## **Searching For An Adequate God:**

Searching for an Adequate God David Ray Griffin, 2000 In this book advocates of both process and free will theism come together for the first time to describe their respective theological perspectives and enter into constructive dialogue with each other Featuring two of today's best philosophers David R Griffin representing process theology and William Hasker representing free will theism as well as theologians interested in both views this volume provides a fully orb'd discussion of these two vital theological positions

**The Christian Faith** Michael Horton, 2011-01-04 Theology the study of God is a concern for every believer not just theologians or those in ministry It's the goal of good theology to humble us before the triune God of majesty as we come to understand him better This is a book of and about good theology Award winning author theologian and professor Michael Horton wrote The Christian Faith as a book of systematic theology and doctrine that can be preached experienced and lived as well as understood clarified and articulated It's written for a growing cast of pilgrims in ministry and laity who are interested in learning about Christ as a way of living as a Christian Who understand that knowing doctrine and walking in practical Christianity are not competing interests The Christian Faith is divided into six parts five of which each focus on an aspect of God while the first part sets up an understanding and appreciation for the task of theology itself addressing topics like The source of theology where the idea of theology comes from and what its limits are The origin of the canon how the modern Bible came about and why we can trust it The character of theology is the nature of theology practical theoretical or can it be both In a manner equally as welcoming to professors pastors students and armchair theologians Horton has organized this volume in a readable fashion that includes a variety of learning features A brief synopsis of biblical passages that inform certain doctrines Surveys of past and current theologies with contemporary emphasis on exegetical philosophical practical and theological questions Substantial interaction with various Christian movements within the Protestant Catholic and Orthodoxy traditions as well as the hermeneutical issues raised by postmodernity Charts sidebars questions for discussion and an extensive bibliography divided into different entry levels and topics At the heart of this book is a deep love for and curiosity about God Its basic argument is that a personal relationship with God goes hand in hand with the pursuit of theology It isn't possible to know God without studying him

**The Negro's Church** Benjamin E. Mays, 2015-08-04 Benjamin E Mays 1894 1984 was President and Professor Emeritus of Morehouse College

**Celebrating God's Cosmic Perichoresis** Bryan Jeongguk Lee, 2011-08-05 In the face of today's unprecedented ecological crisis Christianity is often seen not only as sharing in the guilt of causing this crisis but also as unwilling and incapable of providing any help in re-envisioning the required new way of life on earth This view is justified when we consider how modern Christian theology has tended to denigrate the natural world and how the prevalent world deserting Christian eschatology forms a spirituality that is fundamentally insensitive and indifferent to nature In light of this a meaningful Christian contribution to today's world of enormous ecological suffering must lie in envisioning a fundamentally

new ecological vision of humanity's relationship to nature as well as providing an ethical energy to transform our current path of self destruction In this book Bryan J Lee finds in Jürgen Moltmann's eschatological panentheism a viable pathway toward a Christian ecological re-envisioning of the relationship between God and humanity and between humanity and nature Furthermore Lee demonstrates in a persuasive way how Christian worship can and should be the epicenter of ecological transformation of the society emphatically interpreting Christian worship as an ecological eschatological anticipation of God's cosmic perichoresis

**Two Great Truths** David Ray Griffin, 2004-01-01 Furthering his contribution to the science and religion debate David Ray Griffin draws upon the cosmology of Alfred North Whitehead and proposes a radical synthesis between two worldviews sometimes thought wholly incompatible He argues that the traditions designated by the names scientific naturalism and Christian faith both embody a great truth a truth of universal validity and importance but that both of these truths have been distorted fueling the conflict between the visions of the scientific and Christian communities Griffin contends however that there is no inherent conflict between science or even the kind of naturalism that it properly presupposes and the Christian faith understood in terms of the primary doctrines of the Christian good news

**Eternal in Love** R. T. Mullins, 2024-08-27 Do you want to be close to God The answer to a question like this is wrapped up in knowing what God is like understanding the reasons for why God acts as he does and learning how to promote God's goals for creation In this short book readers will explore issues about the nature of God consider why God would create anything at all and why God would create this particular universe Through a mixture of devotional insight and philosophical analysis one will come to a better understanding of the majesty of God

**Most Moved Mover** Clark H. Pinnock, 2019-10-01 In 1994 Clark Pinnock along with four other scholars published *The Openness of God* which set out a new evangelical vision of God one centered on his open relational and responsive love for creation Since then the nature of God has been widely discussed throughout the evangelical community Now Pinnock returns with *Most Moved Mover* to once again counter the classical deterministic view of God and defend the relationality and openness of God This engaging defense of openness theology begins with an analysis of the current debate followed by an explanation of the misconceptions about openness theology and a delineation of areas of agreement between classical and openness theologians *Most Moved Mover* is for all evangelicals regardless of their viewpoint as it lays out the groundwork for future discussions of the open view of God

