later after a stock market crash he felt confident of his ability to earn a living for his family by painting and he resigned his position and took up the painter's brush full time. Following the lead of Cézanne, Gauguin painted still lifes from the very beginning of his artistic career. He even owned a still life by Cézanne which is shown in Gauguin's painting *Portrait of Marie Lagadu*. The year 1891 was crucial for Gauguin. In that year he left France for Tahiti where he stayed till 1893. This stay in Tahiti determined his future life and career. In 1895, after a sojourn in France, he returned there for good. In Tahiti, Gauguin discovered primitive art with its flat forms and violent colours belonging to an untamed nature. With absolute sincerity he transferred them onto his canvas. His paintings from then on reflected this style: a radical simplification of drawing, brilliant pure bright colours, an ornamental type composition and a deliberate flatness of planes. Gauguin termed this style 'synthetic symbolism'.

Gauguin Belinda Thomson, 2021-04-06 This authoritative account of the life and work of Paul Gauguin, one of the most original artists of the late nineteenth century, is revised and updated with color illustrations throughout. Artist Paul Gauguin achieved a high public profile during his lifetime and was one of the first artists of his generation to achieve international recognition. But his prominence has always been tangled up with the dramatic and problematic events of his life: his self-imposed exile on a remote South Sea island and his turbulent relationships with his peers, as with the appeal of his art. In this revised and updated edition, art historian Belinda Thomson gives a comprehensive and accessible account of the life and work of one of the most complicated artists of the late nineteenth century. Gauguin's painting, sculpture, prints and ceramics are discussed in the light of his public persona, his relations with his contemporaries, his exhibitions and their critical reception. His private world, beliefs and aspirations emerge through his extensive cache of journals, letters and other writings. Fully illustrated in color and drawing on the new, more global conversation surrounding the artist, Gauguin is the definitive volume on this controversial and often contradictory figure.

The result is an authoritative guide through the forest of artistic labels: Impressionism and Expressionism, Symbolism, Cubism, Constructivism, Surrealism, etc., and to the achievements of Degas and Cézanne, Ensor and Munch, Matisse and Kandinsky, Picasso, Braque and Epstein, Mondrian, Dalí, Modigliani, Utrillo and Chagall, Klee, Henry Moore and many other artists in a revolutionary age.
