayerful concentration I was a very young chaplain at the time and only recently set free for chaplaincy duty by the Indian Army in which I had enlisted as a combatant officer I had wanted to be a medicalmissionary but neither my family nor I could afford the cost of medical training The com

bination of healing and religion had always fascinated me When this doctor turned to us two chaplains and said You padres ought to be doing most of this I felt he was right I remembered that Jesus said Heal the sick and I had always had an uneasy feeling that to relegate all healing to the material methods of the doctors splendid though that work is did not really answer the challenge of our Lords words Nor could I believe that His challenge was met by the psychologists especially those who had no place for religion in their thought or practice I therefore determined to learn all I could about non physical ways of healing When the doctor and my fellow chaplain were both killed I felt an even greater urgency to try to understand the ways in which psychology religion and healing were related On returning to Madras in 1919 I was lucky in being allowed to join a small study group of doctors and ministers Considering we all had busy lives it was a strenuous training for we took it in turns to introduce a new book each week and read a paper on it which was the basis of discussion My ministry in England since I returned in 1922 has only deepened in me the conviction that many people are suffering even from supposedly physical illnesses who need not suffer if we knew how to release and direct to them the resources of the spiritual world and if both ministers and doctors were alert and trained to see and to understand the early signs of psychological disturbance and to secure immediate treatment ideally in some environment where physically psychologically and spiritually the patient could be investigated and the whole personality integrated

Emerging Adults' Religiousness and Spirituality Carolyn McNamara Barry, Mona M. Abo-Zena, 2014 Emerging Adults Religiousness and Spirituality seeks to understand how the developmental process of meaning making encompasses American emerging adults religiousness and spirituality This volume does not focus on disentangling religion and spirituality conceptually but rather emphasizes their centrality in the psychology of human development

The Two Faces of Religion N. S. Xavier, 2025-08-28 The Two Faces of Religion considers the entire spectrum of religious experience under the twin aspects of its opposite poles the radiance of mature spirituality and the gloom of sick religiosity Although Dr Xavier necessarily contrasts the positive heights and the negative depths of mankind's spiritual experience he equally emphasizes the vast grey areas of overlap It is in these areas of overlap that Dr Xavier's medical and psychiatric expertise accomplishes the most fruitful of outcomes the recovery of troubled soul from the psycho religious tensions and afflictions so common in today's turbulent and pressurized society His exploration of the dynamic factors underlying the religious spectrum love courage wisdom hate fear egoism identity etc provides a wealth of information and insight to those who are seeking psychological and spiritual growth Clinical historic and literary examples illustrating the operation of these dynamic factors make the book particularly interesting to professionals and lay people alike
