Joint Fact-Finding in Urban Planning and Environmental Disputes Masahiro Matsuura, Todd Schenk, 2016-10-04 The days of rationalist scientific management and deference to official data are behind us The credibility of experts and the information they provide are regularly challenged officials are routinely provided with conflicting sets of facts as they plan and make decisions and decision makers and stakeholders alike are largely skeptical that technical information will adequately account for the various interests and concerns and lead to the right outcomes They struggle to reconcile technical information with other forms of knowledge and differing interests priorities and perspectives Issues like climate change are complicating matters even further as scientists and technicians must increasingly acknowledge the uncertainty and potential fallibility of their findings and highlight the dynamic nature of the systems they are explaining This book examines how groups looking to plan and make decisions in any number of areas can wade through the imperfect and often contradictory information they have to make fair efficient wise and well informed choices It introduces an emerging and very promising approach called joint fact finding JFF Rather than each stakeholder group marshaling the set of facts that best advance their respective interests and perspectives while discrediting the contradictory facts others provide groups are challenged to collaboratively generate shared sets of facts that all parties accept This book introduces readers to the theory of JFF the value it can provide and how they can adopt this approach in practice It brings together writings from leading practitioners and scholars from around the world that are at the forefront of the JFF approach to science intensive policymaking urban planning and environmental dispute resolution The first set of chapters outlines the concept of JFF and situates it within other bodies of theory and practice The second set of case based chapters elucidates how JFF is being applied in practice This book delivers a new perspective to scholars in the field of public policy urban planning environmental studies and science and technology studies as well as public officials technical experts policy consultants and professional facilitators

The Water Birds of North America Spencer F. Baird, 1884 *Wildlife and Man in Texas* Robin W. Dougherty, 1983 The author uses letters journals and travel accounts to show the early attitudes toward the uses of indigenous birds and mammals of Texas Surviving on nature's bounty and remorselessly exterminating her threats wolves cougars and other wily critters

settlers exploited Texas pristine fecundity Some species benefited from disturbed environments others were unable to adjust to human presence and disappeared By the 1880s concern about the diminishing numbers of many preferred species led to enactment of game laws and other efforts to protect and manage wildlife Today the author argues habitat change is the most pressing issue confronting conservationists

The Water Birds of North America Baird,1884 [Finding Australian Birds](#) Tim Dolby,Rohan Clarke,2025-02-03 From the eastern rainforests to the central deserts Australia is home to some 900 species of birds Finding Australian Birds covers over 400 birdwatching sites conveniently grouped into the best birding areas from one end of the country to the other This includes areas such as Kakadu in the Top End and Uluru in the Red Centre of the Northern Territory the Great Barrier Reef in Queensland an amazing diversity of forests along the eastern Australian seaboard including some of the world s tallest forests in Tasmania the iconic Strzelecki and Birdsville Tracks in South Australia and the mallee woodlands and remote Kimberley region in Western Australia Chapters are arranged by state or territory and begin with an overview Birdwatching sites are then grouped by region to provide specific details on target species access and useful information such as accommodation and facilities This second edition includes over 30 new birdwatching sites and updated information on site access The book also provides a comprehensive Bird Finding Guide listing all of Australia s birds with details on their abundance and where exactly to see them Finding Australian Birds will be valuable to both Australian birdwatchers and international visitors It will assist novices birders of intermediate skill and keen twitchers to find any Australian species