**Divine Control, Human Contingencies and the Problem of Evil** Aku Stephen Antombikums, 2025-06-11 This book investigates whether open theism provides a clear and viable response to the problem of evil To better understand open theism classical theism Molinism and process theism are also considered Responses to the problem of evil have traditionally revolved around God's goodness justice and power By contrast this book argues that in order to resolve or better understand the tension between divine sovereignty and human freedom the attributes of God have to be understood as a set Starting from this basis the book examines divine immutability eternity aseity omniscience omnipotence love and creation in order to make sense of the

problem of evil The nature of human freedom is also explored Divine Control Human Contingencies and the Problem of Evil is essential reading for all scholars and researchers of the philosophy of religion especially those focusing on the problem of evil

**Reformed Systematic Theology, Volume 1** Joel Beeke, Paul M. Smalley, 2019-03-14 The church needs good theology that engages the head heart and hands This four volume work combines rigorous historical and theological scholarship with application and practicality characterized by an accessible Reformed and experiential approach In this volume Joel R Beeke and Paul M Smalley explore the first two of eight central themes of theology revelation and God

Fifty Years of Philosophy of Religion Andries F. Sanders, Kristof De Ridder, 2007 The bibliography lists about 10 000 titles of monographs collections and articles in the field of the philosophy of religion and philosophical theology that appeared between 1955 and 2005 The majority of them are in the English language but publications in German Dutch and French are listed as well Though it is not claimed to be exhaustive the bibliography offers a fairly representative survey of scholarly work on the main topics of interest Publications have been systematically classified according to eleven main categories Introductions Surveys and Historical Issues Part I Religious Language Part II Religious Experience Part III Religious Epistemology Part IV Theism Part V Hermeneutics Part VI Religion and Science Part VII Religion and Aesthetics Part VIII Religion and Morality Part IX Religious Pluralism Part X and Feminist Philosophy of Religion Part XI Part III has been subdivided into Religious Experience and Mystical Experience Part VII into The Concept of God arguments for The Existence of God The Problem of Evil and Atheism and Part VII into General and Historical Issues Theological Issues and implications of Modern Physics Cosmology and Biology The bibliography will particularly be useful to scholars teachers and students in the philosophy of religion philosophical theology and systematic theology as well as to those who are interested professionally or otherwise in the results of academic scholarship in those fields

*Divine Love Theory* Adam Lloyd Johnson, 2023-03-14 What if the loving relationships of the Trinity are the ultimate objective source for living morally Adam Lloyd Johnson injects a fresh yet eternal reality into the thriving debate over the basis of moral absolutes While postmodernism's moral relativism once temporarily disrupted the footing of classic moral theories like natural law and divine command many nontheistic philosophers assert that morality must rest on something real and objective Divine Love Theory proposes a grounding for morality not only in the creator God but as revealed in the Christian Scriptures Father Son and Spirit eternally loving one another Johnson contends that the Trinity provides a remarkably convincing foundation for making moral judgments One leading atheistic proposal godless normative realism finds many deficiencies in theistic and Christian theories yet Johnson shows how godless normative realism is susceptible to similar errors He then demonstrates how the loving relationships of the Trinity as outlined in historic Christian theology resolve many of the weakest points in both theistic and atheistic moral theories Johnson leaves no stone unturned his research is exceptional and his topic and treatment of it are first rate I very strongly recommend this book J P Moreland distinguished professor of philosophy Talbot School of Theology Biola University

Divine Love Theory is an important and original contribution to the on going contemporary debate between theists and non theists over the foundations of morality It is a work that will be of interest to theologians and philosophers alike Erik Wielenberg professor of philosophy DePauw University Johnson s own proposal is a refreshing and insightful address that is often missed in the moral debate of mere theism Trinitarianism Divine Love Theory is at once more consistent with the largest theistic population Christians but also provides greater explanatory power over competitors theistic and atheistic alike Corey Miller President of Ratio Christi

**Latter-day Saint Theology among Christian Theologies** Grant Underwood,2025-03-13 How do the beliefs of Latter day Saints compare with traditional Christian theology Grant Underwood provides answers to this question that are clear detailed and thoughtful Writing for a broad and interested Christian audience he systematically brings Mormon thought into conversation with main currents of Christian theology He focuses on major topics that have engaged Christian thinkers over the years who God is who Jesus Christ is who we are how we are saved what the church is and what the future holds for human history as well as for individual human lives Most chapters follow a format in which relevant themes are introduced with an overview of significant Christian reflection on the topic followed by an exploration of Latter day Saint thought on the subject Throughout the book Underwood s goal is to analyze not catechize While the author is a practicing Latter day Saint that reality only enhances his appreciation for the theology produced by centuries of fellow Christians of faith who in Anselm s words have diligently and devoutly sought understanding Underwood seeks to facilitate mutual understanding among Christians who may worship differently who conceive of God and God s relations with humanity differently and who articulate their religious beliefs in terms and concepts that are unfamiliar to each other Readers of this book are invited to approach its sympathetic presentation of such Christian theologies including that of the Latter day Saints with an openness and curiosity that can lead to a more accurate nuanced understanding of the doctrines discussed

