Theses on the Metaphors of Digital-Textual History Martin Paul Eve, 2024-07-16 Digital spaces are saturated with metaphor we have pages sites mice and windows Yet in the world of digital textuality these metaphors no longer function as we might expect Martin Paul Eve calls attention to the digital textual metaphors that condition our experience of digital space and traces their history as they interact with physical cultures Eve posits that digital textual metaphors move through three life phases Initially they are descriptive Then they encounter a moment of fracture or rupture Finally they go on to have a prescriptive life of their own that conditions future possibilities for our text environments even when the metaphors have become untethered from their original intent Why is whitespace white Was the digital page always a foregone conclusion Over a series of theses Eve addresses these and other questions in order to understand the moments

when digital textual metaphors break and to show us how it is that our textual softwares become locked into paradigms that no longer make sense Contributing to book history literary studies new media studies and material textual studies Theses on the Metaphors of Digital Textual History provides generative insights into the metaphors that define our digital worlds

The Work of Revision Hannah Sullivan,2013-01-01 Revision might seem to be an intrinsic part of good writing But Hannah Sullivan argues that we inherit our faith in the virtues of redrafting from early twentieth century modernism Closely examining changes made in manuscripts typescripts and proofs by T S Eliot Ezra Pound Ernest Hemingway James Joyce Virginia Woolf and others she shows how modernist approaches to rewriting shaped literary style and how the impulse to touch up alter and correct can sometimes go too far In the nineteenth century revision was thought to mar a composition s originality a prejudice cultivated especially by the Romantics who believed writing should be spontaneous and organic and that rewriting indicated a failure of inspiration Rejecting such views avant garde writers of the twentieth century devoted themselves to laborious acts of rewriting both before and after publishing their work The great pains undertaken in revision became a badge of honor for writers anxious to justify the value and difficulty of their work In turn many of the distinctive effects of modernist style ellipsis fragmentation parataxis were produced by zealous experimental acts of excision and addition The early twentieth century also saw the advent of the typewriter It proved the ideal tool for extensive multi stage revisions superior even to the word processor in fostering self scrutiny and rereading across multiple drafts Tracing how master stylists from Henry James to Allen Ginsberg have approached their craft The Work of Revision reveals how techniques developed in the service of avant garde experiment have become compositional orthodoxy
