Architecture in Britain, 1530 to 1830 John Summerson, John Newenham Summerson, Sir, 1993-01-01 The author charts the development of architectural theory and practice from Elizabeth I to George IV Questions of style technology and the social framework are resolved as separable but always essential components of the building worlds **The Art of Frenzy** Jane Kromm, 2003-01-01 The Art of Frenzy presents a masterful analysis of public madness from the Renaissance to the Industrial Age Frenzy the most flagrant and political form of madness is the madness of warrior heroes kings scolds and the possessed Its representation incorporates a range of traditional characters and figures from Hercules and Orlando to Medea and Britannia Understood as abusive power and belligerence out of control and described in terms drawn equally from definitions of tyranny and liberty frenzy has always been articulated with a significant degree of political meaning Integrating art history with cultural studies political history and the history of medicine Jane Kromm draws on a wide range of mediums and contexts from asylum sculpture to political broadsheets medical texts the imagery of revolution caricature and medical illustrations to clarify the importance of this interpretative pattern *History of Restoration of Ancient Stone Sculptures* Janet Burnett Grossman, Jerry Podany, Marion True, 2003-12-25 The nineteen papers in this volume stem from a symposium that brought together academics archaeologists museum curators conservators and a practicing marble sculptor to discuss varying approaches to restoration of ancient stone sculpture Contributors and their subjects include Marion True and Jerry Podany on changing approaches to conservation Seymour Howard on restoration and the antique model Nancy H Ramage s case study on the relationship between a restorer Vincenzo Pacetti and his patron Luciano Bonaparte Mette Moltesen on de restoring and re restoring in the Ny Carlsberg Glyptotek Miranda Marvin on the Ludovisi collection and Andreas Scholl on the history of restoration of ancient sculptures in the Altes Museum in Berlin The book also features contributions by Elizabeth Bartman Brigitte Bourgeois Jane Fejfer Angela Gallottini Sascha Kansteiner Giovanna Martellotti Orietta Rossi Pinelli Peter Rockwell Edmund Southworth Samantha Sportun and Markus Trunk Charles Rhyne summarizes the themes approaches issues and questions raised by the symposium The Great Rebuildings Of Tudor And Stuart England Colin Platt, 2013-10-18 Rural England s Great Rebuilding of 1570 1640 first identified by W G Hoskins in 1953 has been vigorously debated ever since Some critics have re dated it on a regional basis Still more have seen Great Rebuildings around every corner causing them to dismiss Hoskins s thesis In this first full length study of the rebuilding phenomenon Colin Platt an accomplished architectural and social historian addresses these issues and presents a persuasive fresh assessment of the legacy of this revolution in housing design Although accepting Hoskins s definition of a first Great Rebuilding starting with the 1570s and ending in the devastations of the Civil War the author argues convincingly for a more influential second Great Rebuilding after peace had returned In examining architectural change both in the buildings themselves and through the writings of discerning contemporaries today s family house whether in town or country is shown to owe almost nothing to the

Middle Ages Instead its origins lie in the increasingly sophisticated world of the Tudor and Jacobean courts in the refined taste of returned travellers and in a growing popular demand for personal privacy unobtainable in houses of medieval plan This fascinating and challenging study of changing tastes marks an important contribution to our understanding of Tudor and Stuart society and as such will not only be welcomed by students and historians of early modern England but by the interested general reader

**Living with the Royal Academy** Professor John Barrell, 2013-12-16 Living with the Royal Academy directs attention to the textures of artists relationships with the Royal Academy in late eighteenth and early nineteenth century Britain This essay collection considers the Academy as a lived organism one whose most effective role was as a reference point around which artists operated in their relationships with each other and with artistic practice itself

**The Royal Image and the English People** Nicola Smith, 2017-07-12 This title was first published in 2001 For the English people the image of the monarchy is deeply bound up with the idea of nationhood This book surveys aspects of England s royal heritage dialogue from the late middle ages to the 19th century It concentrates on monumental sculpted portraits because that was the way in which the image of the monarchy was customarily presented in the most immediate and permanent form at large scale in the public arena The aim of such memorials was to consolidate and commemorate shared loyalties and beliefs focusing on the monarchs They were sometimes protected by railings more often than just by their talismanic value There was widespread resistance to the idea that Oliver Cromwell should be commemorated by public memorial The English generally remained uncomfortable with the idea of republicanism The monarchical government of the middle ages thought to be sanctioned by God was very different from the figurehead the monarchy has become

