the Ashes William Landon,2010-05-14 Each of us goes through life on a search for the truth We may do this ether consciously or subconsciously but the journey is a part of our living Please understand that this is not some theoretical exercise The search for truth is vital for us to make correct decisions in all aspects of our life As such this is one of the most important understandings we can come to as human beings The search for truth is actually the search for reality and the nature of reality Thus this is an important part of meaningful living How successful we are going to be in living is heavily reliant on how clearly and correctly we understand the true nature of reality It is for this reason that this is no mere philosophical exercise This book is an exploration of the Bibles view of reality Contrary to popular opinion there is only one ultimate truth We need to reject the misconception that reality is subjective This is the error Pontus Pilate expressed to Christ John 18 38 and that the Athenian Greeks proposed to the apostle Paul Acts 17 1921 Yet the true nature of life is that there is only one real truth Given the impact our understanding of truth has on our life here and now as well as in eternity there is no more important pursuit a person can undertake This book puts forth the view of truth that is based on the teachings of the Bible

The Spiritual Truth Series Lucian Phoenix-Wolf,2004-10 Have you ever had anything weird or unusual happen to you You are not alone Most people use religion to explain anything supernatural that may have happened to them The author did this and he soon found out how wrong he was Finding the truth is a very freeing experience This book is about opening your mind and finding out the power you have in your beliefs I bet you would be surprised at what you could do if you just change how you think That s right you control what you believe When you uncover the power that you have in your beliefs you could do almost anything All you have to do is accept the fact that truth is stranger than fiction Publisher description

The Science of Evolution and the Myth of Creationism Ardea Skybreak,2006-09-01 This clear lively and systematic presentation examines the scientific evidence for evolution and reaches for the widest possible audience from scientific minds to those with no science background at all Forcefully rejecting creationist objections to evolution and including a critique of Intelligent Design it argues that they are part of a larger social agenda With discussion that celebrates the fascination to be found in studying the diversity and complexity of life this examination suggests with some urgency that the science of evolution is crucial to the existence of science itself

The Young Earth Dr. John D. Morris,2007-10-01 Is the earth billions of years old or just thousands Does it Matter Did God create our world in six literal days or did it evolve on its own over countless eons of time The age of the earth a key question in the creation evolution debate has been portrayed as an issue of science versus religion but is it really that simple The answers to these questions are vital to understanding not just earth science but also the biblical record Dr John Morris The Young Earth scientifically examines the evidence to see what the earth actually reveals about itself This classic and definitive work newly revised and expanded demonstrates that the Bible can be trusted in questions of science and history The Young Earth offers both compelling scientific analysis and effective biblical exposition A powerful resource it also includes a CD with PowerPoint presentations that illustrate such key

concepts as salt levels in the oceans the age of the atmosphere the accumulation of ocean sediments and much more Great for presentations and personal study Organized for teaching to groups of all sizes Illustrated slides illuminate important points Scientifically irrefutably the truth of God's world proclaims the truth of God's Word **Creation: "Behold, it was very good."** Richard Schaefer, 2019-10-28 Author Richard A Schaefer was a lifelong communicator fascinated by stories and like any good journalist dug for the facts and verified sources exploring nagging questions such as Is creation or evolution more credible based on science and expert opinions This book truly represented a personal passion of looking at all sides of the CREATION vs EVOLUTION issue He called on many experts and theorists including Charles Darwin himself Surprisingly Darwin was far more skeptical of his own theories than are many PhDs today and admitted to significant holes in his logic Read for yourself as great thinkers explore the pros and cons of both theories and their variants Finding Truth in Life and Love: One Man's Journey George Kyriacou, 2022-04-26 Finding Truth in Life and Love One Man's Journey Wow what a title but I hear you say the great thinkers of our time can explain Love Life and the Universe so why have you bothered writing a book Stephen Hawking says the universe can and will create itself from nothing Richard Dawkins explanation of life is We are survival machines robot vehicles blindly programmed to preserve the selfish molecules known as genes And as for love science has proven that love is just a bunch of chemical reactions So what can I offer on the subject at hand All these intelligent people indeed have more to say on the subject with all their knowledge gained through degrees and doctorates What can I add to the subject with my most prized qualification being my 100 yards swimming certificate from primary school Well indeed I do not have a lot of knowledge but I do consider that life has taught me to be wise You may ask what the difference is between knowledge and wisdom Well knowledge is knowing that a tomato is a fruit wisdom is not putting tomatoes in your fruit salad Reading some of the explanations by the world's greatest minds like Stephen Hawking when he says the universe will create itself from nothing I get the uneasy feeling that someone is messing with the fruit salad This uneasiness and my stubborn enquiring nature have set me on a half century discovery for truth The earth is travelling at 67 000 miles per hour through space Is someone driving What about all the religions of the world Are some or all of them true What is the truth in any case Does the truth matter Why don't we abandon the truth and all invent our reality to suit our lives

