Schaefer-Simmern,2003-01-01 **"Australian Art and Artists in London, 1950-1965"** Simon Pierse,2017-07-05 Subtle and wide ranging in its account this study explores the impact of Australian art in Britain in the two decades following the end of World War II and preceding the Swinging Sixties In a transitional period of decolonization in Britain Australian painting was briefly seized upon as a dynamic and reinvigorating force in contemporary art and a group of Australian artists settled in London where they held centre stage with group and solo exhibitions in the capital's most prestigious galleries The book traces the key influences of Sir Kenneth Clark Bernard Smith and Bryan Robertson in their various and varying roles as patrons ideologues and entrepreneurs for Australian art as well as the self definition and interaction of the artists themselves Simon Pierse interweaves multiple issues of the period into a cohesive historical narrative including the mechanics of the British art world the limited and frustrating cultural scene of 1950s Australia and the conservative influence of Australian government bodies Publishing for the first time archival material letters and photographs previously unavailable to scholars either in Britain or Australia this book demonstrates how the work of expatriate Australian artists living in London

constructed a distinct vision of Australian identity for a foreign market **Sculpture Collections in Europe and the United States 1500-1930**,2021-04-26 Exploring the variety of forms taken by collections of sculpture this volume presents new research by twelve internationally recognized scholars The essays delve into the motivations of different collectors the modes of display and the aesthetics of viewing sculpture bringing to light much new archival material The book underscores the ambiguous nature of sculpture collections variously understood as decorative components of interiors or gardens as objects of desire in cabinets of curiosity or as autonomous works of art in private and public collections Emphasizing the collections and the ways in which these were viewed and described this book addresses a significant but neglected aspect of art collecting and contributes to the literature on this branch of art and cultural history This book evolved from a symposium Sculpture Collecting and Display 1600-2000 organized by the Center for the History of Collecting that was held at The Frick Collection on May 19 and 20 2017 Both the book and the symposium were made possible through the generous support of

the Robert H Smith Family Foundation The book is published in association with The Frick Collection World Today ,1910

**Chroma: Sculpture in Color from Antiquity to Today** Seán Hemingway,Vinzenz Brinkmann,Mark B. Abbe,2025-06-30 Many ancient and early modern works that are viewed in monochrome today were once painted in vibrant colors Lost to time until recently the pigments and other surface treatments that originally adorned these objects offer a deeper appreciation of the cultures from which they originate This handsome volume features new research by more than thirty international experts in polychromy including art historians conservators scientists and photographers Identified through advanced technologies scientific analyses and in depth research their discoveries of surviving traces of color span the globe and vary in material including an Archaic Greek marble sphinx an ancient Phoenician cloisonné furniture plaque Mexica Aztec lime stone sculptures and medieval and Renaissance European marbles and bronzes This wide ranging publication explores how these works further our understanding of ancient ideas around skin color race and gender summarizes recent advances in the field and considers polychromy's controversial rediscovery and modern reception highlighting the role of reconstructions such as 3D printed replicas and virtual animations in contemporary museum practice as well as the resurgence of polychromy techniques in postmodern and contemporary European architecture Looking at European Sculpture Jane Bassett,Peggy Fogelman,1997 This book offers definitions of the techniques processes and materials used in the production of postclassical European sculpture Concise and readable explanations of the technical terms most frequently encountered by the museum goer are presented in an easily portable format With numerous illustrations drawn from the collections of the J Paul Getty Museum and the Victoria and Albert Museum most of them in color this volume will be indispensable to all readers wishing to increase their enjoyment and understanding of European sculpture **Metal Sculptures** Everett Sinclair,2025-03-21 What transforms raw unyielding metal into breathtaking works of art that capture our imaginations and define public spaces Metal Sculptures delves deep into the diverse and fascinating world of metal as a medium for artistic expression exploring its historical evolution technical applications and aesthetic possibilities This book examines how sculptors throughout history and in contemporary practice have harnessed the unique properties of various metals to create objects ranging from delicate filigree jewelry to monumental outdoor installations This comprehensive study is significant because it bridges the gap between artistic vision and material reality offering insights into the creative processes and technical skills required to manipulate metals into compelling sculptural forms Understanding the specific characteristics of different metals their strength malleability resistance to corrosion and aesthetic qualities is crucial for both artists and appreciators of art We will explore how these properties dictate the scale form and longevity of metal sculptures ultimately shaping their impact on viewers and their environments The historical context will be considered tracing the use of metals in sculpture from ancient civilizations to the modern era This historical overview will provide a foundation for understanding the technological advancements and artistic movements that have influenced metal sculpture A basic understanding of art history and

