**Rhetoric, Scripture and Theology** Stanley E. Porter, Thomas H. **Christian responses to Islam** Anthony O'Mahony, Emma Loosley, 2024-06-04 In the aftermath of 9 11 there has been much talk of a need to engage on a meaningful level with Islam but where do we begin and what is the right approach This book available in paperback for the first time looks at case studies from around the world in order to explore how Christian groups sometimes as minorities and sometimes as the majority engage with their Muslim neighbours in the search for a peaceful society Some of the initiatives are politically motivated others run by Church authorities and a number are community based but all offer different approaches to a variety of situations that are encountered in Christian Islamic dialogue This is the first time that global strategies for dialogue have been published in one book by a series of leading academics Whilst previous publications have concentrated on a particular geographical area usually the Middle East or Europe this book casts a wider net and considers issues such as the rise of radical Islam in post Soviet states Indonesian immigration in Australia and the spread of Islam amongst the Black South Africans after the fall of apartheid Scholars and all those interested in politics current affairs religion or peace studies will find this book essential reading as a guidebook to the state of contemporary Christian Islamic relations

**Will Not Return Void** John Allen Dearing, 2021-10-28 When one considers the early Christian church one is immediately struck by the exponential growth that the church experienced The inevitable question one must ask when considering the early church's rapid rate of growth is How did it happen While social forces plagues politics and ideology competitions were certainly factors in the growth of Christianity one would be remiss not to consider the methodology behind the considerable evangelistic effort made by the patristic church This dissertation analyzes the use of Scripture in the apologetic and evangelistic writings produced by Christian leaders within the Greek patristic tradition and their belief that Scripture was the primary tool given by God for the conversion of souls **Finding Words for Worship** Ruth C. *The Oxford Handbook of the Bible in America* Paul Gutjahr, 2017-11-01 Early Americans have long been considered A People of the Book Because the nickname was coined primarily to invoke close associations between Americans and the Bible it is easy to overlook the central fact that it was a book not a geographic location a monarch or even a shared language that has served as a cornerstone in countless investigations into the formation and fragmentation of early American culture Few books can lay claim to such powers of civilization altering influence Among those which can are sacred books and for Americans principal among such books stands the Bible This Handbook is designed to address a noticeable void in resources focused on analyzing the Bible in America in various historical moments and in relationship to specific institutions and cultural expressions It takes seriously the fact that the Bible is both a physical object that has exercised considerable totemic power as well as a text with a powerful intellectual design that has inspired everything from national religious and educational practices to a wide spectrum of artistic endeavors to our nation's politics and foreign policy This Handbook brings together a number of established scholars as well as younger scholars on the rise to provide a scholarly overview rich with bibliographic resources to those interested in the Bible's role in American cultural
