**Syndicated Television** Hal Erickson, 2024-10-09 Here is an excellent reference book on first run syndication the distribution of programs either made exclusively for non network play or of programs intended for network telecasts but ultimately making their debuts in syndication Bringing together information not easily found this work covers the classics such as Sea Hunt Highway Patrol The Merv Griffin Show and the Muppet Show as well as such once popular but now obscure productions as China Smith Ripcord and The Littlest Hobo Coverage goes back to 1947 and the book includes a number of series ignored in other works The first section is an overview of the concept of syndication from its earliest application in the newspaper world to the attempt by Fox Television to become a fourth network The next four sections each cover ten years of syndication listing the shows with full background who produced them and why who liked them and why etc alphabetically by title under the following genres Adventure Mystery Children s Comedy Drama Game Quiz Informational Music Variety Religious Sports Talk Interview Travel Documentary Westerns and Women s      **Underwater Worlds** Will Abberley, 2019-01-15 Underwater Worlds throws open a new area in the emerging field of blue environmental humanities by exploring how subaqueous environments have been imagined and represented across cultures and media The collection pursues this theme through various disciplinary perspectives and methodologies including history literary and film criticism myth studies legal studies and the history of art The essays suggest that since the nineteenth century technologies of underwater exploration have generated novel sensory experiences that have destabilized conventional modes of representation and influenced new aesthetic forms from fiction and television to virtual reality The collection also examines how representations of underwater environments have reflected and critiqued humans relationships with marine ecology and life forms It reflects on the deeper cultural and symbolic resonances of mythical figures such as mermaids sea monsters and the ghosts of drowned seafarers The contributions further reveal myriad political ideological gendered and racial dimensions of representing underwater environments      **Catalog of Copyright Entries** Library of Congress. *Underwater Cultural Heritage and International Law* Sarah Dromgoole,2013-07-25 The UNESCO Convention on the Protection of the Underwater Cultural Heritage 2001 which entered into force internationally in 2009 is designed to deal with threats to underwater cultural heritage arising as a result of advances in deep water technology However the relationship between this new treaty and the UN Convention on the Law of the Sea is deeply controversial This study of the international legal framework regulating human interference with underwater cultural heritage explores the development and present status of the framework and gives some consideration to how it may evolve in the future The central themes are the issues that provided the UNESCO negotiators with their greatest challenges the question of ownership rights in sunken vessels and cargoes sovereign immunity and sunken warships the application of salvage law the ethics of commercial exploitation and most crucially the question of jurisdictional competence to regulate activities beyond territorial sea limits

**Art, Cultural Heritage and the Market** Valentina Vadi,Hildegard E. G. S. Schneider,2014-01-27 In the age of economic globalisation do art and heritage matter Once the domain of elitist practitioners and scholars the governance of cultural heritage and the destiny of iconic artefacts have emerged as the new frontier of international law making headlines and attracting the varied interests of academics and policy makers museum curators and collectors human rights activists and investment lawyers and artists and economists just to mention a few The return of cultural artefacts to their legitimate owners the recovery of underwater cultural heritage and the protection and promotion of artistic expressions are just some

of the pressing issues addressed by this book Contemporary intersections between art cultural heritage and the market are complicated by a variety of ethical and legal issues which often describe complex global relations Should works of art be treated differently from other goods What happens if a work of art currently exhibited in a museum turns out to have originally been looted What is the relevant legal framework What should be done with ancient shipwrecks filled with objects from former colonies Should such objects be kept by the finders Should they be returned to the country of origin This book addresses these different questions while highlighting the complex interplay between legal and ethical issues in the context of cultural governance The approach is mainly legal but interdisciplinary aspects are considered as well **The**

