Seas And Inland Journeys Landscape And Consciousness From Wordsworth To Roethke:

Seas and Inland Journeys James Applewhite, 1985-01 **Riverbank and Seashore in Nineteenth and Twentieth Century British Literature** Gillian Mary Hanson, 2005-11-17 The waters of river and sea represent a kind of freedom a liberty which as Iris Murdoch writes enables man to exist sanely without fear and to perceive what is real As settings in fiction the riverbank and seashore are rich in potential offering a sense of destiny and suggesting the possibility of self truth and self knowledge In British literature the rural costal setting shadowed by cliffs tugged by the constant movement of the sea becomes the site of revelation and generates the energy that brings characters to a new level of self awareness The river s embankments bridges and tunnels often mark specific stages of revelation and movement in plot Entrapment and isolation contingency and communication are themes that seem born of such settings This book examines the ways in which 21 modern and postmodern writers from Tennyson to Ted Hughes from Jane Austen to Jane Gardam have made use of the physical environment of riverbank and seashore in their work It considers how each author employs the physical settings in the service of plot and character development and how those settings are used to connect with some of the major intellectual concerns of the late 19th and 20th centuries Appendices offer significant quotations from the texts under discussion arranged according to the location they describe the rural river the urban river river into sea the rural shore and the urban shore

Elements Casey Clabough, 2002 Elements The Novels of James Dickey draws upon previously undiscussed manuscripts and notes to articulate Dickey s fictional vision as it appears in his three published novels while also examining his early unpublished fiction and post deliverance screenplays The book s thesis follows Dickey s philosophical and verbal theory for his published fiction the practice of merging illustrating the multifaceted and layered manner in which it functions encompassing protagonist and environment and reader and text Just as Ed Gentry Joel Cahill and Muldrow assume the essence of their respective environments the reader is subtly asked to become a part of the text while retaining cognitive independence to blend in the place your re in but with a mind to do something To the White Sea 273 Having explored the connective qualities of Dickey s published novels the book s final chapter turns to a summary of Dickey s unpublished and largely unknown fiction Discussing a novel manuscript four short stories three screenplays and five screenplay prospecti the chapter seeks to summarize these heretofore undiscussed works while also tracing their similarities with the published texts

Jacques Derrida (Routledge Revivals) William Schultz, Lewis L.B. Fried, 2016-06-17 First published in 1992 this book represents the first major attempt to compile a bibliography of Derrida s work and scholarship about his work It attempts to be comprehensive rather than selective listing primary and secondary works from the year of Derrida s Master s thesis in 1954 up until 1991 and is extensively annotated It arranges under article type a huge number of works from scholars across numerous fields reflecting the interdisciplinary and controversial nature of Deconstruction The substantial introduction and annotations also make this bibliography in part a critical guide and as such will make a highly useful reference tool for those

studying his philosophy **Southern Writers** Joseph M. Flora, Amber Vogel, 2006-06-21 This new edition of Southern Writers assumes its distinguished predecessor's place as the essential reference on literary artists of the American South. Broadly expanded and thoroughly revised, it boasts 604 entries, nearly double the earlier edition's, written by 264 scholars. For every figure, major and minor, from the venerable and canonical to the fresh and innovative, a biographical sketch and chronological list of published works provide comprehensive, concise, up-to-date information. Here, in one convenient source, are the South's novelists and short story writers, poets and dramatists, memoirists and essayists, journalists, scholars, and biographers from the colonial period to the twenty-first century. What constitutes a southern writer is always a matter for debate. Editors Joseph M. Flora and Amber Vogel have used a generous definition that turns on having a significant connection to the region in either a personal or literary sense. New to this volume are younger writers who have emerged in the quarter century since the dictionary's original publication, as well as older talents previously unknown or unacknowledged. For almost every writer found in the previous edition, a new biography has been commissioned. Drawn from the very best minds on southern literature and covering the full spectrum of its practitioners, Southern Writers is an indispensable reference book for anyone intrigued by the subject.

Rivermen Frederic S. Colwell, 1989-09-01 Rivermen examines the mythic context and psychological dimensions of the river and its source through an investigation of the recurring motifs associated with the source in classical and English literature: the heroic quest, the river journey, and the naiad or muse. Frederic Colwell focuses on the writings of those redoubtable rivermen, the English Romantic poets. He explores poems by Wordsworth, Coleridge, Keats, and Shelley, showing that the image of the river is used in their work as a compelling archetype and a metaphor for the nature and process of the creative impulse. From the preface: Unlike the rhythms of oceans, rivers have direction and a purposive flow. The river's will is always its own, not laid down by man, for whom the river passage demands a surrender to its will, its currents and eddies. To move with the flow is to course with time and change; to stand astride or view it from a height offers the prophetic stance by which we contemplate its entire passage, its past, present, and the brightening waters or rippling shoals ahead.
