Stephen Innes

Seafaring In Colonial Massachusetts:

Seafaring in Colonial Massachusetts Philip C. Smith, 1981-01-01 Colonial Society of Massachusetts, 1980 **Seafaring in Colonial Massachusetts** Colonial Society of Massachusetts, **New England and the Maritime Provinces** Stephen John Hornsby, John G. Reid, 2005 A wide reaching inter disciplinary examination of the links between New England and the Maritimes *The New England Mariner Tradition: Old Salts, Superstitions, Shanties and Shipwrecks* Robert A. Geake, 2013-10-22 For over three centuries New Englanders have set sail in search of fortune and adventure yet death lurked on every voyage in the form of storms privateers disease and human error In hope of being spared by the sea superstitious mariners practiced cautionary rituals During the winter of 1779 the crew aboard the Family Trader offered up gin to appease the squalling storms of Neptune In the 1800s after nearly fifty shipwrecks on Georges Bank between Cape Cod Massachusetts and Nova Scotia a wizard paced the coast of Marblehead shouting orders out to sea to guide passing ships to safety As early as 1705 courageous settlers erected watch houses and lighted beacons at Beavertail Point outside Jamestown Rhode Island to aid mariners caught in the swells of Narragansett Bay Join Robert A Geake as he explores the forgotten traditions among New England mariners and their lives on land and sea

Historical Dictionary of New England Peter C. Holloran, 2017-05-01 New England the most clearly defined region in the United States includes the six states of Connecticut Maine Massachusetts New Hampshire Rhode Island and Vermont First colonized by the French in 1604 and the British in 1607 the New England colonies were the first to secede from the British Empire and were among the first states admitted to the union No region has claimed more presidents as native sons seven or produced more men and women of exceptional accomplishment and fame Many Americans see New England as a touchstone for the founding ideas of the nation and the region served as a source of inspiration for many artists and writers This second edition of Historical Dictionary of New England contains a chronology an introduction appendix and an extensive bibliography The dictionary section has over 700 cross referenced entries on important personalities places institutions and events This book is an excellent resource for students researchers and anyone wanting to know more about New England

The Cape Cod Canal: Breaking Through the Bared and Bended Arm J. North Conway, 2008-03-01 The history of Cape Cod including the creation of the iconic New England landmark The Cape Cod Canal The cradle of New England s shipping doubled as its casket earning the sailing route around Cape Cod the nickname of graveyard of the Atlantic J North Conway plunges into the character of Cape Cod from its discovery to its chowder and of the man who managed to cut a path through it **In the Eye of All Trade** Michael J. Jarvis, 2012-12-01 In an exploration of the oceanic connections of the Atlantic world Michael J Jarvis recovers a mariner s view of early America as seen through the eyes of Bermuda s seafarers The first social history of eighteenth century Bermuda this book profiles how one especially intensive maritime community capitalized on its position in the eye of all trade Jarvis takes readers aboard small Bermudian sloops and follows white and

enslaved sailors as they shuttled cargoes between ports raked salt harvested timber salvaged shipwrecks hunted whales captured prizes and smuggled contraband in an expansive maritime sphere spanning Great Britain's North American and Caribbean colonies In doing so he shows how humble sailors and seafaring slaves operating small family owned vessels were significant but underappreciated agents of Atlantic integration The American Revolution starkly revealed the extent of British America's integration before 1775 as it shattered interregional links that Bermudians had helped to forge Reliant on North America for food and customers Bermudians faced disaster at the conflict's start A bold act of treason enabled islanders to continue trade with their rebellious neighbors and helped them to survive and even prosper in an Atlantic world at war Ultimately however the creation of the United States ended Bermuda's economic independence and doomed the island's maritime economy

Creating the Commonwealth Stephen Innes, 1995 Describes how the Puritan culture of New England gave rise to capitalism and recounts how the small colony developed an international economy

