Principles Of History And Other Writings In Philosophy Of History:

The Principles of History R. G. Collingwood, 1999-03-18 Published here for the first time is much of a final and long anticipated work on philosophy of history by the great Oxford philosopher and historian R G Collingwood 1889 1943 The original text of this uncompleted work has only recently been discovered It is accompanied by further shorter writings by Collingwood on historical knowledge and inquiry selected from previously unpublished manuscripts held at the Bodleian Library Oxford All these writings besides containing entirely new ideas discuss further many of the issues which Collingwood famously raised in *The Idea of History* and in his *Autobiography* The volume includes also two conclusions written by Collingwood for lectures which were eventually revised and published as *The Idea of Nature* but which have relevance also to his philosophy of history A lengthy editorial introduction sets these writings in their context and discusses philosophical questions to which they give rise The editors also consider why Collingwood left *The Principles of History* unfinished at his death and what significance should be attached to the fact that it contains no reference to the idea of historical understanding as re enactment This volume will be a landmark publication not just in Collingwood studies but in philosophy of history generally

The Principles of History William H. Dray, W. J. van der Dussen, 2001 The original text of this uncompleted work has only recently been discovered and is accompanied here by Collingwood's shorter writings on historical knowledge and inquiry Besides containing entirely new ideas these incredible writings discuss many of the issues which Collingwood famously raised in *The Idea of History* and in his *Autobiography* This book also includes a lengthy editorial introduction that puts Collingwood's writings in their context and discusses the philosophical questions they initiate from publisher description

England **History, Memory, and State-Sponsored Violence** Berber Bevernage, 2013-02-14 Modern historiography embraces the notion that time is irreversible implying that the past should be imagined as something absent or distant Victims of historical injustice however in contrast often claim that the past got stuck in the present and that it retains a haunting presence History Memory and State Sponsored Violence is centered around the provocative thesis that the way one deals with historical injustice and the ethics of history is strongly dependent on the way one conceives of historical time that the concept of time traditionally used by historians is structurally more compatible with the perpetrators than the victims point of view Demonstrating that the claim of victims about the continuing presence of the past should be taken seriously instead of being treated as merely metaphorical Berber Bevernage argues that a genuine understanding of the irrevocable past demands a radical break with modern historical discourse and the concept of time By embedding a profound philosophical reflection on the themes of historical time and historical discourse in a concrete series of case studies this project transcends the traditional divide between empirical historiography on the one hand and the so called theoretical approaches to history on the other It also breaks with the conventional analytical philosophy of history that has been dominant during the last decades raising a series of long neglected big questions about the historical condition questions about historical time the unity of history and the ontological status of present and past programmatically pleading for a new historical ethics

R. G. Collingwood: An Autobiography and Other Writings Robin George Collingwood, 2013-10 This volume presents a many faceted view of the great Oxford philosopher R G Collingwood At its centre is his Autobiography of 1939 a cult classic for its compelling story of his thought That work is accompanied here by previously unpublished writings by Collingwood and eleven specially written essays on aspects of his life and work *How Good an Historian Shall I Be?* Marnie Hughes-Warrington, 2012-02-28 R G Collingwood s name is familiar to historians and history educators around the world Few however have charted the depths of his reflections on what it means to be educated in history In this book Marnie Hughes Warrington begins with the facet of Collingwood s work best known to teachers re enactment and locates it in historically informed discussions on empathy imagination and history education Revealed are dynamic concepts of the a priori imagination and education that tend towards reflection on the presuppositions that shape our own and others forms of life

Collingwood's The Idea of History Peter

Johnson, 2012-12-27 The Idea of History is the best known work of the Oxford philosopher and historian RG Collingwood Published posthumously in 1946 it is in effect two books a historiography and a philosophy of history Students look to Collingwood for a history of thinking about history and to discover his ideas about the nature of historical understanding It is an indispensable text for historians and philosophers yet it is also highly challenging and many of Collingwood's innovations have been seriously misunderstood The primary focus of this book is on Collingwood's actual arguments especially the most radical of these with the aim of elucidating their construction and appraising them in the clearest possible way This guide is the ideal companion to Collingwood's classic text both for students coming to it for the first time and for those wishing to consider its arguments afresh It offers clear and concise accounts of the book's composition the intellectual context of Collingwood's ideas its central arguments concerning the nature of history and its reception and influence

A History of Modern Political Thought Gary K. Browning, 2016

How are we to understand past political thinkers Is it a matter simply of reading their texts again and again Do we have to relate past texts of political thought to the contexts in which ideas were composed and in which the aims of past thinkers were formulated Or should past political theories be deconstructed so as to uncover not what their authors maintain but what the texts reveal In this book theories of interpreting past political thinkers are examined and the interpretive methods of a range of theories are reviewed including those of Hegel Marx Oakeshott Collingwood the Cambridge School Foucault Derrida and Gadamer The application of these theories of interpretation to notable modern political theorists Machiavelli Hobbes Locke Rousseau Kant Hegel Marx Bentham Mill Nietzsche and Beauvoir is then used as a way of understanding modern political thought and of assessing interpretive theories of past political thought The result is a book which sees the history of modern political thought as more

than a procession of political theories but rather as a reflection on the meaning of past political thought and its interpretation. It provides a way of reading the history of modern political thought in which the question of interpretation matters both for understanding how we interpret the past but also for considering what it means to undertake political thinking.

