Muenger, Nasa Technical Reports Server (Ntrs), 2013-08 The NASA Technical Reports Server NTRS houses half a million publications that are a valuable means of information to researchers teachers students and the general public These documents are all aerospace related with much scientific and technical information created or funded by NASA Some types of documents include conference papers research reports meeting papers journal articles and more This is one of those documents *The Wind and Beyond* ,2003 *NASA Historical Data Book: NASA resources, 1969-1978* ,1988 **NASA Historical Data Book** ,1988 Realizing the Dream of Flight National Aeronautics and Space Administration, 2005-12-31 These essays in celebration of the Wright brothers first flight 100 years ago grew out of presentations by a group of prominent scholars in 2003 at a conference sponsored by the NASA History Division and held at the Great Lakes Science Center in Cleveland Ohio The volume focuses on the careers of some of the many men and women who helped to realize the dream of flight both through the atmosphere and beyond These accounts are original and compelling because they examine the history of flight through the lens of biography **NASA's First A** Robert G. Ferguson, 2013 Astronautics and Aeronautics, 1985: A Chronology Bette R. Janson, 1988 **Astronautics and Aeronautics, 1985** United States. National Aeronautics and Space Administration. Vakoch, National Aeronautics and Space Administration, 2012-01-27 Through essays on topics including survival in extreme environments and the multicultural dimensions of exploration readers will gain an understanding of the psychological challenges that have faced the space program since its earliest days An engaging read for those interested in space history and psychology alike this is a highly relevant read as we stand poised on the edge of a new era of spaceflight Each essay also explicitly addresses the history of the psychology of space exploration **NASA Historical Data Book, Volume VI** Judy A. Rumerman, 2000 **Spies and Shuttles** James E. David, 2015-01-27 Revealing the connections between NASA and the United States defense community In this real life spy saga James E David reveals the extensive and largely hidden interactions between NASA and U S defense and intelligence departments The story begins with the establishment of NASA in 1958 and follows the agency through its

growth not only in scope but also in complexity In *Spies and Shuttles* David digs through newly declassified documents to ultimately reveal how NASA became a strange bedfellow to the Department of Defense DoD and the Central Intelligence Agency CIA He tracks NASA's early cooperation supplying cover stories for covert missions analyzing the Soviet space program providing weather and other scientific data from its satellites and monitoring missile tests that eventually devolved into NASA's reliance on DoD for political and financial support for the Shuttle David also examines the restrictions imposed on such activities as photographing the Earth from space and the intrusive review mechanisms to ensure compliance The ties between NASA and the intelligence community have historically remained unexplored and David's riveting book is the first to investigate the twists and turns of this labyrinthine relationship *The Business of Heritage* Darran Jordan, 2020-06-04

Throughout the world consultant archaeologists are at work on heritage assessments covering a broad range of fields subjects techniques locations and connections Due to government legislations to protect heritage an industry has developed where archaeology is inextricably linked to business The result is the production of a vast amount of material not widely seen with the result of the heritage work often remaining unpublished This collection of papers examines how heritage is undertaken as a business and what this means for the ongoing protection of the past and development of archaeological knowledge The international connections of a global business structure present an opportunity to approach heritage and archaeological studies with a global one world view parallel with the corporate approach practiced by an international company This volume collects papers by archaeologists and heritage specialists from around the globe providing insights into the intentions processes and outcomes of an international heritage consultancy in operation From managing heritage structures associated with space exploration at the NASA Ames Research Center to protecting Roman archaeology in North Yorkshire and from an industrial landscape in Cornwall to a palimpsest of Aboriginal artefacts in Australia this book contextualises international consultancy within a broader milieu of archaeological study and documents the way in which an international business contributes to the development of academic knowledge on a world scale *Spaceflight Revolution* James R. Hansen, 1995 *Exploring the Unknown*, 1995 **Stages to Saturn** Roger E. Bilstein, 1999-08
