*Greek Art and Aesthetics in the Fourth Century B.C.* William A. P. Childs, 2018-04-10 Greek Art and Aesthetics in the Fourth Century B C analyzes the broad character of art produced during this period providing in depth analysis of and commentary on many of its most notable examples of sculpture and painting Taking into consideration developments in style and subject matter and elucidating political religious and intellectual context William A P Childs argues that Greek art in this era was a natural outgrowth of the high classical period and focused on developing the rudiments of

individual expression that became the hallmark of the classical in the fifth century As Childs shows in many respects the art of this period corresponds with the philosophical inquiry by Plato and his contemporaries into the nature of art and speaks to the contemporaneous sense of insecurity and renewed religious devotion Delving into formal and iconographic developments in sculpture and painting Childs examines how the sensitive expressive quality of these works seamlessly links the classical and Hellenistic periods with no appreciable rupture in the continuous exploration of the human condition Another overarching theme concerns the nature of style as a concept of expression an issue that becomes more important given the increasingly multiple styles and functions of fourth century Greek art Childs also shows how the color and form of works suggested the unseen and revealed the profound character of individuals and the physical world *Lost Constellations: The Art of Tara McPherson Vol. 2* Tara McPherson, 2015-02-25 Loss love and loneliness Altered forms and transfigured ideas Power and vulnerability Parallel universes of the heart and mind Space and time In a few brief years the stunning visual oeuvre of Tara McPherson has grown and evolved at thrilling speed Expanding beyond the limits of rock poster art into the worlds of commercial illustration and fine art her paintings drawings toys sculptures and installations have pushed her influence and authority across the breadth of creative expression and helped redefine the boundaries of pop surrealism *Lost Constellations The Art of Tara McPherson Volume 2* is the compelling road map to the artist s most recent and ambitious journeys in paint pencil and sculpture **African Sculpture from the Tara Collection** William Buller Fagg, University of Notre Dame.
