Sea Drift Rafting Adventures In The Wake Of Kon Tiki:

Sea Drift Peter Joseph Capelotti, 2001 Heyerdahl's radical thesis of a prehistoric world where ancient mariners traveled between continents on ocean currents electrified the postwar world His *Kon Tiki Across the Pacific by Raft* sold twenty million copies in sixty five languages *Voyage of the Manteno* John Haslett, 2006-11-28 A modern day adventurer describes how he constructed a raft with the help of an indigenous people and embarked on a difficult and dangerous voyage around the Pacific in an effort to uncover the secrets of an ancient seafaring culture Entangled Worlds Daniel G. König, Akira Iriye, Jürgen Osterhammel, 2025-03-04 Far from a stagnant Middle Ages the years 600-1350 witnessed globalization and social innovation *Entangled Worlds* explores long distance trade in the Americas cosmopolitan effects of Islamic and Mongol expansion the spread of monotheist and Sinitic models of sociocultural organization and the birth of settled political order in South Asia Ancient Ocean Crossings Stephen C. Jett, 2017-06-06 Paints a compelling picture of impressive pre-Columbian cultures and Old World civilizations that contrary to many prevailing notions were not isolated from one another In *Ancient Ocean Crossings: Reconsidering the Case for Contacts with the Pre-Columbian Americas* Stephen Jett encourages readers to reevaluate the common belief that there was no significant interchange between the chiefdoms and civilizations of Eurasia and Africa and peoples who occupied the alleged terra incognita beyond the great oceans More than a hundred centuries separate the time that Ice Age hunters are conventionally thought to have crossed a land bridge from Asia into North America and the arrival of Columbus in the Bahamas in 1492 Traditional belief has long held that earth's two hemispheres were essentially cut off from one another as a result of the post-Pleistocene meltwater fed rising oceans that covered that bridge The oceans along with arctic climates and daunting terrestrial distances formed impermeable barriers to interhemispheric communication This viewpoint implies that the cultures of the Old World and those of the Americas developed independently Drawing on abundant and concrete evidence to support his theory for significant pre-Columbian contacts Jett suggests that many ancient peoples had both the seafaring capabilities and the motives to cross the oceans and in fact did so repeatedly and with great impact His deep and broad work synthesizes information and ideas from archaeology geography linguistics climatology oceanography ethnobotany genetics medicine and the history of navigation and seafaring making an innovative and persuasive multidisciplinary case for a new understanding of human societies and their diffuse but interconnected development **Seaworthy** T. R. Pearson, 2007-06-26 An adventure filled wry and often hilarious account of the adventures of William Willis a man who rafted across the Pacific in his 60s and again in his 70s is complemented by the stories of various other crazy rafters of the 1950s and 1960s *Going Places* Robert Burgin, 2013-01-08 Successfully navigate the rich world of travel narratives and identify fiction and nonfiction read-alikes with this detailed and expertly constructed guide Just as savvy travelers make use of guidebooks to help navigate the hundreds of countries around the globe smart librarians need a guidebook that makes sense of the world of travel narratives *Going Places: A Reader's Guide to*

Travel Narratives meets that demand helping librarians assist patrons in finding the nonfiction books that most interest them. It will also serve to help users better understand the genre and their own reading interests. The book examines the subgenres of the travel narrative genre in its seven chapters, categorizing and describing approximately 600 titles according to genres and broad reading interests and identifying hundreds of other fiction and nonfiction titles as read-alikes and related reads by shared key topics. The author has also identified award-winning titles and spotlighted further resources on travel lit, making this work an ideal guide for readers, advisors, as well as a book general readers will enjoy browsing.

8 Men and a Duck Nick Thorpe, 2007-11-01. *8 Men and a Duck* charts the hilarious and unnerving Pacific voyage as it rolls between waves of high drama and high farce from the five-day launch off a Chilean beach to the bungled phone call that triggered a naval rescue alert to the sad fate of Pedro the duck to the constant race against the inexorable sinking of the soggy hull. On a fateful South American bus trip, journalist Nick Thorpe overheard some fellow passengers discussing an improbable plan to sail 2,500 miles from northern Chile to Easter Island on the *Viracocha*, a boat made of reeds. The crew's aim in reviving this pre-Incan boat-building technology was twofold: to reopen the controversial migration theories of Thor Heyerdahl, who sailed his boat the *Kon Tiki* from Peru to Polynesia in 1947, and to have one heck of an adventure in the process. Thorpe talked his way on board Captain Phil Buck's *Viracocha* only to find himself plagued by uncertainty. Why did the crew include a tree surgeon, a jewelry salesman, and two ducks? What happened to the navigator? Did anybody actually know how to sail? And most important, where was the life raft? Despite the best efforts of storms and sharks and fast-moving freighters, an alarming lack of sailing qualifications, and a rival explorer dogging the adventure at every turn, the crew members of the *Viracocha* lived to tell their extraordinary tale right through to its wickedly unexpected conclusion. Nick Thorpe's account is by turns funny, touching, and thrilling, a story of friendship, fate, and the unlikely distances people will go for real adventure.

