architectural history of Judaism as it expanded and took root in the Atlantic world Jewish Sanctuary in the Atlantic World is a unique blend of cultural and architectural history that considers Jewish heritage as it expanded among the continents and islands linked by the Atlantic Ocean between the mid fifteenth and early nineteenth centuries Barry L Stiefel achieves a powerful synthesis of material culture research and traditional historical research in his examination of the early modern Jewish diaspora in the New World Through this generously illustrated work Stiefel examines forty six synagogues built in Europe South America the Caribbean Islands colonial and antebellum North America and Gibraltar to discover what liturgies construction methods and architectural styles were transported from the Old World to the New World Some are famous Touro in Newport Rhode Island Bevis Marks in London and Mikve Israel in Cura ao while others had short lived congregations whose buildings were lost The two great traditions of Judaism Sephardic and Ashkenazic found homes in the Atlantic World Examining buildings and congregations that survive Stiefel offers valuable insights on their connections and commonalities If both the congregations and buildings are gone the author re creates them by using modern heritage preservation tools that have expanded the heuristic repertoire tools from such diverse sources as architectural studies archaeology computer modeling and rendering and geographic information systems When combined these bring a richer understanding of the past than incomplete uncertain traditional historical resources Buildings figure as key indicators in Stiefel's analysis of Jewish life and social experience while the author's immersion in the faith and practice of Judaism invigorates every aspect of his work **The Cambridge History of American Foreign Relations: Volume 2, The**

American Search for Opportunity, 1865-1913 Bradford Perkins, Walter LaFeber, Warren I. Cohen, Akira Iriye, 1993

Between the American Civil War and the outbreak of world War I global history was transformed by two events the United States s rise to the status of a great world power indeed the world s greatest economic power and the eruption of nineteenth and twentieth century revolutions in Mexico China Russia Cuba the Philippines Hawaii Panama Nicaragua and elsewhere The American Search for Opportunity traces the U S foreign policy between 1865 and 1913 linking these two historic trends by noting how the United States usually thought of as antirevolutionary and embarked on a search for order during this era actually was a determinative force in helping to trigger these revolutions Walter LaFeber argues that industrialization fuelled centralisation Post Civil War America remained a vast unwieldy country of isolated parochial communities but the federal government and a new corporate capitalism now had the power to invade these areas and integrate them into an industrialization railway linked nation state The furious pace of economic growth in America attracted refugees from all parts of the world Professor LaFeber describes and influx of immigration so enormous that it led to America s first exclusionary immigration act In 1882 the United States passed legislation preventing all Chinese immigrant labour skilled and unskilled from entering the country for the next 10 years

Jewish Emancipation David Sorkin,2021-09-14 The first comprehensive history of how Jews became citizens in the modern world For all their unquestionable importance the Holocaust and the founding of the State of Israel now loom so large in modern Jewish history that we have mostly lost sight of the fact that they are only part of and indeed reactions to the central event of that history emancipation In this book David Sorkin seeks to reorient Jewish history by offering the first comprehensive account in any language of the process by which Jews became citizens with civil and political rights in the modern world Ranging from the mid sixteenth century to the beginning of the twenty first Jewish Emancipation tells the ongoing story of how Jews have gained kept lost and recovered rights in Europe North Africa the Middle East the United States and Israel Emancipation Sorkin shows was not a one time or linear event that began with the Enlightenment or French Revolution and culminated with Jews acquisition of rights in Central Europe in 1867 71 or Russia in 1917 Rather emancipation was and is a complex multidirectional and ambiguous process characterized by deflections and reversals defeats and successes triumphs and tragedies For example American Jews mobilized twice for emancipation in the nineteenth century for political rights and in the twentieth for lost civil rights Similarly Israel itself has struggled from the start to institute equality among its heterogeneous citizens By telling the story of this foundational but neglected event Jewish Emancipation reveals the lost contours of Jewish history over the past half millennium