**BOOK JACKET Samuel Taylor Coleridge and the Fine Arts** Morton D. Paley, 2008-07-10 Although Coleridge s thinking and writing about the fine arts was both considerable and interesting this has not been the subject of a book before Coleridge owed his initiation into art to Sir George Beaumont In 1803 4 he had frequent opportunities to learn from Beaumont to study Beaumont s small but elegant collection and to visit private collections Before leaving for Malta in April 1804 Coleridge wrote I have learnt as much from Sir George Beaumont respecting Pictures Painting and Painters as I ever learnt on any subject from any man in the same Space of Time In Italy in 1806 Coleridge s experience of art deepened thanks to the American artist Washington Allston who taught him to see the artistic sights of Rome with a painter s eye Coleridge also visited Florence and Pisa and later said of the frescoes in Pisa s Camp Santo The impression was greater I may say than that any poem ever made upon me Back in England Coleridge visited London exhibitions country house collections and even artists studios In 1814 both Coleridge and Allston were in Bristol Coleridge lecturing Allston exhibiting Coleridge s On the Principles of Genial Criticism began as a defense of Allston s

paintings but became a statement about all the arts This book an important contribution to Coleridge s intellectual biography will make readers aware of a dimension of his thinking that has been largely ignored until now *Living with the Royal Academy* Sarah Monks,2017-07-05 *Living with the Royal Academy* Artistic Ideals and Experiences in England 1768 1848 offers a range of case studies which consider individual artists personal professional and artistic relationships with the Royal Academy during the late eighteenth and early nineteenth centuries bringing together the research of leading historians of British artistic culture during this period Over its introduction and nine essays this collection considers the Academy as a lived organism whose most effective role following its establishment in 1768 was as a reference point towards around and against which artists operated in their relationships with each other and with artistic practice itself In so doing this collection also considers the relationship between Academic ideals and individual practice as well as lived experience during this period of art s increasingly public manifestation at the Academy Individual artists examined include Joshua Reynolds Joseph Wright of Derby Benjamin West and William Etty Thinking beyond the dichotomy of loyalism and rebellion and complicating notions of the Academy as a monolithic ossifying institution from which progressive artists would be liberated in the wake of the Pre Raphaelite Brotherhood s emergence in 1848 this volume investigates the Academy s varied impact upon the lives experiences and ideals of its diverse artistic communities *Effigies & Ecstasies* Timothy Clifford,National Gallery of Scotland,1998 This book accompanies the National Gallery of Scotland s major Festival exhibition in 1998 a joint celebration of the fourth centenaries of the births of the two greatest sculptors of the Italian Baroque era Gianlorenzo Bernini 1598 1680 and Alessandro Algardi 1598 1654 The Baroque is a style renowned for its elaborate combination of materials and its unification of various branches of the arts into a harmonious whole This book will include detailed information and commentaries by leading authorities on the marble sculptures bronzes terracottas medals and drawings produced by these two great artists in what was a fascinating and highly influential period in European art and design **Imitation and Praise in the Poems of Ben Jonson** Richard S. Peterson,2016-12-05 In the first edition of this now classic text Richard Peterson offered an important revaluation of the poetry of Ben Jonson and a new appreciation of the way in which the classical doctrine of imitation the creative use of the thoughts and words of predecessors permeates and shapes Jonson s critical ideas and his work as a whole The publication of the original book in 1981 led to a reinterpretation of the poems and a coherent view of Jonson s philosophy the resulting portrait of Jonson served as a corrective to earlier views based primarily on the satiric poems and plays This second edition of *Imitation and Praise in the Poems of Ben Jonson* makes Peterson s important scholarship available to a new generation of scholars and students *The Orders of Knighthood and the Formation of the British Honours System, 1660-1760* Antti Matikkala,2008 Sheds considerable new light on the nature development and functions of the orders in a key phase of their history and goes a long way to explaining how such archaic institutions could flourish in a culture that is commonly thought anti traditional and especially hostile to the middle ages

Professor JONATHAN BOULTON University of Notre Dame This is the first comprehensive study to set the British orders of knighthood properly into the context of the honours system by analysing their political social and cultural functions from the Restoration of the monarchy to the end of George II s reign It examines the revival of the Order of the Garter and the proposals to establish the Orders of the Royal Oak and the Esquires of the Martyred King at the Restoration the foundation 1687 and the revival 1703 4 of the Order of the Thistle as well as the foundation of the Order of the Bath 1725 It establishes just how central a part the orders played in the British high political life and its comprehensive and multidimensional approach carefully contrasts the idealistic discourse of virtue and honour to the real workings of the honours system it also makes the case for the Chivalric Enlightenment The orders over the water the Garter and the Thistle conferred by the Jacobite claimants are discussed for the first time in the context of the established British honours system Overall the comparison between the socially very restricted British and the increasingly meritocratic Continental orders highlights the isolation of the British honours system from the European tendencies     European Painting and Sculpture Before 1800 Ursula Hoff,National Gallery of Victoria,1973     Milton & English Art Marcia R.