Adventures in

Archaeology P.J. Capelotti, 2018-09-12. Remnants of the curious and peculiar ways humankind has marked the archaeological landscape are abundant but often ignored: wrecked aircraft, abandoned airfields, old highway billboards, derelict boats, movie props, and deserted mining operations. In this book, archaeologist P.J. Capelotti explores places and things that people do not typically think of as archaeological sites and artifacts, introducing readers to the most extreme fieldwork taking place today. Capelotti shows that even seemingly ordinary objects from the recent past hold secrets about the cultural history of humans. He investigates the site where a stunt copy of the *Orca*, the fishing boat used in the movie *Jaws*, was stripped to pieces by fans, a revelation of the ways humans relate to popular culture. He takes readers to abandoned base camps near the North Pole that are now used as destinations for Arctic tourism. Retelling the story of Thor Heyerdahl's research expedition across the Pacific Ocean on a balsa log raft, Capelotti shows how experimental archaeology attempts to reveal cultural connections between continents. And he doesn't stop at the limits of the planet. He discusses debris floating through outer space and equipment left behind on the surface of the moon, highlighting current efforts to preserve artifacts.

that exist beyond the Earth's atmosphere. These discarded materials, says Capelotti, help archaeologists piece together the sweeping story of human cultural expansion and exploitation. He explains how the unusual sites of shorelines, sea, air, and space represent the farthest reaches of human civilization. His enthusiasm will inspire readers to set out on their own to investigate the secret meanings of treasures hiding in plain sight.

A Collection of Insights Flowing from The Book of Mormon Keith Thompson, 2023-11-25. This collection of insights about the Book of Mormon adds to and complements the author's legal publications about freedom of conscience, evidence, and comparative constitutional law. The book includes insights distilled from contemporary anthropology, careful analysis of the doctrine of resurrection taught in the Book of Mormon, philosophical questions about the rule of law which inform life in contemporary society, and how reflection on the pervasive New Testament intertextuality in the Book of Mormon should increase the knowledge of modern readers. Important reading for scholars of religion and faith, and particularly those interested in understanding the beliefs and practices of members of The Church of Jesus Christ of Latter-day Saints around the world.

Interpreter: A Journal of Mormon Scripture, Volume 8 (2014) The Interpreter Foundation, 2014-03-29. Lehi and Sariah in Arabia Warren P. Aston, 2015-12-10. A 21st Century re-examination of the most read book to emerge from the Western Hemisphere, the Book of Mormon. As Mormonism grows into a world faith, the veracity of its founding scripture has never been more important. The three decades of Arabian exploration reported in *Lehi and Sariah in Arabia* identifies specific locations for the 8-year journey described in the text, allowing Nephi's account to emerge with new clarity and enhanced plausibility.

Nautilus: a modern sequel to 20,000 Leagues Under the Sea P.J. Capelotti, 2009-03-29. In the summer of 2021, Norwegian explorer Bjorn Larsen and Italian archaeologist Paolo Serengetti are completing a wide-ranging archaeological survey along the north coast of the Norwegian Arctic archipelago of Svalbard on board the research vessel *Polar Quest*. The objective of their expedition is to locate any surviving evidence of the disastrous 1928 Italia dirigible expedition to the North Pole. But instead of finding the lost airship in a remote fjord of the archipelago, they stumble instead upon a previously unknown shipwreck. As the identity of their

discovery becomes apparent so too does its magnitude a submarine that appears to be the same Nautilus described by Jules Verne in the novel 20 000 Leagues Under the Sea It soon becomes evident to Serengetti and Larsen that Verne s famous novel was not a dramatic imaginative science fiction story but a fictionalized account of an undersea voyage that actually took place in 1867 A Hero for the Atomic Age Axel Andersson,2010 Nomination for Best Foreign Film at the 2013 Academy Awards In English and many other languages the name Kon Tiki has become a byword for adventure and the exotic The journey of the Kon Tiki from Peru to Polynesia in 1947 became one of the founding myths of the postwar world In the voyage of six Scandinavians and a parrot on a balsa raft across the Pacific Ocean the classic journey of discovery was re invented for generations to come Kon Tiki spoke of heroism masculinity free spirited rebellion against scientific dogmatism and the promise of an attainable exotic world while it updated these mythological staples to fit the times After years of relentless media exploitation of the 101 day raft journey Heyerdahl emerged as the protagonist in a legend that helped to create a new postwar West A Hero for the Atomic Age tells the story of how Heyerdahl organized an expedition to sail a balsa raft from Callao in Peru to the Tuamotu Islands in French Polynesia and explains how he turned this physical crossing into an epic narrative that became imbued with a universal appeal The book also addresses for the first time the problematic nature of Heyerdahl s theory that a white culture bearing race had initiated all the world s great civilizations Antiquity Osbert Guy Stanhope Crawford,2001 Includes section Reviews **100 Тихих Дней.
