Religion and Business Roger Ward Babson, 1921 **Business and Religion in the American 1920s** Rolf Lunden, 1988-02-11 Addressing a phenomenon that continues to shape our culture today Professor Lunden presents a full length analysis of the relationship between business and religion during the 1920s He examines both the impact of the business mentality on Protestant institutions and values and the effects of religion on business Beginning with a discussion of business and entrepreneurship as determining factors in the development of American society Lunden looks at the position of the Protestant churches vis a vis business He next explores business attitudes toward religion Commenting on the adoption of specific Judeo Christian concepts religion Commenting on the adoption of specific Judeo Christian concepts he describes both how these concepts were applied in a business context and what concessions were made by business when Protestant values came into conflict with those of the commercial world In his final chapter he considers the implications of the business community s appropriation of religious functions and the widespread belief that its mission was linked to the redemption of society **The Religion of Business and Business of Religion.