Surveyors of Empire Stephen John Hornsby, Hope Stege, 2011 British imperial power was greatly bolstered by new techniques in surveying and map making during the eighteenth century Well before James Cook sailed for the Pacific in 1768 British army engineers working on the coastline from Quebec to Rhode Island had set new scientific standards for cartography that would assist the British in mapping future conquests Surveyors of Empire explores the groundbreaking work of these engineers which formed the basis of The Atlantic Neptune a four volume hydrographic atlas that stands as a monument of European Enlightenment science Using research from both sides of the Atlantic Stephen Hornsby examines the development of British military cartography in North America during and after the Seven Years War as well as advancements in military and scientific equipment used in surveying At the same time he follows the land speculation of two leading surveyors Samuel Holland and J F W Des Barres and the publication history of The Atlantic Neptune Richly illustrated with images from The Atlantic Neptune and earlier maps Surveyors of Empire is an insightful account of the relationship between science and imperialism and the British shaping of the Atlantic world

Early American Cartographies Martin Brückner, 2011 Drawing from both current historical interpretations and new interdisciplinary perspectives this collection provides diverse approaches to understanding the multilayered exchanges that went into creating cartographic knowledge in and about the Americas In the introduction editor Martin Brückner provides a critical assessment of the concept of cartography and of the historiography of maps The individual essays then range widely over space and place from the imperial reach of Iberian and British cartography to indigenous conceptualizations including dirty ephemeral maps and star charts to demonstrate that pre nineteenth century American cartography was at once a multiform and multicultural affair The essays also bring to light original archives and innovative methodologies for investigating spatial relations among peoples in the Western Hemisphere from the publisher

Historic Cultural Land Use Study of Lower Cape Cod Richard D. Holmes, 1998

Dictionary of Cape Breton English William John Davey, Richard P. MacKinnon, 2016-10-27 Biff and whiff baker's fog and lusknikn pie social and

milling frolic these are just a few examples of the distinctive language of Cape Breton Island where a puck is a forceful blow and a Cape Breton pork pie is filled with dates not pork The first regional dictionary devoted to the island s linguistic and cultural history the Dictionary of Cape Breton English is a fascinating record of the island s rich vocabulary Dictionary entries include supporting quotations culled from the editors extensive interviews with Cape Bretoners and considerable study of regional variation as well as definitions selected pronunciations parts of speech variant forms related words sources and notes giving the reader in depth information on every aspect of Cape Breton culture A substantial and long awaited work of linguistic research that captures Cape Breton s social economic and cultural life through the island s language the

Dictionary of Cape Breton English can be read with interest by Backlanders Bay byes and those from away alike **Cape Breton at 200** Kenneth Joseph Donovan,1985 **The Idea of Europe and the Origins of the American Revolution** D.

H. Robinson,2020-09-02 In The Idea of Europe and the Origins of the American Revolution Dan Robinson presents a new history of politics in colonial America and the imperial crisis tracing how ideas of Europe and Europeanness shaped British American political culture Reconstructing colonial debates about the European states system European civilisation and Britain s position within both Robinson shows how these concerns informed colonial attitudes towards American identity and America s place inside and ultimately outside the emerging British Empire Taking in more than two centuries of Atlantic history he explores the way in which colonists inherited and adapted Anglo British traditions of thinking about international politics how they navigated imperial politics during the European wars of 1740 1763 and how the burgeoning patriot movement negotiated the dual crisis of Europe and Empire in the between 1763 and 1775 In the process Robinson sheds new light on the development of public politics in colonial America the Anglicisation Americanisation debate the political economy of empire early American art and poetry eighteenth century geopolitical thinking and the relationship between international affairs nationalism and revolution What emerges from this story is an American Revolution that seems both decidedly arcane and strikingly relevant to the political challenges of the twenty first century **Historical Dictionary of the U.S.**

Maritime Industry Kenneth J. Blume,2011-12-22 From the Spanish galleons of the 16th century to the cruise ships and crude oil tankers of the 21st maritime industries have been central to American economic political and cultural life Great American fortunes were built in the maritime industries and the workers in that industry both the sailors on board the ships and the dockworkers at the port contributed significantly to the nation s growing economy The development of interior waterways especially the canal system paved the way for a transformation of inland North America In the Historical Dictionary of the U S Maritime Industry author Kenneth J Blume provides a convenient survey of this important industry from the colonial period to the present day from sail to steam to nuclear power This concise new reference work captures the key features of overseas coastal lake and river shipping and industry An introduction provides an overview of the industry while the dictionary itself contains more than four hundred cross referenced entries on ships shipping companies famous

personalities and major ports A number of appendixes including statistics on foreign trade maritime disasters famous ships and major ports supplement the dictionary and a comprehensive bibliography leads the researcher to further sources This book is an excellent access point for students researchers and anyone wanting to know more about the maritime industry in the United States

