Bill Reid and Beyond Karen Duffek, Charlotte Townsend-Gault, 2008-09-01 A fresh perspective from Haida leaders art and cultural historians anthropologists and artists on the lasting legacy of the famed Haida artist Bill Reid **Beyond the Factory Gates** Peter Bartrip, 2006-07-01 Beyond the Factory Gates examines the issue of asbestos and health in the USA between the early 1900 s to the mid 1970s Areas covered include the emergence of medical concern about the three fatal diseases related to asbestos asbestosis lung cancer and mesothelioma the actions of the US Navy the main consumer of asbestos based insulation products the response of the federal government before and after enactment of the Occupational Safety and Health Act in 1970 and the roles of organized labour and the asbestos industry The book provides an important insight into occupational health and its regulation in twentieth century America and is original in several ways First there is no satisfactory history of asbestos health and medicine in the USA a major gap in the literature Second no previous publication has examined the asbestos issue beyond the factory gates in a non manufacturing context and explored the complex interactions between organised labour the US Government business corporations and the US navy Finally Beyond the Factory Gates avoids the one sided anti business interpretations that predominate much of the existing literature It accepts that the history of asbestos is in many ways a human tragedy but it rejects simplistic universalised arguments that this has been a tragedy with a cast only villains dupes and victims Reading Beyond the Book Danielle Fuller, DeNel

Rehberg Sedo,2013-04-02 Literary culture has become a form of popular culture over the last fifteen years thanks to the success of televised book clubs film adaptations big box book stores online bookselling and face to face and online book groups This volume offers the first critical analysis of mass reading events and the contemporary meanings of reading in the UK USA and Canada based on original interviews and surveys with readers and event organizers The resurgence of book groups has inspired new cultural formations of what the authors call shared reading They interrogate the enduring attraction of an old technology for readers community organizers and government agencies exploring the social practices inspired by the sharing of books in public spaces and revealing the complex ideological investments made by readers cultural workers institutions and the mass media in the meanings of reading      **Beyond Straw Men** Phaedra C. Pezzullo,2023-09-26

Addressing plastics can feel overwhelming Guilt shame anger hurt fear dismissiveness and despair abound Beyond Strawmen moves beyond hot take or strawman fallacies by illustrating how affective counterpublics mobilized around plastics reveal broader stories about environmental justice and social change Inspired by on and offline organizing Pezzullo engages public controversies policies and headline making advocates in Bangladesh Kenya the US and Vietnam through hashtag activism campaign materials and her podcast Communicating Care She argues that plastics have become an entry point into contested environmental politics including carbon heavy masculinity carceral policies planetary fatalism eco ableism greenwashing marine life endangerment pollution colonialism and waste imperialism Attuned to plastic attachments Beyond Strawmen shares how unsustainable patterns of the plastics industrial complex are resisted through imperfect but impactful networked cultures of care      *Hearings* United States. *Time* Mark Rifkin,2017-02-02 What does it mean to say that Native peoples exist in the present In *Beyond Settler Time* Mark Rifkin investigates the dangers of seeking to include Indigenous peoples within settler temporal frameworks Claims that Native peoples should be recognized as coeval with Euro Americans Rifkin argues implicitly treat dominant non native ideologies and institutions as the basis for defining time itself How though can Native peoples be understood as dynamic and changing while also not assuming that they belong to a present inherently shared with non natives Drawing on physics phenomenology queer studies and postcolonial theory Rifkin develops the concept of settler time to address how Native peoples are both consigned to the past and inserted into the present in ways that normalize non native histories geographies and expectations Through analysis of various kinds of texts including government documents film fiction and autobiography he explores how Native experiences of time exceed and defy such settler impositions In underscoring the existence of multiple temporalities Rifkin illustrates how time plays a crucial role in Indigenous peoples expressions of sovereignty and struggles for self determination      **The Political Economy of the World Trading System : WTO and Beyond** Bernard

Hoekman,Michel Kostecki,2001-07-19 The creation of the World Trade Organization WTO in 1995 ushered in a new era in world trading arrangements Building on the General Agreement on Trades and Tariffs GATT the intergovernmental treaty

