Congress Senate, 1958 Sculpture and Social Dynamics in Preclassic Mesoamerica Julia Guernsey, 2012-07-23 This book examines the functions of sculpture during the Preclassic period in Mesoamerica and its significance in statements of social identity Julia Guernsey situates the origins and evolution of

monumental stone sculpture within a broader social and political context and demonstrates the role that such sculpture played in creating and institutionalizing social hierarchies This book focuses specifically on an enigmatic type of public monumental sculpture known as the potbelly that traces its antecedents to earlier small domestic ritual objects and ceramic figurines The cessation of domestic rituals involving ceramic figurines along the Pacific slope coincided not only with the creation of the first monumental potbelly sculptures but with the rise of the first state level societies in Mesoamerica by the advent of the Late Preclassic period The potbellies became central to the physical representation of new forms of social identity and expressions of political authority during this time of dramatic change *The Olmec & Their Neighbors* Matthew Williams Stirling, Michael D. Hearings, Reports and Prints of the Senate Committee on Public Works United States. Congress. Senate. Committee on Public Works, 1965 **Palaces and Power in the Americas** Jessica Joyce Christie, Patricia Joan Sarro, 2006-07-01 Ancient American palaces still captivate those who stand before them Even in their fallen and ruined condition the palaces project such power that according to the editors of this new collection it must have been deliberately drawn into their formal designs spatial layouts and choice of locations Such messages separated palaces from other elite architecture and reinforced the power and privilege of those residing in them Indeed as Christie and Sarro write the relation between political power and architecture is a pervasive and intriguing theme in the Americas Given the variety of cultures time periods and geographical locations examined within the editors of this book have grouped the articles into four sections The first looks at palaces in cultures where they have not previously been identified including the Huaca of Moche Site the Wari of Peru and Chaco Canyon in the U S Southwest The second section discusses palaces as stage sets that express power such as those found among the Maya among the Coast Salish of the Pacific Northwest and at El Tajín on the Mexican Gulf Coast The third part of the volume presents cases in which differences in elite residences imply differences in social status with examples from Pasado de la Amada the Valley of Oaxaca Teotihuacan and the Aztecs The final section compares architectural strategies between cultures the models here are Farfán Peru under both the Chimú and the Inka and the separate states of the Maya and the Inka Such scope and the quality of the scholarship make *Palaces and Power in the Americas* a must have work on the subject **The Art of the Greeks ... with 112 Plates and 18 Illustrations in the Text** Henry Beauchamp Walters, 1922
