Ready! Susan Bulanda, 1994 All America is thrilled by Search and Rescue missions especially when the well trained dogs are brought in to save victims of earthquakes hurricanes and man made disasters We watch with fascination and horror as these tales unfold across our TV sets This is one of the few comprehensive books on the training of SAR dogs It is a complete approach to training for this type of dog Training a Search and Rescue Dog Christy Judah, 2014-10-09 Training a Search and Rescue Dog for Wilderness Air Scent Detection Training a Search and Rescue Dog is a simple easy to understand step by

step instructional manual to teach dogs to find live people. It provides a planned curriculum to incorporate a re-find in a wilderness air scent training program first and then goes on to allow the handler to add a human remains detection component should they desire to cross train their dog. The program allows for individual differences in dog training methods and reward systems, allowing the handler and trainer to custom design the program which best suits their breed, environment and needs. Also included are related forms such as search training logs, search reports, donation forms, and how to collect an uncontaminated scent article. These lessons are designed for the dog that has already had some general training in basic obedience, agility, and socialization. For dogs without these basic skills, the author has written a book titled *Building a Basic Foundation for Search and Rescue Dog Training*. Training a Search and Rescue Dog is an excellent follow-up and training regime following the Basics book, which lays the appropriate groundwork in order to train a fully functional, certified and able working dog.

**K-9 Sar Training Log** Sharolyn L. Sievert, 2015-06-04. Search and Rescue dogs should be trained, certified and reliable. Training and reliability are determined by training logs maintained throughout a dog's career, while certification verifies the training through third party testing. Training logs serve a very real purpose beyond the legal aspects of course; they also help a handler see the broader picture of their training progress. The book can be personalized both the cover and spine and the inside front page. The small size makes it easier to bring along to trainings, which in turn makes writing up logs less of a chore for the handler. Additionally, the form is designed with a variety of check boxes to make things simpler as well. This log book, consisting of about 6 months worth of blank forms, was created by a Search Rescue K-9 handler for their own use. As a handler with multiple dogs in multiple disciplines, the author planned the log book to be discipline generic so almost any SAR handler should be able to adapt it for their training records.