materials science would enhance the reader's experience although the book will also include introductions to relevant concepts within these fields. The central argument of *Metal Sculptures* is that the choice of metal is not merely a practical consideration but a fundamental aspect of the artistic statement. Each metal carries its own symbolic weight and inherent aesthetic influencing the meaning and impact of the final sculpture. This argument is essential for appreciating the intentionality behind the artist's choices and for understanding how metal contributes to the overall narrative and emotional resonance of the artwork. The book's structure begins with an introduction to the fundamental properties of various metals commonly used in sculpture including bronze steel aluminum copper and precious metals like gold and silver. Following this it will explore various metalworking techniques such as casting welding forging and fabrication highlighting their historical development and contemporary applications. Specific chapters will focus on case studies of significant metal sculptures and the artists who created them analyzing their methods materials and artistic intentions. The book culminates in a discussion of the role of metal sculpture in public art architecture and design examining its impact on urban landscapes and cultural identity. The analysis is supported by historical records technical manuals artist interviews and photographic documentation of sculptures from around the world. The book will also include visual examples from art history contemporary sculpture and technical diagrams to illustrate processes. *Metal Sculptures* connects to several disciplines including materials science engineering architecture and cultural studies. The exploration of material properties connects to material science the use of metals in large structures relates to engineering and architecture and the cultural significance of metalwork relates to cultural studies. These interdisciplinary connections deepen the understanding of metal sculpture as a complex and multifaceted art form. This book distinguishes itself by its comprehensive approach integrating technical information with art historical analysis and contemporary artistic practices. It offers a user friendly exploration of the interplay between material properties technical processes and artistic expression. The writing style will be informative and accessible avoiding overly technical jargon while maintaining scholarly rigor. The book will rely on clear explanations supported by visual aids. The target audience includes art students sculptors architects designers art collectors and anyone interested in the intersection of art design and technology. It would be valuable to those seeking a deeper understanding of the materials and processes behind metal sculpture. As a work of non fiction in the genres of Design Art and Design General it will adhere to the conventions of presenting factual information providing evidence based arguments and offering a balanced perspective on the subject matter. The scope of *Metal Sculptures* is intentionally broad encompassing a wide range of metals techniques and artistic styles. However it will focus primarily on sculpture and will not delve deeply into other forms of metalwork such as functional objects or industrial design. The information presented in *Metal Sculptures* can be applied practically by artists seeking to expand their knowledge of metalworking techniques designers looking to incorporate metal sculpture into architectural projects and art enthusiasts hoping to deepen their appreciation of this versatile medium. The book will touch

upon ongoing debates regarding the environmental impact of metal production and the ethics of using certain materials in sculpture providing a balanced discussion of these important issues

**European Sculpture, 1400-1900, in the Metropolitan Museum of Art** Metropolitan Museum of Art (New York, N.Y.), Ian Wardropper, 2011 This beautiful book features masterpieces of sculpture in the collection of the Metropolitan Museum dating from the Renaissance through the nineteenth century Celebrated works by the great European sculptors including Luca and Andrea della Robbia Juan Martinez Montañés Gianlorenzo Bernini Jean Antoine Houdon Bertel Thorvaldsen Antoine Louis Barye Jean Baptiste Carpeaux Edgar Degas and Auguste Rodin are joined by striking new additions to the collection notably Franz Xaver Messerschmidt's remarkable bust of a troubled and introspective man The ninety two selected examples are diverse in media marble bronze wood terracotta and ivory and size ranging from a tiny oil lamp fantastically conceived and decorated by the Renaissance bronze sculptor Riccio to Antonio Canova's eight foot high Perseus with the Head of Medusa executed in the heroic Neoclassical style Incorporating information from the latest scholarly research and recent conservation studies sculpture specialist Ian Wardropper discusses the history and significance of the highlighted works each of which is reproduced with glorious new photography

**Sculpture and the Decorative in Britain and Europe** Imogen Hart, Claire Jones, 2020-10-29 By foregrounding the overlaps between sculpture and the decorative this volume of essays offers a model for a more integrated form of art history writing Through distinct case studies from a seventeenth century Danish altarpiece to contemporary British ceramics it brings to centre stage makers objects concepts and spaces that have been marginalized by the enforcement of boundaries within art and design discourse These essays challenge the classed raced and gendered categories that have structured the histories and languages of art and its making Sculpture and the Decorative in Britain and Europe is essential reading for anyone interested in the history and practice of sculpture and the decorative arts and the methodologies of art history

*Hot Art, Cold War - Southern and Eastern European Writing on American Art 1945-1990* Claudia Hopkins, Iain Boyd Whyte, 2020-12-21 Hot Art Cold War Southern and Eastern European Writing on American Art 1945-1990 is one of two text anthologies that trace the reception of American art in Europe during the Cold War era through primary sources Translated into English for the first time from sixteen languages and introduced by scholarly essays the texts in this volume offer a representative selection of the diverse responses to American art in Portugal Italy Spain Greece Yugoslavia Romania Bulgaria Soviet Union including the Baltic States Czechoslovakia Poland Hungary and East Germany GDR There was no single European discourse as attitudes to American art were determined by a wide range of ideological political social cultural and artistic positions that varied considerably across the European nations This volume and its companion Hot Art Cold War Northern and Western European Writing on American Art 1945-1990 offer the reader a unique opportunity to compare how European art writers introduced and explained contemporary American art to their many and varied audiences Whilst many are fluent in one or two foreign languages few are able to read all twenty five languages

Polychrome Sculpture Johannes Taubert,2016-02-15 In the decades since its initial publication in German in 1978 Polychrome Sculpture has come to be widely regarded as a watershed text on the making and meaning of European medieval and Baroque painted wood sculpture An early proponent of interdisciplinary research Johannes Taubert played a pioneering role in combining the rigorous scientific analysis of materials with a fuller understanding of form and function an approach that has led to the development of technical art history as practiced today Many of the essays in this volume apply such scientific techniques as microscopic analysis to an art historical understanding of Romanesque and late Gothic wood sculpture revealing that far from serving a merely decorative function the painted surface of these works was intricately connected to their meaning The paint layers on the sculptures for example which the author spent years documenting through close examination and analysis were intended to impart a heightened sense of reality to the life sized sculptures thereby enhancing the viewer s experience of worship Taubert believed it was crucial for conservators to understand this context before undertaking any treatments No other book offers such a focused subtle and interdisciplinary examination of the subject as Polychrome Sculpture This influential work is now available in English for the first time in a meticulous translation enhanced and updated by new color illustrations annotations to the original text and a new introduction
