## **Searching For The Promised Land An African Americans Optimistic Odyssey:**

**Searching for the Promised Land** Gary Franks, 1996 An African American Republican congressman the first in 55 years tells about his life his political convictions and his phenomenal election campaign in which he won in a 90% white district A political autobiography

**Searching for the Promised Land** Gary Franks, 1996 An African American Republican congressman the first in 55 years tells about his life his political convictions and his phenomenal election campaign in which he won in a 90% white district A political autobiography

**Black Americans in Congress, 1870-2007**, 2008 From the publisher Provides a comprehensive history of the more than 120 African Americans who have served in the United States Congress Written for a general audience this book contains a profile of each African American Member including notables such as Hiram Revels Joseph Rainey Oscar De Priest Adam Clayton Powell Shirley Chisholm Gus Hawkins and Barbara Jordan Individual profiles are introduced by contextual essays that explain major events in congressional and U S history Illustrated with many portraits photographs and charts

Encyclopedia of African American History, 1896 to the Present Paul Finkelman, 2009 Alphabetically arranged entries from A to C that explores significant events major persons organizations and political and social movements in African American history from 1896 to the twenty first century

The African American Experience Arvarh E. Strickland, Robert E. Weems Jr., 2000-11-30 Compared to the early decades of the 20th century when scholarly writing on African Americans was limited to a few titles on slavery Reconstruction and African American migration the last thirty years have witnessed an explosion of works on the African American experience With the Civil Rights and Black Power movements of the 1960s came an increasing demand for the study and teaching of African American history followed by the publication of increasing numbers of titles on African American life and history This volume provides a comprehensive bibliographical and analytical guide to this growing body of literature as well as an analysis of how the study of African Americans has changed

**The Civil War Income Tax and the Republican Party, 1861-1872** Christopher Michael Shepard, 2010 A flat tax Tax cuts Complete elimination of the income tax These ideas have most certainly been advocated by members of the Republican Party during the past few decades Party leaders such as George W Bush Ronald Reagan and Newt Gingrich expressed disdain for the income tax and utilized their power to remove it as a revenue source At the time of the Civil War many Republicans mainly in the Northeast were opposed to the new Federal Income Tax Initially used to finance that war the Federal income tax became a hotly debated issue at a time when America was trying to put back together a fractured nation The issue split the party with Midwestern and Southern Republicans wanting to continue the income tax and Northern and Western Republicans championing its demise In the end the anti income tax wing took control of the Republican Party and shaped its economic principles for the future The book is an in depth look into how the Republicans in Congress dealt with the creation of the United States first income tax and how it affected the party for the future The author argues that the anti income tax faction of the Republican Party won the debate

and took over the party and to this day the Republican Party typically promotes either cutting taxes or eliminating them altogether. The author gives a brief history of the formation of the Republican Party and how they developed their economic views in distinction from the declining Whig Party who mostly sought to fund the federal budget through tariffs and not by taxing the people directly. The second half of the book looks at the different income tax legislations and how Republicans in Congress responded to them. Each chapter begins with a brief historical context at the time when an income tax bill was being discussed in Congress. The views of Republicans on the income tax were altered throughout the war and its aftermath. In the beginning, Republicans enthusiastically supported the income tax as a measure needed to sustain the fighting. As the war came to a close, however, many Republicans began to change their view. They originally backed progressive rates, then they wanted just one flat tax rate, and by 1870 many wanted the tax to be ended. There was a divide in the Republican Party, though Western Republicans wanted to keep the income tax intact while Northern Republicans called for its repeal. The last chapter of the book looks at the Republican Party and the income tax since 1872. Many of the arguments made by current and past Republicans, e.g. George W. Bush, Eisenhower, Elihu Root, and even Earl Warren against the income tax, are shown to be the same ones made by many Republicans in the debate over the Civil War income tax. Apparently, the Northern anti-income tax wing won the debate and took over the party 140 years ago. From Edward Brooke to Barack Obama Dennis S.