that for 50 years had regulated international trade relations the WTO is a global organization of equal standing to the International Monetary Fund and the World Bank and will set the agenda for international trade for decades to come The authors of this volume were heavily involved in the Uruguay Round of GATT negotiations that laid the foundations for the creation of the WTO and were ideally placed to see how the politics of negotiation affects the economics of trade The Political Economy of the World Trading System is the first comprehensive and accessible introduction to the institutional mechanics economics and politics of the global trading networks It goes beyond description of the rules of the WTO to analyse the political and economic forces that sculpted them the incentives for countries to abide by them and the likely future direction of the organization The authors show how governments are not necessarily the social welfare maximizing entities often found in textbooks but instead develop policy subject to the pressures of a variety of interest groups Although economic theory suggests that countries should pursue liberal trade policies and exchange goods and services on the basis of their comparative advantage in practice most nations actively intervene in international trade The political economy approach taken in this volume explains how the WTO functions why GATT has been very successful in reducing tariffs and why it has proven much more difficult to expand the reach of multilateral disciplines to domestic policies impacting on trade This book will increase the reader's understanding of international economics business and international relations by supplying in depth insider knowledge of how trade negotiations take place how this decision making affects trade policy and how the multilateral arrangements that shape world trade are created This information is crucial to understand why WTO rules are phrased as they are and to understand the processes by which business organizations industrial associations and political lobbies influence the multilateral trading system In this expanded and thoroughly revised edition the authors have taken account of the recent developments in international trade relations included an extra chapter on the historical importance of international trading arrangements and updated all the references and guides to further reading

### **Beyond Smart Cities**

Tim Campbell, 2013-07-03 The promise of competitiveness and economic growth in so called smart cities is widely advertised in Europe and the US The promise is focussed on global talent and knowledge economies and not on learning and innovation But to really achieve smart cities that is to create the conditions of continuous learning and innovation this book argues that there is a need to understand what is below the surface and to examine the mechanisms which affect the way cities learn and then connect together This book draws on quantitative and qualitative data with concrete case studies to show how networks already operating in cities are used to foster and strengthen connections in order to achieve breakthroughs in learning and innovation Going beyond smart cities means understanding how cities construct convert and manipulate relationships that grow in urban environments Cities discussed in this book Amman Barcelona Bilbao Charlotte Curitiba Juarez Portland Seattle and Turin illuminate a blind spot in the literature Each of these cities has achieved important transformations and learning has played a key role one that has been largely ignored in academic circles and practice concerning competitiveness and

innovation      **Hearings, Reports and Prints of the Senate Committee on Commerce** United States. Congress. Senate. Committee on Commerce,1963      **A Practice Beyond Cultural Humility** Claudia Grauf-Grounds,Tina Sellers,Scott A. Edwards,Hee-Sun Cheon,Don Macdonald,Shawn Whitney,Peter Rivera,2020-02-27 A Practice Beyond Cultural Humility offers specific guidance to support students and practitioners in providing on going culturally attuned professional care The book introduces a multicultural diversity training model named the ORCA Stance an intentional practice which brings together four core components Openness Respect Curiosity and Accountability Drawing from an array of influences it showcases work with common clinical populations in a variety of contexts from private practice to international organizations Each clinical chapter offers a brief review of information relevant to the population discussed followed by a case study using the ORCA Stance and a summary of recommended best practices In each case the practice of the ORCA Stance is shown to allow relationships to become more culturally sensitive and therefore more effective A Practice Beyond Cultural Humility provides practical examples research and wisdom that can be applied in day to day clinical work and will be valuable reading for a wide range of mental health students and clinicians who seek to continue their professional development      **Local Air Service to Small Communities, Hearings Before the Subcommittee on Aviation...91-2, April 10, 13, May 27, 28, June 19, and August 24, 1970** United States. acts of making things are rhetorical in the sense that they are culturally situated and that they mark boundaries of what counts as making and who counts as maker By focusing on a particular makerspace over time Shivers McNair attends to a changing cohort of makerspace regulars as they face challenges of bringing their vision of inclusivity and diversity to fruition and offers an examination of how makers are made and unmade and remade in a makerspace Beyond the Makerspace contributes not only to our understanding of making and makerspaces but also to our understanding of how to study making and meaning making more broadly in ways that examine and intervene in the marking of difference Thus the book examines what and whose values and practices we are taking up when we identify as makers or when we turn a writing classroom or a library space into a makerspace Hpi's One Step Beyond Paul Roberts and Deanna Jaxine Stinson,2018-10-15 HPI Halo Paranormal Investigations recently did a segment in Oakdale Knight s Ferry with Travel Channel s Ghost Adventures and we also investigated Charleston South Carolina Seattle Washington and Charlotte North Carolina Read all about it here

*Poverty Narratives and Power Paradoxes in International Trade Negotiations and Beyond* Amrita Narlikar,2020-05-07 In this work Amrita Narlikar argues that contrary to common assumption modern day politics displays a surprising paradox poverty and the powerlessness with which it is associated has emerged as a political tool and a formidable weapon in international negotiation The success of poverty narratives however means that their use has not been limited to the neediest Focusing on behaviours and outcomes in a particularly polarising area of bargaining international trade and illustrating wider applications of the argument Narlikar shows how these narratives have been effectively used Yet she also sheds light on how indiscriminate overuse and misuse increasingly run the risk of adverse consequences for the system at large and devastating repercussions for the weakest members of society Narlikar advances a theory of agency and empowerment by focusing on the life cycles of narratives and concludes by offering policy relevant insights on how to construct winning and sustainable narratives *Local Air Service to Small Communities* United States.