A History of Native American Land Rights in Upstate New York Cindy Amrhein,2008-03-01 A complex and troubled history defines the borders of upstate New York beyond the physical boundaries of its rivers and lakes The United States and the state were often deceptive in their territory negotiations with the Iroquois Six Nations Amidst the growing quest for more land among settlers and then fledgling Americans the Indian nations attempted to maintain their autonomy Yet state land continued to encroach the Six Nations Local historian Cindy Amrhein takes a close and critical view of these transactions Evidence of

dubious deals bribes faulty surveys and coerced signatures may help explain why many of the Nations now feel they were cheated out of their territory *Narrative and Critical History of America* Justin Winsor,1886 *The Atlantic World* Willem Klooster,Alfred Padula,2018-10-24 This important new contribution to the study of Atlantic history brings together eight original essays by such leading scholars as Jorge Canizares Esguerra Paul Lovejoy David Eltis and Benjamin Schmidt on the many connections between the Old World and the New World in the early modern period With an introduction by Wim Klooster the four sets of paired essays examine the role of specific port cities in Atlantic history aspects of European migration the African dimension and ways in which the Atlantic world has been imagined Numerous maps and illustrations further enrich this vital new contribution to undergraduate and graduate courses of study in Atlantic history **A History of Antisemitism in Canada** Ira Robinson,2015-12-14 This state of the art account gives readers the tools to understand why antisemitism is such a controversial subject It acquaints readers with the ambiguities inherent in the historical relationship between Jews and Christians and shows these ambiguities in play in the unfolding relationship between Jews and Canadians of other religions and ethnicities It examines present relationships in light of history and considers particularly the influence of antisemitism on the social religious and political history of the Canadian Jewish community A History of Antisemitism in Canada builds on the foundation of numerous studies on antisemitism in general and on antisemitism in Canada in particular as well as on the growing body of scholarship in Canadian Jewish studies It attempts to understand the impact of antisemitism on Canada as a whole and is the first comprehensive account of antisemitism and its effect on the Jewish community of Canada The book will be valuable to students and scholars not only of Canadian Jewish studies and Canadian ethnic studies but of Canadian history *Narrative and Critical History of America: The later history of British, Spanish, and Portuguese America. 1889* Justin Winsor,1889 *Narrative and Critical History of America: Physiography of North America* Justin Winsor,1884 **A Source Textbook in American History** Percy Erwin Davidson,Elizabeth Chapman Davidson,1927 *Encyclopedia of American Indian History* Bruce E. Narrative and Critical History of America ,1889 Narrative and critical history of America, ed. by J. Winsor. [2 issues]. Winsor,1886 **Hegel and the Third World** Teshale Tibebu,2011-02-02 Hegel more than any other modern Western philosopher produced the most systematic case for the superiority of Western white Protestant bourgeois modernity He established a racially structured ladder of gradation of the peoples of the world putting Germanic people at the top of the racial pyramid people of Asia in the middle and Africans and Indigenous people of the Americas and Pacific Islands at the bottom In Hegel and the Third World Tibebu guides the reader through Hegel s presentation on universalism to argue that such a classification flows in part from Hegel s philosophy of the development of human consciousness Hegel classified Africans as people arrested at the lowest and most immediate stage of consciousness that of the senses Asians as people with divided consciousness that of the understanding and Europeans as people of reason Tibebu demonstrates that Hegel s views were not his alone but reflected the fundamental beliefs of other major figures of Western thought at the time With detailed analysis and thorough research Hegel and the Third World challenges the central idea of Hegel s philosophy of history progress In addition Tibebu succeeds in providing a fascinating critique of the Western philosopher s rationalization of the gradual decline suffered by the people of the Third World in the context of modern world history Narrative and Critical History of America: French explorations and settlements in North America, and those of the Portuguese, Dutch, and Swedes, 1500-1700.
