Menopause Transitions and the Workplace Vanessa Beck, Jo Brewis, 2024-01-10 The symptoms of menopause transitions have profound implications for work and are in turn affected by work Despite this the topic is rarely discussed in management and organization studies Providing an overview of existing knowledge in the field of menopause in the workplace this collection re theorizes the management of human resources as it relates to the connections between gender age and the body in the workplace environment with an intersectional analysis Offering theoretical frameworks from experts as well as possible practical approaches that can be implemented in workplaces to support women transitioning through menopause this is a go to reference for academics and policy makers working in the field Menopause Lynnette Leidy Sievert, 2006-07-24 Menopause is a biological reality for all women in their forties and fifties Yet the way we think about the cessation of menstruation is influenced by a variety of factors Cultural and technological influences combine with biology to transform this universal phenomenon into an experience that varies considerably between cultures and individuals In this concise book Lynnette Leidy Sievert draws on her own case studies from Puebla Mexico and western Massachusetts as well as on comparative data from other studies in places such as Slovenia Paraguay and Hawaii to explore the different ways that women experience menopause around the world Sievert suggests that attempts by medical professionals to define the normal occurrence of menopause including its typical onset and symptoms may not be realistic when considering how lifestyle nutrition and workload can contribute to diverging realities She explores how women feel about hysterectomies chemotherapy and other medical procedures and treatments that stop menstruation prematurely She also considers recent

worry about losing our looks our health our jobs our self esteem and being supplanted in work and love by younger people It feels like the natural inevitable consequence of the passing years But what if it's not What if nearly everything that we think of as the natural process of aging is anything but In *Agewise* renowned cultural critic Margaret Morganroth Gullette reveals that much of what we dread about aging is actually the result of ageism which we can and should battle as strongly as we do racism sexism and other forms of bigotry Drawing on provocative and under reported evidence from biomedicine literature economics and personal stories Gullette probes the ageism that drives discontent with our bodies our selves and our accomplishments and makes us easy prey for marketers who want to sell us an illusory vision of youthful perfection Even worse rampant ageism causes society to discount and at times completely discard the wisdom and experience acquired by people over the course of adulthood The costs both collective and personal of this culture of decline are almost incalculable diminishing our workforce robbing younger people of hope for a decent later life and eroding the satisfactions and sense of productivity that should animate our later years Once we open our eyes to the pervasiveness of ageism however we can begin to fight it and Gullette lays out ambitious plans for the whole life course from teaching children anti ageism to fortifying the social safety nets and thus finally making possible the real pleasures and opportunities promised by the new longevity A

bracing controversial call to arms Agewise will surprise enlighten and perhaps most important bring hope to readers of all ages

Love for Sale Colleen Lucey, 2021-09-15 Love for Sale is the first study to examine the ubiquity of commercial sex in Russian literary and artistic production from the nineteenth century through the fin de si cle Colleen Lucey offers a compelling account of how the figure of the sex worker captivated the public s imagination through depictions in fiction and fine art bringing to light how imperial Russians grappled with the issue of sexual commerce Studying a wide range of media

from little known engravings that circulated in newspapers to works of canonical fiction Lucey shows how writers and artists used the topic of prostitution both to comment on women's shifting social roles at the end of tsarist rule and to express anxieties about the incursion of capitalist transactions in relations of the heart Each of the book's chapters focus on a type of commercial sex looking at how the street walker brothel worker demimondaine kept woman impoverished bride and madam traded in sex as a means to acquire capital Lucey argues that prostitution became a focal point for imperial Russians because it signaled both the promises of modernity and the anxieties associated with Westernization Love for Sale integrates historical analysis literary criticism and feminist theory and conveys how nineteenth century beliefs about the fallen woman drew from medical judicial and religious discourse on female sexuality Lucey invites readers to draw a connection between rhetoric of the nineteenth century and today's debate on sex workers rights highlighting recent controversies concerning Russian sex workers to show how imperial discourse is recycled in the twenty first century *Queer Aging in North*

American Fiction Linda M. Hess, 2019-01-24 Exploring representations of queer aging in North American fiction this book illuminates a rich yet previously unheeded intersection within American culture At a time when older LGBTQ persons gradually gain visibility in gerontological studies and in the media this work provides a critical perspective concerned with the ways in which the narratives and images we have at our disposal shape our realities Each chapter shines a spotlight on a significant work of queer fiction beginning with post WWII novels and ending with filmic representations of the 2010s exploring narratives as both reflections and agents of broader cultural negotiations concerning queer sexuality and aging As a result the book not only redresses queer aging's history of invisibility but also reveals narratives of queer aging to be particularly apt in casting new light on the ways in which growing older is perceived and conceptualized in North American culture **Japan's Imperial Underworlds** David R. Ambaras, 2018-08-09 This major new study uses vivid accounts of

encounters between Chinese and Japanese people living at the margins of empire to elucidate Sino Japanese relations in the nineteenth and early twentieth centuries Each chapter explores mobility in East Asia through the histories of often ignored categories of people including trafficked children peddlers abducted women and a female pirate These stories reveal the shared experiences of the border populations of Japan and China and show how they fundamentally shaped the territorial boundaries that defined Japan's imperial world and continue to inform present day views of China From Meiji era treaty ports to the Taiwan Strait South China and French Indochina the movements of people in marginal locations not only destabilized the state's policing of geographical borders and social boundaries but also stimulated fantasies of furthering imperial power
