XTREME MODELLING 18 EN , **AK299 REAL COLORS OF WWII** , **SdKfz 251 Half-Track 1939-45** Bruce Culver,2012-07-20 Following in the best traditions of German ingenuity in design and construction of armoured vehicles the SdKfz 251 firmly realised the concept of a competent cross country tactical vehicle for armoured infantry units So successful was this half track that not only did a modified version of it remain in use with Czech forces well into the 1980s but also ironically the armoured infantry tactics that the Germans pioneered with it were adopted by Allied forces in the Second World War and helped them to achieve the eventual defeat of Germany This book covers the genesis and development of the SdKfz 251 and details the numerous modifications and variations that sprang from combat experience **XTREME MODELLING 18 ES** , **Technical Manuals for German Vehicles, Volume 2, Sonderkraftfahrzeug** Charles Lemons,2013-03-25 This book contains a listings of technical manuals for the repair and maintenance of German World War II armored vehicles Each vehicle is listed by its Sd Kfz number followed by a list of the known manuals which you would require to repair and maintain both the vehicle and the equipment it would carry including radios weapons and other equipment This not only includes the military manuals but also pamphlets announcements and any civilian company manuals used to maintain on board equipment Manuals include those published for the Heer and Luftwaffe All manual titles have been translated into American English **Italian Armour in German Service, 1943-1945** Daniele Guglielmi,2005 **XTREME MODELLING 7 ES** , **Pakwagen SDKFZ 234/3 and 234/4 Heavy Armoured Cars** Dennis Oliver,2022-10-24 squeezes a lot of useful information into a modest 64 pages and is a useful addition to any library of German armored cars War Wheels Experience in the Polish and French campaigns had convinced the German high command of the value of fast moving armed reconnaissance vehicles But it was realised that many of the early designs were too lightly armed and development of a heavy eight wheeled prototype resulted in the Sdkfz 234 series of armored cars the first of which entered service in late 1943 Built by the firm of B ssing NAG these sturdy and reliable vehicles were gradually up armed and served in the infantry support role and eventually as tank killers largely as the result of Hitler s desperation to arm as many vehicles as possible with anti tank weapons Drawing on official documentation and unit histories Dennis investigates the formations that operated these vehicles and uses archive photos and extensively researched color illustrations to examine the markings camouflage and technical aspects of the Sdkfz 234 2 234 3 and 234 4 armored cars that served on the Western and Eastern Fronts in the last months of the war A key section of his book displays available model kits and aftermarket products complemented by a gallery of beautifully constructed and painted models in various scales Technical details as well as modifications introduced during production and in the field are also examined providing everything the modeller needs to recreate an accurate representation of these historic vehicles **Armored Strike Force** Charles C.