Nordin, 2012-06-25. In 2008, American history was forever changed with the election of Barack Obama, the United States' first African American president. However, Obama was far from the first African American to run for a public office or to face the complexities of race in a political campaign. For over a century, offices ranging from city mayor to state senator have been filled by African Americans, making race a factor in many elections. In *From Edward Brooke to Barack Obama*, Dennis S. Nordin navigates the history of biracial elections by examining the experiences of a variety of African American politicians from across the country, revealing how voters both black and white respond to the issue of race in an election. The idea to compare the African American political experience across several levels of office first occurred to Nordin as he was researching Arthur W. Mitchell's 1934 congressional campaign. The question of white voter support was of particular significance, as was whether the continuation of that support depended upon his avoiding minority issues in office. To begin answering these questions and others, Nordin compares the experiences of eleven African American politicians. Taken from across the country to ensure a wide sample and accurate depiction of the subject, the case studies examined include Tom Bradley, mayor of Los Angeles; David Dinkins, mayor of New York; Freeman Bosley Jr., mayor of St. Louis; Senator Edward Brooke of Massachusetts; Senator Carol Moseley Braun of Illinois; Governor L. Douglas Wilder of Virginia; and Representative J. C. Watts Jr. of Oklahoma, among others. As Nordin analyzes these individuals and their contribution to the whole, he concludes that biracial elections in the United States have yet to progress beyond race. *From Edward Brooke to Barack Obama* investigates the implications of race in politics, a highly relevant topic in today's American society. It offers readers a

chronological overview of the progress made over the last several decades as well as shows where there is room for growth in the political arena By taking a pertinent topic for the era and placing it in the context of history Nordin successfully chronicles the roles of race and race relations in American politics African-American Political Leaders Charles W. Carey, 2014-05-14 One of the most remarkable episodes in the history of U S politics is the rise to power of African American political leaders Although the first Africans to come to this country were treated as indentured servants **The Harvard Guide to African-American History** Evelyn Brooks Higginbotham, 2001 This massive guide sponsored by the W E B Du Bois Institute for Afro American Research at Harvard University and compiled by renowned experts offers a compendium of information and interpretation on over 500 years of black experience in America Black Conservative Intellectuals in Modern America Michael L. Ondaatje, 2011-11-29 In the last three decades a brand of black conservatism espoused by a controversial group of African American intellectuals has become a fixture in the nation s political landscape its proponents having shaped policy debates over some of the most pressing matters that confront contemporary American society Their ideas though have been neglected by scholars of the African American experience and much of the responsibility for explaining black conservatism s historical and contemporary significance has fallen to highly partisan journalists Typically those pundits have addressed black conservatives as an undifferentiated mass proclaiming them good or bad right or wrong color blind visionaries or Uncle Toms In Black Conservative Intellectuals in Modern America Michael L Ondaatje delves deeply into the historical archive to chronicle the origins of black conservatism in the United States from the early 1980s to the present Focusing on three significant policy issues affirmative action welfare and education Ondaatje critically engages with the ideas of nine of the most influential black conservatives He further documents how their ideas were received both by white conservatives eager to capitalize on black support for their ideas and by activists on the left who too often sought to impugn the motives of black conservatives instead of challenging the merits of their claims While Ondaatje s investigation uncovers the themes and issues that link these voices together he debunks the myth of a monolithic black conservatism Figures such as Supreme Court Justice Clarence Thomas the Hoover Institution s Thomas Sowell and Shelby Steele and cultural theorist John McWhorter emerge as individuals with their own distinct understandings of and relationships to the conservative political tradition Black Conservatives in the United States Godfrey Mwakikagile, 2006 This work is an examination of the black conservative phenomenon in the United States in contemporary times The author looks at the role black conservatives play in American politics and at their attempts to have an impact on the lives of black Americans also known as African Americans Subjects covered include perspectives black conservatives share on issues such as affirmative action racism poverty self reliance welfare drugs crime and illegitimacy among blacks the criminal justice system and how it affects blacks and why black conservatives differ with other blacks on those issues It is also a critique of *The Bell Curve* a book that has inflamed passions especially among blacks and of the views some black conservatives have expressed on racial