**A Classical Response to Relational Theism** Brian J. Orr,2022-02-17 The classical doctrine of God expresses that the God of the Bible is triune a se simple immutable impassible eternal and the sovereign Lord over his creation which he created from himself Modern streams of theology within the evangelical circle continue to promote a doctrine of God that sharply contrasts the classical view the traditional view of God in Christian theism Therefore a critical response to such a theology is needed This study is a comprehensive analysis and sustained critique of Thomas Jay Oord s open relational doctrine of God Oord s model substitutes process metaphysics for classical metaphysics while attempting to retain foundational Christian doctrines that were established within a classical metaphysical framework

**The Holy Spirit and the Christian Life** W. Vondey,2014-02-20 Twelve scholars from the biblical historical theological and philosophical disciplines engage in a conversation on the transforming work of the Holy Spirit in the Christian life The essays are held together by an enduring focus and concern to explore the relationship between the work of the Holy Spirit and Christian formation discipleship personal and social transformation The book points toward the integration of theory and

practice theology and spirituality and the mutual interest in fostering dialogue across disciplines and ecclesial traditions

**Science and Christianity** Tim Reddish, 2016-08-15 Too often conversations on Science and Christianity skate over much deeper assumptions or perceptions on the nature and interpretation of Scripture and the nature of science and of God Instead the rhetoric goes quickly towards contentious issues like evolution global warming or genetic engineering without establishing a framework of mutual understanding Consequently conversations can take place between people who completely misunderstand each other because those foundations have not been clearly articulated In this introductory book you are invited on a journey of discovery one that makes us self aware of our starting assumptions It is only from a framework of critical engagement with both science and the Bible that contemporary issues and the needs of the church and society can be addressed While the Creator is one who brings order this book also reminds us that untamed chaos also has a God ordained place within creation The author explores the element of chance that seems to be at the heart of nature and shows how this can be incorporated constructively within Christian thinking Nature is not mere mechanism and is more open than we might first think This means that miracles are scientifically plausible and prayer can really change things

**Discerning the Divine** Barry L. Callen, 2004-01-01 An ideal introduction to Christian theology Discerning the Divine presents the doctrine of God as the most important subject in Christian believing and living Chapters discuss the complex God question and the task of Christian theology Includes a glossary of terms *For Calvinism/Against Calvinism* ,

*From Divine Timemaker to Divine Watchmaker* R.T. Mullins, 2024-10-24 This book offers the most extensive exploration of divine temporality to date It focuses on five main questions First what is time Second how is God responsible for the existence of time Third what does it mean to say that God is temporal Fourth what kind of structure might God give to a time series Fifth what are the implications for theological doctrines such as the Trinity creation providence and life after death The author offers a deep critical engagement with the Christian tradition but also goes beyond to build analytic bridges to Jewish Islamic Hindu and Jainist philosophical theology The book provides an up to date discussion of issues within analytic metaphysics philosophy of time and philosophy of religion and draws on the resources of contemporary systematic historical and biblical theology *Who Rules the World* Hans Schwarz, 2021-03-30 Over a career spanning more than fifty years Hans Schwarz has grappled with nearly all of Christianity's major theological questions In this latest volume Schwarz tackles the perennial problem of evil How is it possible to reconcile the manifest evil and pain in the world with the biblical promise of hope and redemption Are we in fact lonely wanderers in the immensity of the universe about whom nobody cares or is there something above and beyond us in which we can trust To this perennial question Schwarz brings his signature blend of pastoral sensitivity and scholarly acumen Informed by decades in the classroom Schwarz offers a sweeping survey of views of the problem of evil beginning with the world's major religious traditions before focusing on the major views across the broad span of Christian history The book aims to help readers interested in the problem of evil understand the broad sweep of

human thought about the problem and make informed assessments of the issue for themselves      **Providence, Evil and the Openness of God** William Hasker, 2021-07-16 Providence Evil and the Openness of God is a timely exploration of the philosophical implications of the rapidly growing theological movement known as open theism or the openness of God William Hasker one of the philosophers prominently associated with this movement presents the strengths of this position in comparison with its main competitors Calvinism process theism and the theory of divine middle knowledge or Molinism The author develops alternative approaches to the problem of evil and to the problem of divine action in the world In particular he argues that believers should not maintain the view that each and every evil that occurs is permitted by God as a means to a greater good He contends that open theism makes possible an emphasis on the personalism of divine human interaction in a way that traditional views with their heavy emphasis on divine control cannot easily match The book concludes with a section of replies to critics in which many of the objections levelled against open theism are addressed
