Searching For Eternity A Scientists Spiritual Journey To Overcome Death Anxiety Paperback:

Searching for Eternity Donald R. Morse, 2000 What happens when we die Do we simply cease to exist with our consciousness obliterated for all eternity Or do we have an enduring soul that can continue to experience awareness and some form of ongoing life Does God exist Without a creator how can the universe exist What is the purpose of the universe and what is its ultimate fate Does our behavior in day to day life really influence what happens to us after we die Why do many people believe in a heaven and a hell What is the basis of these beliefs Should we be anxious about our death or just enjoy life in the here and now Can these ultimate mysteries be solved by science What does science already know about the mysteries of creation Sooner or later all of us will face the stark reality of death Many people go through life with an increasing awareness and increasing anxiety about their eventual fate Dr Don Morse a scientist who believed in the absolute finality of death did too Then his near death experience led him on a quest to uncover what science knows about the nature of death Dr Morse s subsequent spiritual journey led him through the entire realm of science and religious beliefs until he came to an inescapable conclusion Some form of an afterlife must exist Join Dr Morse as he summarizes the vast research and data leading to this conclusion Near death and out of body experiences experiments creating apparitions research attempting to weight the soul and the wide range of ancient and modern spiritual concepts are all covered in this masterful comprehensive scientific quest for truth back cover

The Afterlife Experiments Gary E. Schwartz, William L. Simon, 2002-03-13 An esteemed scientist s personal journey from skepticism to wonder and awe provides astonishing answers to a timeless question Is there life after death Are love and life eternal This exciting account presents provocative evidence that could upset everything that science has ever taught Daring to risk his worldwide academic reputation Dr Gary E Schwartz along with his research partner Dr Linda Russek asked some of the most prominent mediums in America including John Edward Suzane Northrup and George Anderson to become part of a series of extraordinary experiments to prove or disprove the existence of an afterlife **THE AFTERLIFE EXPERIMENTS** This riveting narrative with its electrifying transcripts puts the reader on the scene of a breakthrough scientific achievement contact with the beyond under controlled laboratory conditions In stringently monitored experiments leading mediums attempted to contact dead friends and relatives of sitters who were masked from view and never spoke depriving the mediums of any cues The messages that came through stunned sitters and researchers alike Here as they unfolded in the laboratory setting are uncanny revelations about a son s suicide what a deceased father wanted to say about his last days in a coma the transformation of a man s lifelong doubts about the afterlife and most amazing of all a forecast of a beloved spouse s death Dr Schwartz was forced by the overwhelmingly positive data to abandon his skepticism reaching some startling conclusions Compelling from the first page to the last **The Afterlife Experiments** is the amazing documentation of groundbreaking experiments you will never forget

Eternal Consciousness John S. Dunne, 2012 In his new book John S Dunne asks So what is eternal consciousness It is I take it consciousness of the eternal in us If time is a changing image of eternity as Plato says the changing image of the human being is like The Voyage of Life four paintings by Thomas Cole showing childhood youth adulthood and age The eternal in us is the person going through these phases It is the vertical dimension of the life as in the title scene of War and Peace where Prince Andre lay on the battlefield looking up into the peaceful sky perceiving peace in the midst of war If the

horizontal dimension is time and the vertical dimension is eternity then eternal consciousness is awareness of the vertical dimension What is more the vertical dimension carries through the horizontal as the person walks through life upright instead of being dragged through in quiet desperation Willingness and hope accordingly is willingness to walk through upright with hope in the face of death and darkness from the book What can I know What should I do What may I hope Dunne explores these questions in his characteristic hermeneutic method finding the answer in the words of eternal life John 6:68 It is the life of the spirit that is the eternal in us the inner life of knowing and loving the life of hope and peace and friendship and intelligence If there were no eternal consciousness in a man Kierkegaard says what then would life be but despair John Dunne adds if there is eternal consciousness in us on the other hand there is hope To readers of John Dunne's books *Eternal Consciousness* will be the latest installment chronicling his spiritual journey to readers new to Dunne's oeuvre it will be a lively introduction to the distinctive voice and thought of an inspiring author As action grows more frantic and voices more shrill in this age of terror John Dunne's wisdom born of *Eternal Consciousness* shows us and leads us into our true selves never unloved never abandoned willing to walk on with God through life into the very gateway of death itself Jon Nilson Loyola University Chicago

Echoes from Eternity Arvin S. Gibson, 1993 *Echoes from Eternity* extends the research work commenced with the best selling book *Glimpses of Eternity* into new areas More than twenty new firsthand accounts of persons who died entered the Spirit World and returned are reported Scientists call such events near death experiences NDEs Sixty-eight case studies are documented and analyzed for unusual patterns and parallels with LDS scriptures the author's continuing research confirms previous findings and also reveals new and unexpected insights Several of those who experienced NDEs tell of having seen themselves in a pre-mortal environment making choices about their future life on earth Some children's experiences are recorded and their innocence and candor sheds additional light on the subject of death and the hereafter Some of the interviewed individuals went through extensive NDEs and their vivid recollections are described in detail the first part of the book documents recorded interviews of the persons who traveled beyond the veil of this life and returned Their accounts are recorded in full without editorial comment In the second part of the book those experiences are analyzed by the author based on his extensive previous research in this area and in the context of LDS scriptures and teachings These two approaches combine to make a powerful witness that life after death is not to be feared One lady whose account is typical of many of the responses said I don't think people should be afraid of dying I've lost all fear of death since my experience This book makes a major contribution to the field of near death research and it answers many questions about this life and the life to come Questions about pre-mortal choices the role of pain in mortal experience the effect improper choices made in this life have on one's post-mortal existence the healing power of the Savior's love and the continuation of family life in the hereafter are thoughtfully examined What emerges with clarity is a strong message of love hope and eternal growth

