Sears List Of Subject Headings Canadian Companion:

Sears List of Subject Headings Ken Haycock, Lynne Isberg Lighthall, 1987 **User's Guide to Sears List of Subject Headings** M. P. Satija, 2019-11-05 The Sears List of Subject Headings an outstanding name amongst subject headings lists is used all over the world in small and medium sized libraries It has constantly been revised and kept up to date both in its methods and contents by incorporating new subjects and updated organizational machinery Being handy simple inexpensive and always current the Sears List is a convenient choice for teaching subject headings work in library schools User s Guide to Sears List of Subject Headings 2nd Edition is a companion book which although based on the 22nd edition of the Sears List should also be useful to the libraries using some previous edition It attempts to explain the theoretical foundations history and application of the Sears List as well as of the subject headings work in general It explicates the various hidden potentials of the system to construct subject headings needed for local situations The object of this small practical introduction is to be simple clear and illustrative The book assumes no prior knowledge either of the Sears List or of subject headings work in general It is a manual for beginners to understand the importance of vocabulary control the process of subject analysis the structure and organization of the Sears List and the methods to locate specify and construct subject headings and provide cross references for the public catalogue Subject headings in the complex areas of languages literatures biographical and geographical works are given a chapter each Review questions and exercises conclude most chapters A bibliography and glossary are valuable features of this work Encyclopedia of Information Science and Technology, Third Edition Khosrow-Pour, D.B.A., Mehdi, 2014-07-31 This 10 volume compilation of authoritative research based articles contributed by thousands of researchers and experts from all over the world emphasized modern issues and the presentation of potential opportunities prospective solutions and future directions in the field of information science and technology Provided by publisher Subject Indexing: Principles and Practices in the 90's Holley Robert P., Dorothy McGarry, Donna Duncan, Elaine Svenonius, 2017-07-24 No detailed description available for Subject Indexing Principles and Practices in the 90 s **Beginning Cataloging** Jean Weihs, Sheila S. Intner, 2016-12-12 Now thoroughly updated to include recent changes with RDA this easy to use primer provides an introduction to standardized cataloging that will benefit library technicians as well as students in library technician and teacher librarian programs This easy to use primer provides a complete introduction to current standard cataloging practice The simple language helpful examples and clear descriptions of processes and techniques make it a valuable tool for any beginning cataloger or worker in a technical services department Updated with key information about RDA principles and practices and following the same pragmatic approach as the first edition the book empowers students with an understanding of the core principles and language of cataloging Readers will learn how to apply standard descriptive cataloging rules to assign subject headings and classification numbers and to create electronic records The book first examines the cataloging in publication data found on the verso of most books Then chapter

by chapter it explains how this data can be developed into a full bibliographic record that can be used in an online public catalog covering all types of material formats books audiovisuals images sound electronic resources and more This guide will also serve as a workbook in formal education programs or distance education programs and be useful to library technicians and those working in areas where formal training is inaccessible Introduction to Cataloging and Classification Daniel N. Joudrey, Arlene G. Taylor, David P. Miller, 2015-09-29 A new edition of this best selling textbook reintroduces the topic of library cataloging from a fresh modern perspective Not many books merit an eleventh edition but this popular text does Newly updated Introduction to Cataloging and Classification provides an introduction to descriptive cataloging based on contemporary standards explaining the basic tenets to readers without previous experience as well as to those who merely want a better understanding of the process as it exists today The text opens with the foundations of cataloging then moves to specific details and subject matter such as Functional Requirements for Bibliographic Records FRBR Functional Requirements for Authority Data FRAD the International Cataloging Principles ICP and RDA Unlike other texts the book doesn't presume a close familiarity with the MARC bibliographic or authorities formats ALA's Anglo American Cataloging Rules 2nd Edition revised AACR2R or the International Standard Bibliographic Description ISBD Subject access to library materials is covered in sufficient depth to make the reader comfortable with the principles and practices of subject cataloging and classification In addition the book introduces MARC BIBFRAME and other approaches used to communicate and display bibliographic data Discussions of formatting presentation and administrative issues complete the book questions useful for review and study appear at the end of each chapter **Canadian Subject Headings** National Library of Canada, 1985 *Standard Cataloging for School and Public Libraries* Sheila S. Intner, Jean Weihs, 2014-12-16 A proven resource for librarians and students this updated classic opens the door to understanding current library cataloging processes shows you how to use them to create standard catalog records and provides guidance in managing the cataloging workflow Library cataloging and classification tools are constantly improving making this concise guide a necessity for any librarian or library student seeking improved understanding of the practical process of cataloging today With the release of RDA a new code for description and a new edition of Dewey Classification it's time for every library to add this fifth edition of a classic reference to your resources Two Margaret Mann Citation winners update you on the five basic steps in standardized library cataloging describing and adding access points for resources assigning subject headings using Sears List or Library of Congress subject headings classifying them using the Dewey Decimal or Library of Congress classification systems and digitizing the resulting records The book opens with a brief look at the environment in which cataloging now functions especially in response to advances in digital access It clarifies terminology explores new and changed applications and enhances understanding of basic principles for those responsible for creating cataloging data To get you ready for tomorrow the edition closes with a brief look at trends likely to affect cataloging in the foreseeable future Sears List of Subject
