The Subject Approach to Information Antony Charles Foskett, 1996 The Internet and World Wide Web have made access to information easy but do not solve the problems of finding exactly what is wanted to the point of overwhelming the reader with information Since the first edition of this classic librarianship text appeared the development of computer technology has meant that the organization of information has become a hugely complex area This fifth edition places emphasis on the

intellectual effort required to make meaningful use of the enormous amount of information now accessible to the searcher Fully revised and updated in comprehensive detail that includes bibliographies ample examples and quotations it focuses on information retrieval systems database access systems online searching and OPACs hypertext networked systems Foskett describes how we search for information by looking at the problems involved at the theoretical principles suggested as solutions and their practical realization as classification schemes lists of subject headings and thesauri Readership This influential text is widely acknowledged to be essential reading for all students of librarianship and information management and an invaluable reference tool for practising library and information professionals *Introduction to Cataloging and Classification* Daniel N. Joudrey, Arlene G. Taylor, David P. Miller, 2015-09-29 A new edition of this best selling textbook reintroduces the topic of library cataloging from a fresh modern perspective Not many books merit an eleventh edition but this popular text does Newly updated *Introduction to Cataloging and Classification* provides an introduction to descriptive cataloging based on contemporary standards explaining the basic tenets to readers without previous experience as well as to those who merely want a better understanding of the process as it exists today The text opens with the foundations of cataloging then moves to specific details and subject matter such as Functional Requirements for Bibliographic Records FRBR Functional Requirements for Authority Data FRAD the International Cataloging Principles ICP and RDA Unlike other texts the book doesn't presume a close familiarity with the MARC bibliographic or authorities formats ALA's Anglo American Cataloging Rules 2nd Edition revised AACR2R or the International Standard Bibliographic Description ISBD Subject access to library materials is covered in sufficient depth to make the reader comfortable with the principles and practices of subject cataloging and classification In addition the book introduces MARC BIBFRAME and other approaches used to communicate and display bibliographic data Discussions of formatting presentation and administrative issues complete the book questions useful for review and study appear at the end of each chapter *Encyclopedia of Library and Information Science* Allen Kent, Harold Lancour, Jay E. Daily, 1979-08-01 The *Encyclopedia of Library and Information Science* provides an outstanding resource in 33 published volumes with 2 helpful indexes This thorough reference set written by 1300 eminent international experts offers librarians information computer scientists bibliographers documentalists systems analysts and students convenient access to the techniques and tools of both library and information science Impeccably researched cross referenced alphabetized by subject and generously illustrated the *Encyclopedia of Library and Information Science* integrates the essential theoretical and practical information accumulating in this rapidly growing field *To Be Continued* Hope Apple, Merle L. Jacob, 2000-10-10 Keeping track of prolific authors who write fiction series was quite challenging for even the most ardent fan until *To Be Continued* debuted in 1995 Now readers will be happy that the soon to be released second edition has added 1 600 new books and 400 new series *To Be Continued* Second Edition maintains the first volume's successful formula that featured concise A to Z entries packed with useful information including titles publishers publication

dates genre categories annotations and subject terms Among the genre categories that can be found in To Be Continued are romance science fiction crime novel horror adventure fantasy humor western war Christian fiction and others
