## **Religion And Politics In Enlightenment Europe:**

Religion and Politics in Enlightenment Europe James E. Bradley, Dale K. Van Kley, 2001 This work shows that the collapse of the post reformation confessional state was more the result of religious dissent from within much of it orthodox than attacks of an anti religious Enlightenment In sharp contrast to the Reformation era religious conflicts which tended to pit Protestant and Catholic confessions and states against each other the 18th century religious conflicts described in this work took place within the various confessional establishments and states that founded and maintained them such as Russian Orthodoxy in the East and the Anglican Establishment in England and Ireland In the course of its analysis this work destroys the notion of any kind of privileged relationship between religion and political or social reaction This work reveals the religious roots of modern ideas of individual rights and limitations on government as well as the imperative of political order and the need for social hierarchy

**The Oxford Handbook of Religion and Europe** Grace Davie, Lucian Leuştean, 2022 Features contributions from leading scholars providing crucial insight into the role of religious ideas structures and institutions in the making of Europe Introduces the building blocks of Europe s religious and the part that they played in the formation of the continent Explores the relationship between religious communities and ideologies in the twentieth century connections that play out very differently in East and West Europe Examines the role of religion in the construction of the European Union from the end of the Second World War until the present day Assesses the relationship between the major world religions and the idea of Europe Book jacket

*Religion and Mass Electoral Behaviour in Europe* David Broughton, Hans-Martien ten Napel, 2000-12-14 The onset of a new millennium has given renewed impetus to the study of religion and its place in the secular world Religion and Mass Electoral Behaviour in Europe is an innovative cutting edge study which focuses on the question of whether and how religion continues to influence and shape electoral behaviour across Europe With exceptional detail this book presents empirical data drawn from a range of country case studies to provide examples of different religious experiences and relationships

**Art and Religion in Eighteenth-Century Europe** Nigel Aston, 2009-07-15 Eighteenth century Europe witnessed monumental upheavals in both the Catholic and Protestant faiths and the repercussions rippled down to the churches religious art forms Nigel Aston now chronicles here the intertwining of cultural and institutional turmoil during this pivotal century The sustained popularity of religious art in the face of competition from increasingly prevalent secular artworks lies at the heart of this study Religious art staked out new spaces of display in state institutions palaces and private collections the book shows as well as taking advantage of patronage from monarchs such as Louis XIV and George III who funded religious art in an effort to enhance their monarchical prestige Aston also explores the motivations and exhibition practices of private collectors and analyzes changing Catholic and Protestant attitudes toward art The book also examines purchases made by corporate patrons such as charity hospitals and religious confraternities and considers what this reveals about the changing religiosity of the era as well An in depth historical study

Art and Religion in Eighteenth Century Europe will be essential for art history and religious studies scholars alike

**Religion, Politics and Dissent, 1660-1832** Robert D. Cornwall, 2016-04-15 The idea of the long eighteenth century 1660 1832 as a period in which religious and political dissent were regarded as antecedents of the Enlightenment has recently been advanced by several scholars The purpose of this collection is further to explore these connections between religious and political dissent in Enlightenment Britain Addressing the many and rich connections between political and religious dissent in the long eighteenth century the volume also acknowledges the work of Professor James E Bradley in stimulating interest in these issues among scholars Contributors engage directly with ideas of secularism radicalism religious and political dissent and their connections with the Enlightenment or Enlightenments together with other important themes including the connections between religious toleration and the rise of the enlightenments Contributors also address issues of modernity and the ways in which a modern society can draw its inspiration from both religion and secularity as well as engaging with the seventeenth century idea of the synthesis of religion and politics and its evolution into a system in which religion and politics were interdependent but separate Offering a broadly conceived interpretation of current research from a more comprehensive perspective than is often the case the historiographical implications of this collection are significant for the development of ideas of the nature of the Enlightenment and for the nature of religion society and politics in the eighteenth century By bringing together historians of politics religion ideas and society to engage with the central theme of the volume the collection provides a forum for leading scholars to engage with a significant theme in British history in the long eighteenth century

**Religion and the Conceptual Boundary in Central and Eastern Europe** T. Bremer, 2015-12-11 This volume concentrates on the conceptual boundary through Europe which is determined by Western and Eastern Christianity The chapters show that the boundary has never been a stable and defined division but that it was also subject to change and development and a place of encounter and exchange between religions and cultures