Cape Bretoniana Beaton Institute of Cape Breton Studies,2005-01-01 Nova Scotia s Cape Breton Island is a beautiful region with a unique community whose history and ethnic composition have resulted in the evolution of a powerful sense of identity and place While outsiders may think only of the island s perennial economic woes and long economic dependence on coal mining and steel production it is also the home of a rich vibrant and distinct culture Brian Douglas Tennyson s *Cape Bretoniana* is the first bibliography to gather together all known publications relating to the history culture economy and politics of Cape Breton Island With more than 6000 entries it not only provides a comprehensive listing of publications and post graduate theses but also detailed annotations on the listings Each entry lists the author title place of publication publisher date of publication volume and issue number in the case of periodicals and page references followed by a brief description of the item Cape Breton has never been so thoroughly documented This bibliography will help to ensure that even in a world becoming increasingly homogenized by the forces of globalization unique cultural identities like Cape Breton s can be preserved and nurtured

The Economy of British America, 1607-1789 John J. McCusker,Russell R. Menard,2014-01-01 By the American Revolution the farmers and city dwellers of British America had achieved individually and collectively considerable prosperity The nature and extent of that success are still unfolding In this first comprehensive assessment of where research on prerevolutionary economy stands what it seeks to achieve and how it might best proceed the authors discuss those areas in which traditional work remains to be done and address new possibilities for a new economic history

Rebels Rising Benjamin L. Carp,2007-08-22 The cities of eighteenth century America packed together tens of thousands of colonists who met each other in back rooms and plotted political tactics debated the issues of the day in taverns and mingled together on the wharves or in the streets In this fascinating work historian Benjamin L Carp shows how these various urban meeting places provided the tinder and spark for the American Revolution Carp focuses closely on political activity in colonial America s five most populous cities in particular he examines Boston s waterfront community New York tavern goers Newport congregations Charleston s elite patriarchy and the common people who gathered outside Philadelphia s State House He shows how because of their tight concentrations of people and diverse mixture of inhabitants the largest cities offered fertile ground for political consciousness political persuasion and political action The book traces how everyday interactions in taverns wharves and elsewhere slowly developed into more serious political activity Ultimately the residents of cities became the first to voice their discontent Merchants began meeting to discuss the repercussions of new laws printers fired up provocative pamphlets and protesters took to the streets Indeed the cities became the flashpoints for legislative protests committee meetings massive outdoor gatherings newspaper harangues boycotts customs evasion

violence and riots all of which laid the groundwork for war Ranging from 1740 to 1780 this groundbreaking work contributes significantly to our understanding of the American Revolution By focusing on some of the most pivotal events of the eighteenth century as they unfolded in the most dynamic places in America this book illuminates how city dwellers joined in various forms of political activity that helped make the Revolution possible **Pilgrims** Susan Hardman Moore, Susan M. Moore, 2007-01-01 This book uncovers what might seem to be a dark side of the American dream the New World from the viewpoint of those who decided not to stay At the core of the volume are the life histories of people who left New England during the British Civil Wars and Interregnum 1640 1660 More than a third of the ministers who had stirred up emigration from England deserted their flocks to return home The colonists stories challenge our perceptions of early settlement and the religious ideal of New England as a City on a Hill America was a stage in their journey not an end in itself Susan Hardman Moore first explores the motives for migration to New England in the 1630s and the rhetoric that surrounded it Then drawing on extensive original research into the lives of hundreds of migrants she outlines the complex reasons that spurred many to brave the Atlantic again homeward bound Her book ends with the fortunes of colonists back home and looks at the impact of their American experience Of exceptional value to studies of the connections between the Old and New Worlds Pilgrims contributes to debates about the nature of the New England experiment and its significance for the tumults of revolutionary England

Seafaring In Colonial Massachusetts Book Review: Unveiling the Magic of Language

In a digital era where connections and knowledge reign supreme, the enchanting power of language has become more apparent than ever. Its power to stir emotions, provoke thought, and instigate transformation is truly remarkable.