IQ differences which have fueled debate on this highly explosive subject The author also looks at the policy and philosophical differences and at differences in perceptions between black conservatives and their brethren in the black community Why do black conservatives oppose affirmative action Why do they support the Republican party Why don t they have much support in the black community Those are just some of the issues addressed in this book The author writes from personal experience after living and interacting with African Americans of all ideological stripes for more than 30 years His interest in Black America spans the ideological spectrum and covers other aspects of life including relations between Africans and African Americans He has written a book about those relations in which he also addresses the black conservative phenomenon in the United States Like all his others books **Black Conservatives in the United States** is intended for members of the general public and the academic community **Black and Right** J. G. Conti,Stan Faryna,Brad Stetson,1997-04-22 Black conservatism is no oxymoron Recent polls have indicated that an increasing number of black Americans identified themselves as conservatives favoring smaller government lower taxes tougher crime laws welfare reform and personal initiative While applauding the moral and legal victories of the Civil Rights Movement the conservative spokespeople in this dynamic new collection reject the claims of inequities and what they consider to be the self serving agenda of the present civil rights establishment National leaders such as Justice Clarence Thomas and former Representative Gary Franks and writers such as Shelby Steele and Glenn Loury appear either as contributors or as subjects in this volume They emphasize the grassroots aspects of black conservatism with a reliance on common sense and common humanity The strength of the black conservative voice lies in the growth of its numbers and social influence As more African Americans shift to the right and embrace conservative ideology they are signalling what may be one of the most politically significant trends in American public life as the 20th century draws to a close This provocative collection of essays shatters the myth that black Americans are uniformly left of center and that conservatism is an ideology with a white face Unique in its personal and political portrait of black conservatives in America this book shows the remarkable diversity of ideas from one of the most talked about political movements to emerge in recent years **Black Nonfiction Books, Their Authors, and Their Publishers** Harry B. Dunbar,2001-11-06 Visible Differences Dominic Pulera,2002-06-05 Race The mere mention of the R word is a surefire conversation stopper In this book about America s most divisive social issue Dominic J Pulera offers a compelling roadmap to our future This accessible and penetrating analysis is the first to include detailed coverage of America s five racial groups whites blacks Hispanics Asian Americans and Native Americans The author contends that race will matter to Americans during the twenty first century because of visible differences and that differences in physical appearance separating the races are the single most important factor shaping intergroup relations in conjunction with the social cultural economic and political ramifications that accompany them Pulera shows how why when and where race matters in the United States and who is affected by it He explains the ongoing demographic transition of America from a predominantly white country to one

where nonwhites are increasingly numerous and consequently more visible The advent of a multiracial consciousness has tremendous implications for America s future because the racial significance of almost every part of the American experience is increasing as a result The author concludes on a note of cautious optimism as he explores whether the visible differences dividing Americans are reconcilable      Index to Black Periodicals 1996 G. K. Hall and Co. Staff,GK Hall,1997-08 The headlines read Is the GOP Serious About Getting Black Votes An Afrocentric Approach to Language Planning The Psychology of Sexual Racism and AIDS She s Got Your Back Sister Support Groups Ralph Ellison Remembered by Gwendolyn Brooks Amiri Baraka and Charles Johnson These are just some of the titles covered by the Index to Black Periodicals the single source guide to articles appearing each year in all major black American popular and scholarly journals Students scholars and librarians have relied on this index since 1950 for exclusive coverage in the field of black studies Among the areas covered in each edition are women related issues literature education economics discrimination health care and the arts Interviews obituaries and book and drama reviews are also included Approximately 1 500 entries are arranged by subject and author in convenient dictionary format with extensive cross referencing 1997      Indianapolis Monthly ,1996-08 Indianapolis Monthly is the Circle City s essential chronicle and guide an indispensable authority on what s new and what s news Through coverage of politics crime dining style business sports and arts and entertainment each issue offers compelling narrative stories and lively urbane coverage of Indy s cultural landscape      **Autobiographies by Americans of Color, 1995-2000** Deborah Stuhr Iwabuchi,Rebecca Stuhr,2003 This annotated bibliography covers the years 1995 through 2000 which saw a tremendous output of autobiographical material by Americans of color Publishers released works by prominent civil rights leaders musicians entertainers athletes as well as unsung heroes with the courage to strive for a better life This is the long awaited follow up to the first volume of the Autobiographies by Americans of Color bibliography series      *The African American National Biography: Dihigo-Gwynn* Henry Louis Gates (Jr.),Evelyn Brooks Higginbotham,2008 An 8 volume reference set containing over 4 000 entries written by distinguished scholars The African American National Biography is the most significant and expansive compilation of black lives in print today      Forthcoming Books Rose Arny,1997      **The American Spectator** ,1996
