## Search For The Past 2nd Edition:

**In Search of Grace** Peter Reason, 2017-10-27 To recover from ecological disaster we humans must transform the sense of who we are in relation to the Earth In Search of Grace is the story of an ecological pilgrimage undertaken by the author in his small yacht Coral from the south of England and round the west coast of Ireland to the far north of Scotland It explores themes of pilgrimage the overall pattern of separation from the everyday venturing forth and returning home It tells of meeting wildlife visiting sacred places confronting danger expanding and deepening the experience of time of silence and of fragility *Romanticism, Rhetoric and the Search for the Sublime, 2nd Edition* Craig R. Smith, 2023-01-23 Relying on the author's established expertise in rhetoric and political communication this book re contextualizes Romantic rhetorical theory from the late 18th and early 19th centuries to provide a foundation for a Neo Romantic rhetorical theory for our own time In the process it uses a unique methodology to correct misconceptions about the rhetorical theories of many writers Using a dialectical approach the early chapters trace Romanticism through its opposition to the industrial revolution and the Enlightenment back through Humanism and its opposition to Scholasticism to its roots in St Augustine's writing These chapters include a revisionist analysis of the church's treatment of Galileo in the course of showing how difficult it was for scientific study to be accepted in Scholastic circles The study goes on to argue that Jean Jacques Rousseau David Hume and Edmund Burke were bridge figures to the Romantic Era This move throws new light on exemplary painters composers writers and orators of the Romantic Era who are examined in chapters eight and nine Chapter ten focuses on Percy Bysshe Shelley and his development of the rhetorical poem and thereby provides a new genre in the Romantic catalogue Chapter Eleven turns to the Romantic rhetorical theories of Hugh Blair and Thomas De Quincey to empower those seeking to save the environment The concluding chapter then synthesizes their theories with relevant contemporary rhetorical theories thereby constructing a Neo Romantic theory for our own time In the process the book links the Romantics love of nature to the current environmental crisis *History in Practice 2nd edition* Ludmilla Jordanova, 2016-07-28 Exploring the breadth and complexities of history as a field of study History in Practice demystifies what historians actually do and the tasks they take on This study written by one of the most acute practitioners in the field examines not only the academic discipline but also engages with the use of historical ideas in the wider world The new edition features A new chapter on history in the digital age covering the use of information technology in historical practice Extended coverage of the relationships between history and other disciplines Fresh material on current trends in the practice of history Over 35 new illustrations spread throughout the book drawn from around the world This book is essential reading for all students seeking an understanding of history as a discipline **The Pythley hunt, past and present, ed. by C. Edmonds** Henry Osmond Nethercote, 1888 [The Search for Biological Active Agent\(s\) From Actinobacteria, 2nd Edition](#) Learn-Han Lee, Kok-Gan Chan, Jem Stach, Elizabeth M. H. Wellington, Bey-Hing Goh, 2020-03-27 There is a large market demand for new drugs The existing chronic or common

ailments without cures development of new diseases with unknown causes and the widespread existence of antibiotic resistant pathogens have driven this field of research further by looking at all potential sources of natural products To date microbes have made a significant contribution to the health and well being of people globally The discoveries of useful metabolites produced by microbes have resulted in a significant proportion of pharmaceutical products in today's market Therefore the investigation and identification of bioactive compounds producing microbes is always of great interest to researchers Actinobacteria are one of the most important and efficient groups of natural metabolite producers Among the numerous genera Streptomyces have been recognized as prolific producers of useful natural compounds as they provide more than half of the naturally occurring antibiotics isolated to date and continue to emerge as the primary source of new bioactive compounds Certainly these potentials have attracted ample research interest and a wide range of biological activities have been subsequently screened by researchers with the utilization of different In vitro and In vivo model of experiments Literature evidence has shown that a significant number of interesting compounds produced by Actinobacteria were exhibiting either strong anticancer or neuroprotective activity The further in depth studies have then established the modulation of apoptotic pathway was involved in those observed bioactivities These findings indirectly prove the biopharmaceutical potential possessed by Actinobacteria and at the same time substantiate the importance of diverse pharmaceutical evaluations on Actinobacteria In fact many novel compounds discovered from Actinobacteria with strong potential in clinical applications have been developed into new drugs by pharmaceutical companies Together with the advancement in science and technology it is predicted that there would be an expedition in discoveries of new bioactive compounds producing Actinobacteria from various sources including soil and marine sources In light of these current needs and great interest in the scope of this research this book seeks to contribute on the investigation of different biological active compounds producing actinobacteria which are exhibiting antimicrobial antioxidant neuroprotective anticancer activities and similar
