20 000 characters or more allowing for nuanced character development rich dialogue and psychological description
Circulated widely during the Ming the novellas had a significant impact on later erotic and scholarbeauty caizi jiaren novels
This particular group of novellas was of great importance in the development of Chinese fiction functioning as a transitional link between the classical tale to the vernacular novel By approaching these works through the lens of a cultural study Wang is able to explore the social functions of the novellas as well as their significance in the development of Chinese fiction in the Ming cultural context *Vicky Valentine's Erotic Adventures: Volumes 1 - 4 (Collection + Bonus Prequel)*

Russia Mass Media Directory A Study of Erotic Literature in England W. v. Murat, 2019-09-24 The present work fills a gap as it attempts to offer a history of erotic literature published in the United Kingdom The word Study in the title is perhaps a bit exaggerated as the material is largely taken from the now well known bibliographies by Pisanus Fraxi Henry Spencer Ashbee and quotations from the books themselves The time line is WW II Who was the author He may have been Charles Reginald Dawes 1879 1964 who is supposed to have written but not published a text of this or a similar title His profession or his activities are not known he once called himself a writer but library catalogues credit him only with two publications The Marquis de Sade Paris 1927 and Retif de la Bretonne London 1946 privately printed He may have been a popular writer under pseudonyms though Dawes owned a good erotica collection which he willed to the British Museum Library that would explain why the author of this Study if he was Dawes could quote freely from erotic texts which only few of his contemporaries would have had available The main merits of this book are that the author was thoroughly familiar with English and French erotic literature and that he put his material in chronological order and in context The editor added a number of references illustrations and indices of personal names and titles to facilitate navigation

The Erotic Life of Manuscripts Yii-Jan Lin, 2016 New Testament textual critics who used language to group texts into families and genealogies were not pioneering new approaches but rather borrowing the metaphors and methods of natural scientists Texts began to be classified into families tribes and nations and later were

racialized as African or Asian with distinguishable textual physiognomies and textual complexions These genealogies would later be traced to show the inheritance of corruptions and contamination through generations an understanding of textual diversity reflective of eighteenth and nineteenth century European anxieties over racial corruption and degeneration While these biological metaphors have been powerful tools for textual critics they also produce problematic understandings of textual purity and agency with the use of scientific discourse artificially separating the work of textual criticism from literary interpretation