**The Limits of Empire: European Imperial Formations in Early Modern World History** William Reger, 2016-03-03 This volume published in honor of historian Geoffrey Parker explores the working of European empires in a global perspective focusing on one of the most important themes of Parker's work the limits of empire which is to say the centrifugal forces sacral dynastic military diplomatic geographical informational that plagued imperial formations in the early modern period 1500 1800 During this time of wrenching technological demographic climatic and economic change empires had to struggle with new religious movements incipient nationalisms new sea routes new military technologies and an evolving state system with complex new rules of diplomacy Engaging with a host of current debates the chapters in this book break away from conventional historical conceptions of empire as an essentially western phenomenon with clear demarcation lines between the colonizer and the colonized These are replaced here by much more fluid and subtle conceptions that highlight complex interplays between coalitions of rulers and ruled In so doing the volume builds upon recent work that increasingly suggests

that empires simply could not exist without the consent of their imperial subjects or at least significant groups of them This was as true for the British Raj as it was for imperial China or Russia Whilst the thirteen chapters in this book focus on a number of geographic regions and adopt different approaches each shares a focus on and interest in the working of empires and the ways that imperial formations dealt with or failed to deal with the challenges that beset them Taken together they reflect a new phase in the evolving historiography of empire They also reflect the scholarly contributions of the dedicatee Geoffrey Parker whose life and work are discussed in the introductory chapters and we re proud to say in a delightful chapter by Parker himself an autobiographical reflection that closes the book      *European Self-Reflection Between Politics and Religion* L. Bruun,K. Lammers,G. Sørensen,2013-05-07 This collection of essays suggests new ways of looking at the intertwining of political and religious agonies in the period 1914 1991 The long European civil war revealed that Europe far from being formed by a one track progression has followed several tracks or fault lines leading to a number of contrasts in European self perception      *The Huguenots of Paris and the Coming of Religious Freedom, 1685-1789* David Garrioch,2014-02-13 How did the Huguenots of Paris survive and even prosper in the eighteenth century when the majority Catholic population was notorious for its hostility to Protestantism Why by the end of the Old Regime did public opinion overwhelmingly favour giving Huguenots greater rights This study of the growth of religious toleration in Paris traces the specific history of the Huguenots after Louis XIV revoked the Edict of Nantes in 1685 David Garrioch identifies the roots of this transformation of attitudes towards the minority Huguenot population in their own methods of resistance to persecution and pragmatic government responses to it as well as in the particular environment of Paris Above all this book identifies the extraordinary shift in Catholic religious culture that took place over the century as a significant cause of change set against the backdrop of cultural and intellectual transformation that we call the Enlightenment      *Earthly Powers* Michael Burleigh,2005 This book encompasses the philosophes of the Enlightenment and the influence of thinkers like de Maistre and de Bonald and Lamennais as well as the pseudo religious aspects of Marxism It looks at painters like Zoffany and David and analyses their representations of their times it considers the exploits of O Connell hero of Catholic emancipation Mazzini Mickiewicz and Garibaldi and goes via nineteenth century English and Russian literature to the epic struggles between Church and State industry and the rise of Christian socialism concluding with the advent of the old stone gods that heralded the totalitarian political religions of the twentieth century Jacket      *Christian Faith, Philosophy & International Relations* ,2019-10-29 International relations are in constant turbulence Globalisation the rise and fall of superpowers the fragilisation of the EU trade wars real wars terrorism persecution new nationalism and identity politics climate change are just a few of the recent disturbing developments How can international issues be understood and addressed from a Christian faith perspective In this book answers are presented from various Christian traditions Neo calvinism Catholic social teaching critical theory and Christian realism The volume offers fundamental theological and Christian philosophical perspectives on

international relations and global challenges case studies about inspiring Christian leaders such as Robert Schuman Dag Hammarskjöld Abraham Kuyper and prophetic critiques of supranational issues      **The Ruins** Minchul Kim, 2019-03-14 This is the first modern edition of *The Ruins* in English making the work available to students scholars and the wider reading public interested in eighteenth century literature travel writings religious ideas and political thought This edition is preceded by the editor's introduction that covers the entire career of Volney and analyses the work from a historical perspective *The Ruins* first published in 1791 was translated into English German and Dutch within ten years Volney's writing provides an invaluable window into the historical anxieties of intellectuals at the beginning of the French Revolution *The Ruins* is an exemplary Enlightenment work on history religion and revolutions a work of stunning erudition born within the context of anxieties built into the eighteenth century view of the history of European civilization It testifies to the eighteenth century European intellectuals historical concerns about their society's future during emerging modernity This book will serve to be a handy and important primary source reading for upper year courses on the French Revolution history of orientalism and the Enlightenment      **The Catholic Beethoven** Assistant Professor of Musicology Nicholas Chong, 2025-01-23 *The Catholic Beethoven* offers a new view of Beethoven and his religious music by demonstrating that both the composer and his sacred works were influenced by the German Catholicism of his era to a much greater extent than has been thought It draws on revisionist historical research into the role of religion in the Enlightenment especially the Catholic Enlightenment to interpret both the composer's religious works and documentary evidence of his spiritual outlook In addition it is the first book length treatment of Beethoven's sacred music that is not focused only on the *Missa solemnis* but also examines the *Mass in C Christus am Iberge* and the *Gellert Lieder*      **The Church in the Long Eighteenth Century** David Hempton, 2011-09-16 David Hempton's history of the vibrant period between 1650 and 1832 engages with a truly global story that of Christianity not only in Europe and North America but also in Latin America Africa Russia and Eastern Europe India China and South East Asia Examining eighteenth century religious thought in its sophisticated national and social contexts the author relates the narrative of the Church to the rise of religious enthusiasm pioneered by Pietists Methodists Evangelicals and Revivalists and by important leaders like August Hermann Francke Jonathan Edwards and John Wesley He places special emphasis on attempts by the Spanish Portuguese French Dutch and British seaborne powers to export imperial conquest commerce and Christianity to all corners of the planet This leads to discussion of the significance of Catholic and Protestant missions including those of the Jesuits Moravians and Methodists Particular attention is given to Christianity's impact on the African slave populations of the Caribbean Islands and the American colonies which created one of the most enduring religious cultures in the modern world Throughout the volume changes in Christian belief and practice are related to wider social trends including rapid urban growth the early stages of industrialization the spread of literacy and the changing social construction of gender families and identities      *Preaching, Sermon and Cultural Change in the Long Eighteenth Century*