Rethinking R.G. Collingwood Gary Browning, 2004-04-30 Rethinking R G Collingwood reviews Collingwood's thought via his own rethinking of Hegel. It establishes the revisionary character of Collingwood's defence of liberal civilization in theory and practice. Collingwood is seen as avoiding the pitfalls of Hegel's teleological historicism by developing an open and contestable reading of the rationality of liberal civilization which neither reduces practice to theory nor philosophy to history. The contemporary relevance of Collingwood's standpoint is demonstrated by comparing it with those of recent defenders and critics of liberalism: Rawls, Lyotard and MacIntyre.

Time and Tide David Pendery, 2024-10-16 The work introduces the topic of historical writing in fictional and non-fictional contexts, methodologies and approaches. The author analyses historiography and historical novels and shows how a confabulation is evident in these works and how these are transacting modes in a single paradigm. The book uses the theoretical construct of the Aesthetics Ethic. It looks at varied aesthetic contours in lived experience: a given social ethic, histories of sensibilities and what is termed a narrative ethic, and goes on to look at Narrative consciousness and historical experience. Living links with analysis comprising narrative consciousness, psychological concepts including subjectivity and objectivity and the importance of thought. The book also introduces a new theoretical model of historical truth apprehension. The examination of fictionalized history and historicized fiction examines aesthetic contours including point of view and the concept of becoming in fiction and history, heteroglossia and intertextuality, the conceptions of contingency, metaphor, modality and chaos and temporality and rhetoric. It concludes with thoughts and summaries to bring the whole work into focus.

History as Re-enactment William H. Dray, 1999 A central motif of R G Collingwood's philosophy of history is the idea that historical understanding requires a re-enactment of past experience. However, there have been sharp disagreements about the acceptability of this idea and even its meaning. This book aims to advance the critical discussion in three ways: by analysing the idea itself further, concentrating especially on the contrast which Collingwood drew between it and scientific understanding by exploring the limits of its applicability to what historians ordinarily consider their proper subject matter, and by clarifying the relationship between it and some other key Collingwoodian ideas such as the place of imagination in historical inquiry, the sense in which history deals with the individual, the essential perspectivity of historical judgement and the importance of narrative and periodization in historical thinking. Professor Dray defends Collingwood against a good deal of recent criticism while pointing to ways in which his position requires revision or development. *History as Re-enactment* draws upon a wide range of Collingwood's published writings and makes considerable use of his unpublished manuscripts. It is the most systematic study yet of this central doctrine of Collingwood's philosophy of history and will stand as a landmark in Collingwood studies. For many years William

Dray has been working at the task of retrieving Collingwood for contemporary philosophy. It is something of an event then to have this new work, the culmination of a lifetime of thought, appear in his retirement. As one would expect, it is a deeply considered book, lucidly written and scrupulously fair to all parties; a sound and serious philosophical commentary anyone interested in either Collingwood or the philosophy of history should consider joining the dialogue and will learn much in the process. Canadian Journal of History

History Man Fred Inglis, 2009-07-06 This is the first biography of the last and greatest British idealist philosopher R. G. Collingwood (1889-1943), a man who both thought and lived at full pitch. Best known today for his philosophies of history and art, Collingwood was also a historian, archaeologist, sailor, artist, and musician. A figure of enormous energy and ambition, he took as his subject nothing less than the whole of human endeavor, and he lived in the same way, seeking to experience the complete range of human passion. In this vivid and swiftly paced narrative, Fred Inglis tells the dramatic story of a remarkable life, from Collingwood's happy Lakeland childhood to his successes at Oxford, his archaeological digs as a renowned authority on Roman Britain, his solo sailing adventures in the English Channel, his long struggle with illness, and his sometimes turbulent romantic life. In a manner unheard of today, Collingwood attempted to gather all aspects of human thought into a single theory of practical experience, and he wrote sweeping accounts of history, art, science, politics, metaphysics, and archaeology, as well as a highly regarded autobiography. Above all, he dedicated his life to arguing that history, not science, is the only source of moral and political wisdom and self-knowledge. Linking the intellectual and personal sides of Collingwood's life and providing a rich history of his milieu, *History Man* also assesses Collingwood's influence on generations of scholars after his death and the renewed recognition of his importance and interest today.

Action as History Stein Helgeby, 2016-03-03 R. G. Collingwood's philosophy of history reflected his historical practices and his moral philosophy. Reflection on historical practice provided him with a theory of knowledge; his moral philosophy provided him with a theory of the object of history. This study shows how Collingwood's concepts of action and history developed together.

Truth, Time and History: A Philosophical Inquiry Sophie Botros, 2017-09-21 *Truth, Time and History* investigates the reality of the past by connecting arguments across areas which are conventionally discussed in isolation from each other. Breaking the impasse within the narrower analytic debate between Dummett's semantic anti-realists and the truth-value link realists as to whether the past exists independently of our methods of verification, the book argues through an examination of the puzzles concerning identity over time that only the present exists. Drawing on Lewis's analogy between times and possible worlds and work by Collingwood and Oakeshott and the continental philosopher Barthes, the author advances a wholly novel proposal as to how aspects of ersatz presentism may be combined with historical coherentism to uphold the legitimacy of discourse about the past. In highlighting the role of historians in the creation and construction of temporality, *Truth, Time and History* offers a convincing philosophical argument for the inherence of an unreal past in the real present.
