cultures of sport and leisure in late Victorian society but also for considering the intersections between recreation and the politics of everyday life A social history of sport Canoe and Canvas is particularly concerned with how gender class and race shaped the social cultural and physical landscapes of the ACA encampments Although there was an ever expanding arena of opportunity for leisure and sport in the late nineteenth century as the example of the ACA makes clear not all were granted equal access Most of the members of the American Canoe Association and the majority of the campers at the annual encampments were white middle class men though white women were extended partial membership in 1882 and in 1883 they were permitted to camp on site Canoe and Canvas also reveals how Black Indigenous and working class people while obscured in the historical record were indispensable to the smooth functioning of these events through their labour *The Infrastructure of Play* Dennis R. Maslove, 1995-12-15 Major economic and social developments that will determine the context for tax reforms in the 1990s are the subject of this volume They include the globalization of markets free trade arrangements changing technology and production processes macro economic policies and conditions in Canada and population growth and changes in demographic structure **New York State in the 21st Century** Thomas A.