Joris Van Eijnatten, 2009 This study offers a broad outline of the history of the eighteenth century sermon Thematically it provides an overview of the research over the past three decades as well as suggesting new approaches to the history of preaching

Confiscating the common good Edward J. Woell, 2022-08-02 Comprising five microhistories this book proposes that the French Revolution's religious politics in small towns weakened democratic society to such an extent that it precluded political democracy It details two revolutionary dynamics that damaged the civic life of small towns social polarisation and the loss of local institutions that had been a source of social capital as well as a common good Detailed narratives about Pont Mousson Gournay en Bray Vienne Haguenau and Is sur Tille also reveal that contrary to the view upheld by many scholars small town religious politics extended far beyond the pivotal Ecclesiastical Oath of 1791 Other developments the nationalisation of Church property the dissolution of religious orders and the elimination of bishoprics chapters parishes and collegial churches also adversely affected the wellbeing of these small urban communities not only in the Revolution but also in the two centuries that followed

Religious Identities in Britain, 1660-1832 Robert G. Ingram, 2017-03-02 Through a series of studies focusing on individuals this volume highlights the continued importance of religion and religious identity on British life throughout the long eighteenth century From the Puritan divine and scholar Roger Morrice active at the beginning of the period to Dean Shipley who died in the reign of George IV the individuals chosen chart a shifting world of enlightenment and revolution whilst simultaneously reaffirming the tremendous influence that religion continued to bring to bear For whilst religion has long enjoyed a central role in the study of sixteenth and seventeenth century British history scholars of religion in the eighteenth century have often felt compelled to prove their subject's worth Sitting uneasily at the juncture between the early modern and modern worlds the eighteenth century has perhaps provided historians with an all too convenient peg on which to hang the origins of a secular society in which religion takes a back seat to politics science and economics Yet as this study makes clear in spite of the undoubted innovations and developments of this period religion continued to be a prime factor in shaping society and culture By exploring important connections between religion politics and identity and asking broad questions about the character of religion in Britain the contributions put into context many of the big issues of the day From the beliefs of the Jacobite rebels to the notions of liberty and toleration to the attitudes to the French Wars the book makes an unambiguous and forceful statement about the centrality of religion to any proper understanding of British public life between the Restoration and the Reform Bill

Medicine and Religion in Enlightenment Europe Andrew Cunningham, 2017-03-02 The Enlightenment period here understood as covering the years 1650 to 1789 is usually considered to be a period when religion was obliged to give way to rationality With respect to medicine this means that the religious elements in the treatment and interpretation of diseases to all intents and purposes disappeared However there are growing indications in recent scholarship that this may well be an overstatement Indeed it appears that religion retained many of its customary relations with medicine This volume explores how far and the ways in which this was still the case It looks at this multi faceted relationship with respect to among others medical care and death in hospitals religious vocation and nursing chemical medicine and religion the clergy and medicine the continued significance of popular medicine faith healing dissection and religion and religious dissent and medical innovation Within these significant areas the volume provides a European perspective which will make it possible to draw comparisons and determine differences

Modern Catholic Social Teaching Kenneth R. Himes, 2018-01-02 Including contributions from twenty two leading moral theologians this volume is the most thorough assessment of modern Roman Catholic social teaching available In addition to interrogations of the major documents it provides insight into the biblical and philosophical foundations of Catholic social teaching addresses the doctrinal issues that arise in such a context and explores the social thought leading up to the modern era which is generally accepted as beginning in 1891 with the publication of Pope Leo XIII s Rerum Novarum The book also includes a review of how Catholic social teaching has been received in the United States and offers an informed look at the shortcomings and questions that future generations must address This second edition includes revised and updated essays as well as two new commentaries one on Pope Benedict XVI s encyclical Caritas in Veritate and one on Pope Francis s encyclical Laudato Si An

outstanding reference work for anyone interested in studying and understanding the key documents that make up the central corpus of modern Catholic social teaching
