**Early Christian Authors on Samaritans and Samaritanism** Reinhard Pummer,2002 Samaritanism is an outgrowth of Early Judaism that has survived until today Its origin as a separate religious entity can be traced back to the 2nd 1st centuries B C E Samaritans were found not only in their core area in and around Shechem Neapolis modern Nablus and on neighboring Mount Gerizim but also in other parts of Palestine as well as in various other Mediterranean countries Oppression at the hand of Jews Christians and Muslims decimated the Samaritan population and obliterated all Samaritan manuscripts written prior to the 10th 11th centuries C E For the early period of Samaritanism we must therefore rely on Christian authors Reinhard Pummer edits Christian Greek and Latin texts about Samaritans and their beliefs and practices dating from the second century C E to the Arab conquests The passages are quoted in their original language and translated into English In addition they are commented on and analyzed in view of their significance for our knowledge of Samaritanism within the wider framework of early Judaism and Christianity      *Reconceptions in Philosophy and Other Arts and Sciences* Nelson Goodman,Catherine Z. Elgin,1988-01-01 The authors argue against certain philosophical distinctions between art and

science between verbal and nonverbal meaning and between the affective and the cognitive The book continues Goodman's argument against one traditional mode of philosophizing which privileges the notions of truth and knowledge Hence the book is in a broadly pragmatic tradition It also deals in detail with such topics as meaning in architecture and the concept of variation in art and contains a superb critique of some important views in contemporary epistemology This work will be savored even by those who will not accept all aspects of Goodman and Elgin's approach Essential for all undergraduate philosophy collections Stanley Bates Choice Caxton head catalogues.
