Sea Trials:

The Law of Shipbuilding Contracts Simon Curtis, 2014-04-03 This is the leading text on shipbuilding and marine construction already widely used on a global basis by shipowners shipbuilders and their commercial and legal advisers It is now ten years since the last edition and much has changed in the world of shipbuilding since then particularly in the period since 2008 which has seen numerous attempts by owners to renegotiate the prices and or delivery dates of tonnage and an enormous increase in the level of vessel rejection and cancellation disputes The Law of Shipbuilding Contracts examines the principles of English contract law as these apply to shipbuilding This edition comments in detail upon the Shipbuilders Association of Japan Form but now contrasts this with the NEWBUILDCON from BIMCO in 2007 and the China Maritime Arbitration Commission Forms from 2011 where these are significantly different It also includes sections dealing with agreements ancillary to the shipbuilding contract and conversion contracts Overview of book Since the last edition in 2002 China has become a major global exporter of newbuildings and new BIMCO shipbuilding contract form has been published Although retaining the original format of commentary on the Japanese SAJ standard form shipbuilding contract the new edition contrasts this with the BIMCO form and the recently published China Maritime Arbitration Commission CMAC form in order to provide a broad ranging analysis of this complex subject The book details the principles of English contract law as these apply to international shipbuilding It will as in the previous editions also include sections dealing with the guarantees and other agreements which support the shipbuilding contract and with ship conversion contracts Essential reading for Purchasers and charterers of newbuilding tonnage Shipbuilders and offshore construction yards Lawyers and insurers working in the maritime and offshore oil and gas sectors Banks and other finance providers **MARAD** United States.

Maritime Administration, 2001 **Refund Guarantees** Mark Davis, 2015-05-22 A refund guarantee is an essential component of almost every shipbuilding project without which the buyer will be unwilling or unable to proceed There is no standard form of refund guarantee in universal usage and both the form and substance of refund guarantee instruments vary widely from case to case The ambiguity or uncertainty of the meaning of refund guarantee instruments against a backdrop of a sharp downturn in the shipping markets has led to numerous disputes in recent years concerning refund guarantees which have been the subject of a number of important decisions of the English Courts This is the first English law text book dedicated to the subject of refund guarantees It provides essential guidance as to the issues arising and the pitfalls to be avoided It analyses the specimen form of guarantee annexed to Bimco's NEWBUILDCON form and covers topics such as the circumstances in which the liability of the guarantor may be discharged and when a builder may be entitled to obtain an injunction to restrain payment under a refund guarantee It will be an essential and practical guide for those engaged in the shipbuilding industry including shipbuilders shipowners banks and insurance companies P I clubs and those advising them
