Reshaping Opera Paola Trevisan, 2017-05-11 This title is a part of the series Schwung Critical Curating and Aesthetic Management for Art Business and Politics Conventional wisdom holds that the performing arts due to the economic nature of the sector are condemned to a state of permanent financial crisis However increasingly frequent information about the fiscal troubles of several opera houses has also led to questions about the soundness of the strategies adopted by these organizations and about the administrative abilities of their general managers The case narrated here La Fenice Venice's main opera theater represents a successful case in which still inside the borders of a subsidized cultural production a managerial turn led to substantial improvements in efficiency and productivity levels However the success of a case such as La Fenice in terms of bottom line fiscal indicators does not imply immunity to critiques The description and analysis of the case far from being presented as a best practice with any claim of generalization allows for a critical reflection on arts management starting from the tension between art and commerce discussed initially by the Frankfurt School Critiques not only challenge the dominant meaning of what is considered good and what is not they also contribute to the reshaping of a new social order Only by looking at the whole picture at both dominant and critical voices can we come to a greater understanding of current ideological stances in the arts world and contextualize them within existing discourses on art management studies and arts management

(De)mobilizing the Entrepreneurship

Discourse Frederic Bill, Anders W. Johansson, 2010-01-01 This book is a banquet for readers who are open to a broader menu of ideas and insights into the nature of entrepreneurship how it occurs and the circumstances by which it manifests itself By seeing the phenomenon of entrepreneurship in new and intriguing ways the authors in this book helped me re imagine the many different kinds of entrepreneurs that exist I m very impressed with the creativity and scope of this book and the cleverness of these scholars to bring so many delicious perspectives to the table A book that is challenging and enjoyable to read William B Gartner Clemson University US This unique and fascinating book takes a critical look at aspects of the prevalent entrepreneurship discourse and presents several substantive new theories prescribing what should be abandoned demobilization and what should be adopted or given a more central position mobilization The contributors contend that entrepreneurship is not only an economic matter that it is not a predominantly male gender issue and that it is not only done by heroes or extraordinary efforts but rather that it is as much a matter of ordinary routine activities They conclude that the entrepreneurship literature could greatly benefit from including the concepts of space and place that resistance to it is an important aspect of its success and that it is just as much about imitation as about creativity Finally they address the issue that what should be demobilized or mobilized in the entrepreneurship discourse might actually be the wrong question since entrepreneurship is arguably a way of life At the cutting edge of entrepreneurship research this thought provoking book will prove a stimulating read for entrepreneurship academics students and researchers in the fields of entrepreneurship and business and management