**Underwater Eye** Margaret Cohen, 2022-04-12 In *The Underwater Eye* Margaret Cohen tells the fascinating story of how the development of modern diving equipment and movie camera technology has allowed documentary and narrative filmmakers to take human vision into the depths creating new imagery of the seas and the underwater realm and expanding the scope of popular imagination Innovating on the most challenging film set on earth filmmakers have tapped the emotional power of the underwater environment to forge new visions of horror tragedy adventure beauty and surrealism entertaining the public and shaping its perception of ocean reality Examining works by filmmakers ranging from J E Williamson inventor of the first undersea film technology in 1914 to Wes Anderson who filmed the underwater scenes of his 2004 *The Life Aquatic with Steve Zissou* entirely in a pool *The Underwater Eye* traces how the radically alien qualities of underwater optics have shaped liquid fantasies for more than a century Richly illustrated the book explores documentaries by Jacques Cousteau Louis Malle and Hans Hass art films by Man Ray and Jean Vigo and popular movies and television shows such as *20 000 Leagues Under the Sea* *Creature from the Black Lagoon* *Sea Hunt* the Bond films *Jaws* *The Abyss* and *Titanic* In exploring the cultural impact of underwater filmmaking the book also asks compelling questions about the role film plays in engaging the public with the remote ocean a frontline of climate change *Merchant Vessels of the United States ... **Merchant Vessels of the United States...** United States. Coast Guard,1976 **Historical Dictionary of the 1950s** Bloomsbury Publishing,2000-07-30 Today Americans look back nostalgically at the 1950s an era when television and rock and roll revolutionized popular culture and Vietnam race riots drug abuse and protest movements were still in the future With homes in the suburbs new automobiles and the latest electrical gadgets many Americans believed they were the most prosperous people on earth Yet the era was tainted by the fear of thermonuclear war with the Soviet Union deepening racial tensions and discontent with rigid roles for women and the demands of corporate conformity A sense of rebellion had begun to brew behind the facade It manifested itself in rock and roll the budding civil rights movement and the appearance of a youth culture eventually exploding in the 1960s Providing a comprehensive overview this book includes entries on the prominent people major events issues scandals ideas popular culture and court cases of the decade that gave rise to the tensions of the 1960s **Motion Picture Paradise** David Morton,2025-09-16 Highlighting Florida s essential often overlooked role in shaping American film and television Motion Picture Paradise is a sweeping story of filmmaking in Florida featuring the activities of studios and filmmakers across the peninsula by looking at the many iconic films and television shows shot in the state In the early years of the American film industry Florida was a favorite location for pioneer movie makers and David Morton chronicles the state s importance to producers throughout the next 125 years Often overshadowed by the well known entertainment industries of Hollywood and New York Florida has over time had several major film production centers Morton follows the rise and fall of filmmaking destinations across the state including Jacksonville St Augustine Tampa Bay Orlando and Miami as well as pioneering underwater and location based films shot at Florida s unique natural springs He argues that conflicting policies set by Florida politicians have at various times enticed or pushed away movie and television companies a pattern that has hampered serious investment Using a wealth of source materials Morton offers a comprehensive history that demonstrates how films and television shows made in Florida have influenced the state s sense of identity drawing attention to Florida s underacknowledged role as the third coast in American film history Motion Picture Paradise adds new insights into the state s dramatic social and economic transformations during the twentieth century *Spanish Yearbook of International Law* Asociación Española de Profesores de Derecho Internacional y Relaciones Internacionales,2005-10 This Yearbook brings together information concerning Spanish legal practice and a bibliography over the period of one year and makes it available to an international readership It deals with both private and public international law taken in a broad sense to include summary treatment of international organizations of which Spain is a member **The Protection of the Underwater Cultural Heritage** Sarah Dromgoole,2006-09-01 The legal protection of the underwater cultural heritage is a field in which there is growing international interest Shipwrecks and other underwater

cultural remains in every maritime zone are threatened both by activities directed at them such as treasure hunting and by activities incidentally affecting them such as mineral exploration and exploitation pipeline and cable laying dredging and fishing Since the first edition of this collection published in 1999 the urgent need for an international legal framework to regulate these activities has been formally recognised by the adoption in 2001 of the UNESCO Convention on the Protection of the Underwater Cultural Heritage While the prospects for this Convention remain uncertain it will undoubtedly have a profound influence on national laws and practice in this field This second collection of essays examines the present state of law policy and practice in sixteen different jurisdictions around the world in light of the 2001 Convention Among other things the viewpoint of each jurisdiction in respect of the Convention is considered and the impact that the Convention is already having and is likely to have in the future is explored Eight of the essays are entirely new and several additional jurisdictions are covered Finland the Federated States of Micronesia the Netherlands New Zealand and Norway The other essays have been thoroughly updated and revised to take account of the Convention The contributors come from a variety of backgrounds but all have specialist knowledge and experience of their particular jurisdiction and a keen interest in the field

AIRC is an annual case law reporter that provides the full text of U S court opinions involving international law issues The courts covered include all U S federal district courts federal appellate courts and the U S Supreme Court as well as some state courts the U S Court of Claims the U S Court of International Trade and the U S Tax Court The series seeks to provide not every single case in which a court refers to international law but rather all cases that analyze at least one international law issue in depth The list of subjects addressed by these volumes is vast and changes from year to year with the inclusion and prominence of most topics turning on their prevalence in a given year s jurisprudence Some consistently prominent topics are personal jurisdiction over foreign defendants deportation procedure and double taxation Over the last three editions 2006 2007 and 2008 many topics have developed rapidly and constitute a correspondingly larger portion of the volumes particularly Terrorism the Foreign Sovereign Immunities Act Forum Non Conveniens and an entirely new added topic the National Security Exception to deportation eligibility The 2008 edition of AIRC also features expanded sections on family law and on the detention of terrorist suspects The U S war on terror and the crisis at Guantanamo have made that last topic a significant and dynamic component of AIRC Each edition of AIRC also comes framed with two practical resources for students and scholars The first is an introductory editor s note that both reviews international law s major developments for the given year and explains to readers how to use the volumes The second is a subject index to allow for targeted research Volume Two of AIRC consists of cases concerning territories trusteeships boundaries and navigable waters covering marine torts and crimes and death on the high seas by wrongful act Also covered are procedural aspects including in personam jurisdiction extraterritoriality and forum selection clauses In *Atlantic Sounding Co Inc v Edgar L Townsend* the issue was

whether an injured seaman may recover punitive damages for his employer's willful failure to pay maintenance and cure. The court ruled that punitive damages were available as a matter of general maritime law. The issue in *Jose Marcial Reyes Fuentes et al v Shannon Produce Farm Inc et al* was whether the Fair Labor Standards Act's FLSA provision provides a cause of action to foreign workers located abroad who are denied re-hire in retaliation for exercising their rights under the FLSA. The court ruled that neither the FLSA nor general extraterritoriality principles stand in the way of the plaintiffs' retaliation claim.