Life After Death Deepak Chopra, M.D., 2008-09-16 What happens to the spirit after the body dies In *Life After*

Death Deepak Chopra draws on cutting edge scientific discoveries and the great wisdom traditions to provide a map of the afterlife He tells us there is abundant evidence that the world beyond is not separated from this world by an impassable wall in fact a single reality embraces all worlds all times and places A must read for everyone who will die Candace B Pert Ph D author of *Molecules of Emotion* A penetrating and insightful investigation into the greatest mystery of existence This is an important book because only by facing death will we come to a deeper realization of who we are Eckhart Tolle author of *A New Earth* and *The Power of Now* If I had any doubts about the afterlife I don t have them anymore Deepak Chopra has cast his inimitable light on the darkened corners of death I think this is his greatest contribution yet Marianne Williamson author of *The Age of Miracles* and *The Gift of Change* [You Can See the Light](#) Dianne Morrissey,2002 This guide elaborates on seven keys that allow readers to gain a glimpse of the light and return with reassurance that there is life after death The author experienced her own near death after being electrocuted and has since taught the technique of experiencing the next world to more than 25 000 people [Reaching to Heaven](#) James Van Praagh,1999 Praagh gives a guide to becoming true spiritual beings taking the reader on a journey to show what happens at death what the spirit world is like how a soul chooses to be reborn and how the actual process of reincarnation works [The Circle of Life and Death](#) Lawrence Karrasch,Rita Karrasch,2008-11-01 Plan your most rewarding and enjoyable spiritual journey through life death and the after life Using *The Circle of Life and Death* as your introductory guidebook you will explore the many universal truths that are at the core of all life death and after life religious and esoteric teachings These spiritual truths revealed by Karrasch in understandable and comprehensive language represents a forty three year spiritual quest by the author Here are just a few of the spiritual truths that the author has found to be constant that are included in *The Circle of Life and Death* to assist you on this journey It is love in one form or another that is the binding attraction that propels creation forward in the progression of the soul through life and death Life and death should be viewed not as two separate experiences but as one continuous progression repeated over and over The continuation of the consciousness of our soul is assured as we progress through each lifetime and death Our purpose in each life is to gain experiences that will awaken us to a higher consciousness the spark of God within us This is the driving force that propels each individual soul through the cycle of reincarnation Heaven and Hell are not physical or geographical places but states of consciousness needed to analyze and evaluate past earthly experiences in the after life They are not permanent conditions Karrasch hopes each individual will be guided to find his or her own spiritual path with the assistance of the concepts and practical strategies presented in this fascinating introductory guide book You do not need to abandon all your religious beliefs to embark on this life changing journey while you keep God as your constant companion **After** Bruce Greyson,2021-03-11 *Seven Steps to Eternity* Stephen Turoff,1989* [Always There Is Life](#) Robert Traer,2018-06-18 This book is for my children and grandchildren It begins with an autobiographical sketch and includes readings that have strongly influenced my thinking about the big questions of living and dying Not all

these readings are about near death experiences NDEs but all should be read in the Light of NDEs For although I have not had an NDE the Light experienced by those who have including my father now illuminates my life as well as my thoughts At 75 I now see my life as a wandering search for wholeness in the compelling worlds envisioned by secular scientists and spiritual teachers The boy who excelled in science and thought he would be a physicist instead failed as a Christian preacher and became a critical teacher Only now at the end of my life have I discovered what NDEs reveal about both science and spirituality In these readings physicians and other scientists consider how some survivors of cardiac arrest or accidents that have stopped the heart and thus blood flow to the brain nonetheless report vivid memories of Light and Love This evidence falsifies the scientific assumption that consciousness is simply a product of brain activity and verifies that the loss of ordinary consciousness at least for some enables an experience of transcending meaning Cardiologist and NDE researcher Pim van Lommel reports that the enhanced consciousness during an NDE includes nonlocal aspects of interconnectedness such as memories from earliest childhood up until the crisis that caused the NDE and sometimes even visions of the future It offers the chance of communication with the thoughts and feelings of people who were involved in past events or with the consciousness of deceased friends and relatives To explain NDEs van Lommel turns to quantum theory and endorses the not yet commonly accepted interpretation that consciousness determines if and how we experience reality In this view consciousness is nonlocal and the origin or foundation of everything all matter or physical reality is shaped by nonlocal consciousness If this is the case Our endless consciousness predates our birth and our body and will survive death independently of our body in a nonlocal space where time and distance play no role Founders of quantum physics looked to the Eastern spiritual traditions as psychiatrist Diane Hennacy Powell explains Eastern philosophies teach that we live in a sea of unified consciousness that our personal consciousness exists both in and outside our bodies and that our consciousness can travel away from the body during dreams out of body experiences and at death Several of the scientists I quote in this book find in quantum theory a way of explaining how matter and mind unfold from a creative process that is the source of both Social scientist Lawrence LeShan argues Field theory leads as inexorably to a concept of surviving biological death as classical physics does to a concept of total annihilation at bodily death In the sense that all things that were are or will be exist forever in the continuum the individual continues to be Psychiatrist Jim B Tucker writes If the physical universe grows out of consciousness there is no reason to think that a person s individual consciousness ends when the physical brain dies Some NDE survivors report meeting Jesus on the Other Side but most return to the visible world more spiritually awake than actively religious For others whose scientific vocation reinforced a secular view of reality NDEs have given new meaning to God Spiritually transformed by his NDE neurosurgeon Eben Alexander affirms God is present in us at all times Omniscient omnipotent personal and loving us without conditions We are connected as One through our divine link
