**In Search of the Swan Maiden** Barbara Fass Leavy,1995-07-01 In her compendious study of the folktale of the runaway wife Leavy argues that the contradictory claims of nature and culture are embodied in the legendary figure of the swan maiden a woman torn between the human and bestial worlds The New York Times Book Review This is a study of the meaning of gender as framed by the swan maiden tale a story found in the folklore of virtually every culture The swan maiden is a supernatural woman forced to marry keep house and bear children for a mortal man who holds the key to her imprisonment When she manages to regain this key she escapes to the otherworld never to return These tales have most often been interpreted as depicting exogamous marriages describing the girl from another tribe trapped in a world where she will always be the outsider Barbara Fass Leavy believes that in the societies in which the tale and its variants endured woman was the other the outsider trapped in a society that could never

be her own Leavy shows how the tale though rarely explicitly recognized is frequently replayed in modern literature Beautifully written this book reveals the myriad ways in which the folktales of a society reflect its cultural values and particularly how folktales are allegories of gender relations It will interest anyone involved in literary gender and cultural studies

*Original Thinking* Glenn Aparicio Parry, 2015-04-14 In *Original Thinking* Glenn Aparicio Parry delves into the evolution of Western thought to recover the living roots of wisdom that can correct the imbalances in our modern worldview Inspired by groundbreaking dialogues that the author organized between Native American elders and leading edge Western scientists to explore the underlying principles of the cosmos this book offers a radical revisioning of how we think Asking questions such as Is it possible to come up with an original thought What does it

mean to be human and How has our thinking created our world today Parry challenges us to consider many of our most basic assumptions To think originally as in thinking new thoughts that have never been thought or said before is according to Parry largely an illusion So too is the idea of linear human progress Most of us have traveled far from our ancestral lands and in so doing lost connection with place the origin of our consciousness Original Thinking offers a radical revisioning of how we think and what it means to be human It invites us to reintegrate our hearts with our heads and to expand our self imposed narrowing of consciousness In doing so we reconnect with the living original source nature and her interconnected elements and cycles and embrace the communion of old and new rational and intuitive and masculine and feminine Ultimately Parry shows us how to create the tapestry of truly original thinking and to restore thought as a blessing as a whole and complete transmission from Spirit Contents PART ONE ORIGIN Is it possible to come up with an original thought Chapter 1 Original Thought Time and the Unfolding of Consciousness Chapter 2 Looking Backward to Go Forward Chapter 3 Wheels Within Wheels Chapter 4 It s About Time PART TWO DEPARTURE What does it mean to be human Chapter 5 Purpose Potential and Responsibility of Being Human Chapter 6 Rational Thought and Human Identity Chapter 7 Re thinking Language Chapter 8 Beyond Rationality Chapter 9 A Tale of Two Directions PART THREE RETURN How has our thinking created the world today and what is emerging Chapter 10 The Essence of Thought Chapter 11 To Make Thought Whole Again Chapter 12 To Think Without Separation Chapter 13 Re Thinking the Dismal Science Chapter 14 Toward An Original Economics PART FOUR RENEWAL Can education promote the renewal of original thinking Chapter 15 Education as Renewal Chapter 16 Childhood and Education Chapter 17 Higher Education Chapter 18 A New and Ancient Vision Chapter 19 A Vision for Higher Education

*Breaking Enchantments* K.M. Wray, 2014-10-26 This one Erin s Korean relatives are immigrating to Canada She doesn t understand them or the language they speak and she doesn t want to Her anxiety over their arrival sparks bitter memories and sends her into a tailspin of emotions The pressure mounts when she encounters two bullies from school who exhibit inhuman strength In her attempt to escape she stumbles onto an apparently abandoned property where the unexpected keeps happening and she is compelled to return Her best friend Luc Korean cousin Mi Young and younger brother Jay explore the property further and each experience a transference of energy which gives them powers and causes them to pull together as a team They develop their newly found abilities to defend themselves against the bullies whose supernatural destructive force is wreaking havoc at school in their neighbourhood and threatening the security of the crumbling enchantment surrounding the property As the mysteries of the property continue to unfold Erin Luc Mi Young and Jay soon find they are essential to an ancient battle much bigger than they had ever imagined *Critical Neuropsychology & Indigenous Wisdom* Four Arrows, Gerg Cajete, Jongmin Lee, 2010-01-01 This book begins a long overdue dialogue between Western neuropsychology and Indigenous wisdom The latter holds that technology including that which supports the neurosciences is an important aspect of humanity but that without a deeper understanding of the sacred natural world its

consequences will continue to disrupt the balance of life on Earth This book argues that without incorporating Indigenous wisdom into theories relating to brain research and scientific assumptions about human nature humanity may never learn how to avoid this problem After summarizing current studies about such important topics as generosity truthfulness courage humour art spirituality and lateralization two indigenous scholars and a South Korean neuroscientist discuss the research conclusions In most cases the ancient knowledge of Indigenous Peoples reveals significantly contrasting perspectives By offering students of neuropsychology and the various schools of neurophilosophy radically different views than those seen through the lens of Western science this book will help assure that understandings about the human brain may lead to a more healthy balance in human affairs Questions at the end of each chapter give opportunities for the reader to continue the dialogue and find further studies to support or refute the Indigenous assertions *Messages He Gave Me* Joan
