Command Companion of Seamanship Techniques David House,2007-07-11 The Command Companion of Seamanship Techniques is the latest work from the well respected marine author D J House It contains all the information needed for command posts at sea All aspects of shipboard management are discussed with special emphasis placed on health and safety Guidelines on how to respond to accidents and emergencies at sea Contains the most recent SOLAS revisions and a discussion of marine law to keep you up to date with the latest rules and regulations In order to aid learning the book includes a number of worked examples in the text along with questions and answers at the end of chapters The author tells you how to respond to accidents and emergencies at sea in the event for example of cargo contamination collision loss of stability due to cargo shift and damage due to flooding fire plus loss of life crew In addition the SOLAS revisions and a discussion of marine law is included to keep you up to date with all the latest rules and regulations In order to aid learning this book will include a number of worked examples in the text along with questions and answers at the end of chapters D J House is senior lecturer in Nautical studies at the Nautical college Fleetwood His sea going experience includes general cargo reefer bulk cargo passenger and liner trades underwater operations and roll on roll off ferries He is a well known marine author and has written Seamanship Techniques Volumes 1 and 2 combined and he has revised Cargo Work in the Kemp Young series

The Bluejacket's Manual Thomas J. Cutler,2017-11-15 From the days of oars and coal fired engines to the computerized era of the 21st century The Bluejacket's Manual has been an essential part of the American Sailor's sea bag for over one hundred years serving as an introduction to the Navy for new recruits and as a reference book for Sailors of all ranks Written by a Sailor whose decades of naval service included sea duty in patrol craft destroyers cruisers and aircraft carriers as both an officer and a white hat this newest edition has been overhauled to reflect the current state of the ever evolving United States Navy and includes chapters on ships and aircraft uniforms weapons damage control communications naval customs and ceremonies security leadership pay and benefits naval missions military fundamentals and seamanship Since Lieutenant Ridley McLean wrote the first edition of this perennial classic the Navy has grown from fledgling sea power to master of the world's oceans and both technology and American culture have changed in ways probably unimaginable in his day Although The Bluejacket's Manual has necessarily evolved through more than twenty revisions to reflect those changes its original purpose has remained steadfastly on course Like its predecessors this new edition makes no attempt to be a comprehensive textbook on all things naval to do so today would require a multivolume set that would defy practicality but it continues to serve two very important purposes First it

serves as a primer that introduces new recruits to their Navy and helps them make the transition from civilian to Sailor. Second, it serves as a handy reference that Sailors can rely on as a ready source of basic information as they continue their service, whether for only one hitch or for an entire career. To that end, this 25th edition has been reorganized to more efficiently reflect those dual purposes, with the first part of the book consisting of Chapters that provide introductions and basic explanations that Sailors new to the Navy will find most helpful, and the second part consisting of Tabs that deal with specifics, often mere tables that seasoned Sailors will find useful for reference purposes. Also unique to this latest edition has been the creation of an accompanying website that will serve to keep the book current and provide valuable supplementary material. In total, this latest edition of a recognized Navy classic continues to serve today's Bluejackets and Old Salts in the traditional manner while providing a fresh approach that will be welcomed by potential recruits, Navy buffs, and a growing number of Bluejacket Manual collectors.

Dry Docking and Shipboard Maintenance David House, 2015-08-27. This book covers every aspect of the dry docking of sea-going vessels. It provides a guide to industry for the different dock types and docking procedures, inclusive of material management, steelwork operations, and dry dock legislation. Many thousands of people worldwide are engaged within the perimeter of the docking and shipboard maintenance industries to ensure that our ships remain in Class and are kept seaworthy. Docking a vessel successfully involves many skills and trades, requiring a teamwork operation between ship crews and the shoreside docking personnel. This book describes dock types alongside the various methods of docking, stability concerns, repair activities, steelwork management, legislation, and survey detail, as well as shipyard safety requirements. Includes a new chapter on steelwork and material management of the shipyard complex. Contains over a hundred photographs and illustrations, including a full colour plate section. Full coverage of dry dock operations, handling facilities, main ship building slips, and shipyard repair activities.

Ship Handling D. J. House, 2007. Chapters are Ship Handling and Manoeuvring, Manoeuvring Characteristics and Interaction, Anchor Operations, and Deployment Operations with Tugs, and Emergency Ship Manoeuvres.

Cargo Work for Maritime Operations D. J. House, 2005. Reflecting unit load containerised systems that are used in the majority of cargo shipping, this book is a useful reference for merchant seamen internationally. It covers general principles and the international regulations that affect all cargo work, including cargo types and key characteristics of a wide range of cargo classes.

Popular Science, 1968-02. Popular Science gives our readers the information and tools to improve their technology and their world. The core belief that Popular Science and our readers share: The future is going to be better, and science and technology are the driving forces that will help make it better.

Navigation Problems, 1988. **Limited Licenses, Able Seaman, Lifeboatman, and Tankerman**, 1988. Merchant Marine Examination Questions, 1989.