Truth Seeker, 1925 **Revealing God's Truth** Paul Welechenko, Christians should never feel like they have to deny science to keep their faith We can place our faith in Christ and scripture and at the same time embrace science We need not be discouraged by scientific discoveries but rather be encouraged by them as all truth scientific and spiritual is God's truth The complexities of the universe Earth and life reveal the creative mind of God and provide proof they could not have originated by chance The Bible is not falsifiable but a 6 500 year old Earth is Christians can believe in the Bible and in evolution Evolution is not a God replacement Revealing God's Truth provides clear and helpful guidance in understanding that God exists and that the universe including Earth is old Stories from Genesis such as the creation story and Noah's flood

are examined and offered as proof of God's intelligent design for Earth and all life. Faith building arguments for the validity of science and the Bible are made giving Christians hope in an infinite intelligent and loving God. *Lie: Evolution, The (25th Anniversary Edition)* Ken Ham, 1987-07-01. The Bible prophetically warns that in the last days false teachers will introduce destructive lies among the people. Their purpose is to bring God's truth into disrepute and to exploit believers by telling them made up and imagined stories see 2 Pet 2:1-3. Such a lie is among us that lie is evolution. Today many laypeople, ministers and Christian educators are powerless in their presentation of the gospel. They have rejected Genesis the foundation of biblical doctrine. They have believed the modern origins myth evolution. If you believe that Genesis is not important to presenting the Gospel This book is for you. If you believe that what you think about Genesis does not affect you personally This book is for you. If you believe that evolution can be made to fit the Bible This book is for you. If you are a witnessing Christian seeking to bring the gospel to this spiritually drifting world This book is for you. Worship the King! David Renison, 2023-01-19. Spend some time reading hope filled messages from the timeless life changing truths of the Bible. *Worship the King* is a collection of more than 50 Bible based KJV messages of inspiration including *Finding God Instead of Learning Why*, *Singing at Midnight*, *God's Power Made Known* and *The Heart of Our Message*. All are written with a desire that you will see your Redeemer more clearly and worship Him more fully. **The Gospel According to the Blues** Gary W. Burnett, 2014-10-27. The Gospel According to the Blues dares us to read Jesus's Sermon on the Mount in conversation with Robert Johnson, Son House and Muddy Waters. It suggests that thinking about the blues, the history, the artists, the songs provides good stimulation for thinking about the Christian gospel. Both are about a world gone wrong about injustice about the human condition and both are about hope for a better world. In this book Gary Burnett probes both the gospel and the history of the blues as we find it in the Sermon on the Mount to help us understand better the nature of the good news which Jesus preached and its relevance and challenge to us. **Deep Truth** Gregg Braden, 2012-10-15. The Crisis. Best selling author and visionary scientist Gregg Braden suggests that the hottest topics that divide us as families, cultures and nations seemingly disparate issues such as war, terrorism, abortion, genocide, poverty, economic collapse, climate change and nuclear threats are actually related. They all stem from a worldview based upon the false assumptions of an incomplete science. The History. The obsolete beliefs of our modern worldview have brought us to the brink of disaster and the loss of all that we cherish as a civilization. Our reluctance to accept new discoveries about our relationship to the earth, one another and our ancient past keeps us locked into the thinking that has led to the crises threatening our lives today. The Facts. The scientific method allows for and expects new information to be revealed and assimilated into our existing beliefs. It's the updating of scientific knowledge with the new facts from new discoveries that is the key to keeping science honest, current and meaningful. To continue teaching science that is not supported by the new discoveries, ones based upon accepted scientific methods is not in fact scientific. But this is precisely what we see happening in traditional textbooks, classrooms and mainstream media today. The Opportunity

Explore for yourself the discoveries that change 150 years of scientific beliefs yet are still not reflected in mainstream thinking including Evidence of advanced near ice age civilizations The origin of and reasons for war in our ancient past and why it may become obsolete in our time The false assumptions of human evolution and of the Darwinian theory Let the strongest live and the weakest die and how this plays out in corporations societies warfare and civilization today Deep Truth reveals new discoveries that change the way we think about everything from our personal relationships to civilization itself When the facts become clear our choices become obvious *Malebranche: The Search After Truth* Nicolas Malebranche, Paul J. Olscamp, 1997-05 Distinguished translation of the major work by a figure of crucial importance to the Enlightenment *Cyclopaedia of Biblical, Theological, and Ecclesiastical Literature* John McClintock, James Strong, 1891
