**Pathologies of the West** Roland Littlewood, 2002 Psychiatry conventionally regards spirit possession and dramatic healing rituals in non European societies as forms of abnormality if not mental illness Roland Littlewood a psychiatrist and social anthropologist argues that it is necessary to take into account both social process and personal cultural meaning when explaining psychiatric illness and deviant behavior Littlewood brings anthropological and psychiatric literature to bear on case studies of self poisoning agoraphobia hysteria chronic fatigue syndrome post traumatic stress male sexual violence and eating disorders He contends that Western psychiatric illnesses are themselves possession states patterns by which individual

agency is displaced through an idiom of alien intrusion whether of a spirit or a disease Pathologies of the West is simultaneously an original approach to psychiatric illness in its international perspective and an introduction to recent developments in the social anthropology of medicine It examines critically the relevance of phenomenological structural and ethological approaches to understanding extreme personal experience Littlewood argues that anthropology must not simply provide a cultural alternative to sociological critiques of medicine psychiatry itself should take into account the ways in which cultural values are acted out by individuals *Understanding and Applying Medical Anthropology* Peter J. Brown, Svea Closser, 2016-07-01 The editors of the third edition of the seminal textbook *Understanding and Applying Medical Anthropology* bring it completely up to date for both instructors and students The collection of 49 readings 17 of them new to this edition offers extensive background description and exposes students to the breadth of theoretical methodological and practical perspectives and issues in the field of medical anthropology The text provides specific examples and case studies of research as it is applied to a range of health settings from cross cultural clinical encounters to cultural analysis of new biomedical technologies and the implementation of programs in global health settings The new edition features a major revision that eliminates many older readings in favor of more fresh relevant selections a new section on structural violence that looks at the impact of poverty and other forms of social marginalization on health an updated and expanded section on Conceptual Tools including new research and ideas that are currently driving the field of medical anthropology forward such as epigenetics and syndemics new chapters on climate change Ebola PTSD among Iraq Afghanistan veterans eating disorders and autism among others recent articles from Margaret Mead Award winners Sera Young Seth Holmes and Erin Finley along with new articles by such established medical anthropologists as Paul Farmer and Merrill Singer **Body and Affect in the Intercultural Encounter** Rene Devisch, 2017-12-17 The volume draws from Ren Devischs encounters with groups in southsaharan Africa primarily The author had the privilege to immerse himself around the clock in the Yakaphones activities and thoughts in southwest DR Congo from 1972 to 1974 and intermittently in Kinshasas shanty towns from 1986 to 2003 The author first examines what sparked his choice to come to Congo and then to pursue research among the Yakaphones in the borderland with Angola He then invites us to follow the trajectory of his plural anthropological view on todays multicentric world It leads us to his praise for honorary doctor Jean Marc Elas work He then examines the proletarian outbursts of violence that rocked Congos major cities in 1991 and 1993 These can be read as a settling of scores with the disillusioning colonial and missionary modernisation along with president Mobutus millenarian Popular Movement of the Revolution Furthermore after considering the morose reduction of a major Yaka dancing mask into a mere museum bound curio in Antwerp the book unravels the Yakaphones perspectives on spirits and sorcerys threat It also analyses their commitment to classical Bantu African healing cults along with their parallel consulting physicians and healers By sharing the Yakaphones life world the analysis highlights their body group world weave interlaced by the principle of co resonance A

phenomenological and perspectivist look unfolds the local actors views thereby disclosing the Bantu African genius and setting for a major reversal of perspectives Indeed seeing here from there allows the author to uncover some alienating dynamics at work in his native Belgian Flemish speaking culture To better grasp the realm of life beyond the speakable and factual reasoning the approach occasionally turns to the later Lacans focus on the unconscious desire the body and its affects The book addresses students and researchers in the humanities and more broadly all those immersed in the heat of the encounter with the culturally different
